

# Russia Rejects UN Plan For Reduction of Arms

PARIS, Nov. 8—(AP)—Soviet Russia rejected the West's new arms reductions plan in the United Nations today. Soviet Foreign Minister Andrei Vishinsky clashed head-on with Secretary of State Dean Acheson in a debate which left few delegates hopeful of conciliation.

Vishinsky proposed instead a four-point resolution which would provide for a world disarmament conference by June 1.

Acheson called on the Russians to give the word for a halt to the Korean conflict and said a settlement of the Korean problem could open the door to broader consultations on other aspects of the Far Eastern situation.

Acheson made it plain the United States will not begin on a program of arms limitation, until the Korean war is stopped and existing world problems settled.

Vishinsky ranged up and down every policy of the United States and the West and found nothing good about any of them, especially the North Atlantic Treaty organization. He then offered a four-point resolution calling for:

1. A finding that participation in the "aggressive Atlantic bloc" and establishment of foreign naval, army and air bases in any part of the world is incompatible with the principles of the UN.
2. A cease-fire in Korea, with troops to be withdrawn in 10 days from the 38th parallel and from Korea in three months.
3. To ask all countries, in and out of the UN, to scrutinize at a world conference the question of the reduction of armed forces and armaments and to recommend that this conference convene at least before June 1, 1952.
4. A Big Five peace pact to which all other peace-loving states would adhere.

## Festival Raises \$400 for Fund

Approximately \$400 was raised by the international relations committee of the School of Home Economics through the second annual International Festival Oct. 27 and 28.

Money received from the festival will be used toward a scholarship fund for a foreign student in the school year 1952-53.

This year, the committee is sponsoring William Banfield, from Rio de Janeiro, Brazil, who is a student in Hotel Administration. After studying at the College for a year, Banfield expects to obtain a position with one of the Pan-American Airways' hotels in South America.

Since there are few places outside the United States where it is possible to obtain a university degree in education for home and family life, the committee has had requests for help from India, China, Japan, New Zealand, and parts of Europe and South America.

## 'Quake Recorded By Seismograph

An earthquake that took place within 6300 kilometers of the College was recorded yesterday morning on the seismograph of the College's Geophysics department.

Everett Kauhonen and John Duecher of the seismology division of the Geophysics department said the quake took place either in Peru, Spain or the Aleutian Islands. They said the seismograph records only the distance of the shock, and not the exact location.

They said the shock, first recorded at 8:54 a.m., reached its maximum here 20 minutes later. They said in the area of the quake, that meant the maximum would have been reached in about 70 seconds. Joseph Berg, of the division, is responsible for interpreting the seismograph's recordings.

# Korea Truce Talks To Resume Today

MUNSAN, Korea, Friday, Nov. 9—(AP)—The Korean armistice talks, tightly tied up on the buffer zone issue, resume at Panmunjom at 11 a.m. today (9 p.m. Thursday, EST).

Suspecting a Red booby trap, the allied negotiators Thursday "completely rejected" a Communist proposal to fix a demilitarized zone immediately once and for all—regardless of future battlefield changes which might favor the United Nations.

The allies insisted, however, they were still hopeful, but far from optimistic, of future progress.

Where to draw a buffer zone has been the snag in armistice talks almost since they began July 10. After the talks were started on Russia's suggestion, the Chinese and North Korean Communists long held out for settlement only on the 38th parallel.

They abandoned that demand for the old prewar boundary when the current series of subcommittee talks began Oct. 25.

Conceding that a buffer zone should be based on the current battle line, which is mostly well inside North Korea, the Reds Wednesday proposed that agreement be reached on where that line is and it be firmly fixed. Each side would have a veto power over any subsequent changes proposed by the other.

# Truman Denies He Offered Support to Ike

WASHINGTON, Nov. 8—(AP)—President Truman said today "There's not a word of truth" in a published report that he had offered to step aside and support Gen. Dwight D. Eisenhower for the Democratic presidential nomination in 1952.

Aides at Gen. Eisenhower's Supreme Allied Headquarters in Europe also discounted the story, published in the New York Times. They called it "purely fictional."

There was no immediate comment from the five-star general himself. Aides said there would be none.

The Times article was written by the veteran Arthur Krock, chief of the newspaper's Washington bureau, who has had the inside track several times in White House news breaks. He is a three-times Pulitzer Prize winner.
