

DeMolay Asks For Charter

The Penn State DeMolay Club has made application to the Senate Committee on Student welfare for a charter.

The club, organized last April, hopes to apply to the DeMolay Grand Council for recognition if they receive the school charter. DeMolay is a fraternal order for boys, under the sponsorship and guidance of a Masonic body.

The purpose of the club is to bring together any DeMolays on campus from out of town, and to aid any persons interested in DeMolay work. President Thomas Farrell said that any freshmen or sophomores interested in the club should contact him for further information.

The organization meets the first and third Wednesdays of the month.

Wiggins--

(Continued from page one)

John Bennett of Union Theological Seminary will discuss "The Religious Basis of Freedom" with Rabbi Benjamin Kahn participating on the panel of the discussion which will follow.

Col. Francis P. Miller, State department consultant, and James Fulton, congressman of the 31st district of Pennsylvania, will speak on "The Use of Power in a Free Society."

Dr. Liston Pope, dean of the Yale Divinity School, will deliver the address in Chapel Sunday morning on the theme of the colloquy.

Harry Butcher, secretary of the Committee of 70, Philadelphia, will also participate in the colloquy. All discussions will take place in 121 Sparks. After each address there will be a panel of men made up of all or most of the men speaking at the colloquy to answer the questions raised by students.

Campaigns--

ters down, to his knowledge. The majority of Lion Party posters was placed outside store windows and buildings. State Party posters were placed inside stores for the most part, it was pointed out.

The editorial comment in yesterday's Daily Collegian critical of parts of both party platforms received a "no comment" from Amole. Evert said he hoped voters would consider both the Lion Party platform and its candidates before they cast their ballots tomorrow. He said he thought there is "something definitely worthwhile in the platform."

Dance Class Makeup

Members of the Student Union-counseling service's dance class which was canceled Friday may attend the meeting at 6:30 tonight in the TUB.

This will be the last chance to make up the class.

Froth Girl Entries Due by Saturday

Entries for the Froth "Girl of the Month" contest must be submitted to Student Union desk in Old Main by Saturday noon.

Photographs, on which judging is based, must be submitted with each entry. Name, address, and collegiate status should also accompany the entry.

Women may enter themselves in the contest, or they may be sponsored by interested groups, such as fraternities and other organizations.

Material for Old Mania, Froth's announcements of pinnings, engagements, and marriages, should be mailed or submitted by Friday to Renee Kluger, 413 Simmons Hall.

Alumnus to Head Bureau of Mines

John J. V. Forbes, who graduated from the College in 1911 with a bachelor of science degree in mining engineering, has received a recess appointment as director of the Bureau of Mines, U.S. Department of the Interior.

Forbes has served previously as chief of the bureau's health and safety division, chief engineer of the safety extension service and of the mineral production security division, and chief inspector of the coal mine inspection division.

Red Cross--

(Continued from page one)

Cross unit worked more than seven hours Monday securing 159 pints of blood.

Miss Cornelius said the destination of the blood is determined periodically by the War department, but all of it is used for defense. Some of the blood donated here Monday has already been flown to California where it is recycled and flown to Korea within 72 hours after donation.

Donors are given a complete physical examination before donating and receive refreshments after the donation. Those becoming ill following the donation may secure a class excuse for the day by presenting their appointment cards to the Dean of Men or Dean of Women.

The blood campaign, sponsored by an All-College Cabinet committee, opened Oct. 18. The original goal of 400 was raised to 600 and finally fixed at 800 when pledges repeatedly topped the mark. Yesterday's total passed the final goal by 187.

Coffee Hour Today

Representatives of the Association of Independent Men Board of Governors and one-half of the members of the Liberal Arts Student Council will be guests of Dean of Men H. K. Wilson at the weekly coffee hour in the Dean of Men's office this afternoon.

GABARDINE OVERCOAT. Hughes & Hatcher label, Bill; 249 Hamilton. Phone 1191. Reward. I have yours.

A gun turret for the B-36 bomber undergoes test as it comes off the assembly line at a General Electric plant.

An advanced model of General Electric's J-47 turbojet engine packs far more power within the same size.

G-E engineers developed this portable steering unit which enables Navy ships to be steered from any of several widely separated strategic positions.

Ideas from college graduates at General Electric are helping U. S. mobilization

Add to the above the nuclear-powered aircraft engine that General Electric is developing for the Air Force ... turbosuperchargers ... guided missiles ... radar ... the plutonium-producing reactors which the Company operates at Hanford, Washington for the Atomic Energy Commission.

Into vital national projects like these are going the efforts of hundreds of scientists, engineers, chemists, physicists and other college graduates who are making their careers at General Electric.

There's a major reason why General Electric is

asked to contribute to so many of these projects. The Company has prided itself on building an outstanding engineering, technical and business organization, one that can take the toughest problems and master them, one that can be a steady source of new ideas.

Young people from American colleges and universities, their skills and talents further developed through G-E training courses and rotational job programs, are forming the core of that organization and are the source of the ideas that are standing the nation in good stead.

You can put your confidence in—
