

Atomic Artillery Ready For Future Use-Collins

WASHINGTON, Dec. 6—(AP)—Gen. J. Lawton Collins said tonight the United States has developed atomic artillery and he indicated that such weapons may be ready for combat use in the "not too distant" future.

The Army's chief of staff said atomic weapons will not revolutionize ground warfare but they will "greatly enhance the power defense" and be of greater value in defense than in attack.

Collins added the Army already is making plans for the day when atomic artillery and guided missile battalions will replace some of the conventional heavy artillery.

He also said:

- (1) He still believes there will be an armistice in Korea.
- (2) With 'an armistice, the withdrawal of American troops from Korea will depend largely on political agreements reached between the Reds and the Allies. He added: "We should not expect the early reduction of any of our forces in Korea."
- (3) If truce talks fail, it is possible the Allies will bring greater sea and air pressure against Red China.
- (4) The United Nations' defense line in Korea is so strong that it will hold "under any foreseeable development that is likely to occur."
- (5) Alaskan defenses are strong enough to hold against Soviet attack.
- (6) If the United States had not gone into Korea to meet "naked aggression" then the United Nations would be "deader than a dodo."

White Russia, Greece Battling For UN Seat

PARIS, Dec. 6—(AP)—The United Nations split about evenly—and indecisively—today on whether American-supported Greece or Soviet White Russia should get a seat on the security council.

After eight polls were taken by secret ballot, further voting was put off until next week. White Russia led Greece, 32 to 27, on the eighth ballot, but needed at least 40 of the 60 votes.

Two other seats at stake today were won without contest by Pakistan and Chile. They succeed India and Ecuador for two-year terms starting Jan. 1.

Greece and White Russia were contending for the seat from which Yugoslavia is retiring after a two-year term won with American support and against bitter Russian opposition in 1949. Russia's candidate then was Communist Czechoslovakia.

The Communists started it with a defiant march on government buildings against orders forbidding demonstrations. The Communist Tudeh party itself is outlawed, but has flourished underground.

Allies Charge 'Blackmail' In Communists' Demands

MUNSAN, Korea, Friday, Dec. 7—(AP)—Communist truce negotiators held out for a "price" Thursday on discussing exchange of Allied prisoners of war in Korea. An official United Nations command spokesman called it "blackmail."

The Reds said Allied acceptance of a Communist plan for supervising an armistice must come before they would talk about prisoners.

They made this evident after Allied delegates presented an eight-point revised plan for supervision of a truce which offered some concessions to the Reds.

The Communists were expected to answer the revised UN plan or submit a new one of their own at a fourth subcommittee meeting, scheduled for 11 a.m., today

(9 p.m., Thursday, EST), at Panmunjom.

Maj. Gen. Howard M. Turner, senior UN sub-delegate, put the prisoner issue to the Reds Thursday, proposing to speed consideration by placing a second joint sub-committee at work on it immediately.

North Korean Maj. Gen. Lee Song Cho, Red sub-delegate, heatedly replied:

"When there is no prospect for progress of the meeting, our senior delegate (Lt. Gen. Ham Il) will not give you any answer about the prisoners of war."
