WHAT'S SO DIFFERENT ABOUT ENGLEWOOD, N. J.?

In Englewood, the local telephone exchange looks pretty much like the telephone building in any other town.

And Englewood's telephones seem just the same as the twenty-seven million other dial telephones in the country.

But there's a difference...

You can pick up a telephone in Englewood and dial San Francisco telephone numbers direct!

In fact, you can dial any one of eleven million telephone numbers in thirteen widely scattered areas from coast to coast.

That's what makes Englewood different — the new kind of Long Distance telephone service on trial there by the Bell System.

Long Distance dialing is another example of the Bell System's constant search for ways to provide you with ever-better telephone service.
