Reserved seat tickets at 60 cents are on sale for the appearance of Frankel and Ryder, modern dance team, at 8 p.m. Saturday in Schwab Auditorium.

### Ceramists Hear Allen Lecture

Did you know that camel's hair brushes were made from the fur of the Siberian squirrel?

Neither did most of the 70 people who heard the talk on vitrified china ware given by H. F. Allen, General Manager of the Fall Creek plant of the Jackson Vitrified China Co., last night at the meeting of the American Ceramics Society.

Other points covered in the talk on vitrified china ware were American methods, foreign competition, and the history of the pottery trade.

The camel's hair brushes, Mr. Allen explained, were used in painting lines and bands on small orders of china ware which call for under-glaze decorations.

"Japanese competition is probably the most serious competition American producers face," Mr. Allen said. He also explained that the low wages the Japanese worker receives is a major reason for this competition.
