### Noose Hangs High For Petition Signers

By MIMI UNGAR and HELEN LUYBEN

Eighty-one students are liable, at the discretion of the Daily Collegian, to be hanged by the neck until dead.

The Daily Collegian has no intention of exercising its privilege at this time.

A three page petition, circulated by members of the Daily Collegian staff entitled "Let's Keep Our Freedom," gives the Daily Collegian the right to put the noose around the necks of the accommodating students.

#### Ratio Could Be Cut

"We give the bearer of this petition permission, upon receipt of our signatures, to hang us by the necks until dead." This sentence was buried half-way through the circular, but barely half of those approached ever got down that far. In all, 165 students were asked to sign the petition, typed in capital letters and single-spaced over three pages.

The ratio between the men and women at Penn State could be cut down considerably too, since women were more prone to give their signatures without more than a second's glance. Of the 43 women signers, most of them took the unselfish attitude—you prob-

### Proposal Would Permit Dating, Establish Joint Customs Board

By DAVE PELLNITZ

A proposed revision of freshman customs regulations which would permit limited dating to freshmen undergoing customs was read at a meeting of the freshman class last night by Robert Smoot, class president.

The suggested plan, which was the only major change in the customs program, would allow dating from 5:30 p.m. each Friday to 5:30 p.m. Sunday, except during the first week of customs when no dating at all would be permitted.

Smoot also read the preliminary draft for a proposed joint customs board and joint customs enforcement to the approximately 75 freshmen present at the meeting.

The proposal would call for the establishment of a Freshman Customs Board composed of four upperclassmen and four upperclasswomen, with the chairmen of Tribunal and Judicial serving as co-chairmen.

The suggested board would be empowered to: (1) establish, enforce, interpret, and be responsible for the conduct of the freshman customs program; (2) use its discretion in the enforcement of joint enforcement days; (3) decide on a date for the conclusion of customs; (4) determine customs holidays, and (5) determine all immunities as provided for in the regulations.

The Freshman Customs Board, if approved by All-College Cabinet, would necessitate a change in the section of the All-College Constitution which delegates to Judicial and Tribunal the power to control customs.

Under the new proposal violators of freshman customs regulations would be brought before the Freshman Customs Board which would have the right to decide the guilt or innocence of the party involved as well as the punishment to be inflicted. In cases involving women, the chairman of Judicial would sit as chairman.

### Suggestions On Customs Approved

By MARSHALL O. DONLEY

Tribunal last night unanimously approved a preliminary group of recommendations concerning freshman customs.

The recommendations included a suggestion for a joint program of customs for freshman men and women, with an eight person board to handle violations. The board, to consist of four men and four women, would be the first step in customs enforcement, with appeal powers granted to a second judiciary group.

The suggestions, which were approved at a business meeting following the weekly Tribunal judiciary meeting, would also allow more lenient freshman dating rulings and would add a few minor duties to freshman customs.

Fifteen cases, all involving parking or driving violations on the campus, were heard by Tribunal at the judiciary meeting.

Eight students were fined \$1 for parking violations, with six of the fines being suspended. The two students whose fines were sustained were charged with at least three traffic violations.

Five students were given warnings by Tribunal and were told that another offense would be considered finable. The group held no complaint against one student on the grounds of misinterpretation of the conditions of his violation.

### Fire Victims' Reports Due Saturday Noon

Saturday noon has been set as the deadline for reports from persons involved in the Gentzel fire who wish assistance from the donations which have been collected, drive officials announced yesterday.

Daniel DeMarino, assistant dean of men, said yesterday that only five persons of the 15 involved have reported to his office. The students involved should report to DeMarino whether or not they have received money from insurance claims, Marvin Krasnansky, drive chairman, said.

Krasnansky said that those students involved in the fire who do not report by Saturday noon will not be considered in distribution of the funds.

The five students who have reported indicated they had received or expected to receive a total of \$1000 in insurance money. One of the five had no insurance coverage and the other four all reported coverage between \$200 and \$300.

### Chest Drive Nets \$2273 From Staff

Members of the faculty and staff contributed \$2273.42 to this year's Campus Chest according to figures released yesterday by drive leaders.

According to plans made before the faculty drive began, income from that portion of the Chest drive will be allocated only to the Penn State Christian Association and the World Student Service Fund, as designated by those who contributed. Undesignated donations were divided between the two beneficiaries.

The percentage breakdown after allocation of both designated and undesignated funds will give \$1647.66 to the PSCA and \$557.55 to WSSF, officials said. A total of \$68.21, three per cent of drive income from PSCA, WSSF, and undesignated funds, has been used for operating expenses.

Of the designated funds, \$1053.64 was listed for the PSCA and \$407.53 for WSSF.

Contributions to the Campus Chest from the faculty drive last year totaled \$2330.40, according to William Klisanin, chairman of the student drive. Totals from the student half of the Chest drive will not be available until after second semester fees are paid, Klisanin said.

This year's faculty drive was headed by Ralph E. Armington, assistant professor of electrical engineering.

### Fee Payment Dates Named

Fee payments for the spring semester will be due Feb. 21 and 22 in 5 Willard Hall, David C. Hogan, bursar, reminded students yesterday.

Students who pay their fees late will be charged an additional \$5 late payment fee, Hogan said.

There will be no alphabetical order for fee payment. Students may pay fees any time between 9 a.m. and 4 p.m. on either day.

Fees will be listed by matriculation number on boards at one side of the room. Hogan asked students to speed up fee-paying by checking the lists to see the amount due and making out checks before getting into line.
