

# 86 Chem-Phys, Home Ec Majors On Dean's Lists

Forty-five students in the School of Chemistry and Physics and 41 students in the School of Home Economics were named to the dean's list for the fall semester of 1951, released yesterday.

## Two Areas Named for Ed Projects

Pittsburgh and the Bethlehem-Allentown-Easton areas were yesterday named by President Milton S. Eisenhower as the areas for special projects in workers' education to be conducted by the College this year.

The projects, which are to be sponsored by a grant from the Ford Foundation, are designed to promote workers' training programs in the fields of world affairs and community participation.

The Penn State representatives will work directly with the local union officials in conducting the program. The subject matter will be adapted to the needs and interests of the individual unions. Educational organizations and institutions in the area will be asked to participate in the training.

Also taking part in the project are the Universities of California, Chicago, and Wisconsin. The Ford Foundation has allocated \$95,000 to the four schools for the program.

The project will include experiments on the integration of workers' education with regular union activities, the testing of special training and instructional materials to be prepared by the four cooperating colleges, and the inauguration of a follow-up study of community relations training programs previously held for local union representatives at Penn State.

### Psych Head to Speak

Dr. Bruce V. Moore, head of the Department of Psychology, will speak on "Intercalary Prayer" at the Penn State Christian Association Roundtable at 8 tonight in 304 Old Main.

Seniors on the Chem-Phys dean's list are Joseph Bard, 3.00; Joseph Geiger, 2.52; William Gibbons, 2.55; Ralph Johnson, 2.69; John McNally, 2.57; David Nicodemus, 2.57; Armine Paul, 2.61; Francis Pramuk, 2.52; Joseph Ritter, 2.52; Eugene Shelly, 2.30.

Juniors: Stanley Bushkoff, 2.76; Ronald Cohen, 3.00; William Holtzman, 2.55; Peter Lantabury, 3.00; William Mikesell, 2.55; Otilie Milliken, 2.67; Robert Motley, 2.81; Rocco Narcisi, 3.00; James Plyler, 2.81; Frances Rodgers, 2.72; David Schwartz, 2.52; Jack Shearer, 3.00; Phyllis Szolack, 2.55.

Sophomores: Robert Euwema, 2.92; Gerry Gillespie, 2.85; Lawrence Gregor, 2.91; Harry Hazlehurst, 3.00; Jerry Henderson, 2.67; Donald Scheffler, 2.81.

Freshmen: William Bauer, 2.76; Arlene Borgeson, 2.78; Catter Brooks, 3.00; John Chillrud, 2.53; Ronald Cohn, 2.58; Marvin Daley, 2.53; Buttrick Haas, 2.76; Jack Harmon, 2.50; David Hutchinson, 2.66; Kenneth Kresge, 2.76; William Luyben, 3.00; Robert McInroy, 2.77; Jane Metz, 2.56; Robert Smoth, 3.00; Roger Uhler, 2.85; George Wright, 2.61.

Students named to the School of Home Economics dean's list are: Nancy Ferguson, 2.53; Vivian Hartenbach, 2.55; Ruth Horn, 2.51; Shirley Kellar, 2.58; Joanne McMullen, 2.50; Eleanor Milliken, 2.82; Virginia Moore, 2.68; Elaine Notari, 2.60; June Rollison, 2.50; Margaret Rouser, 2.62; Martha Strawn, 2.67; Joanne Straley, 2.75; Marjorie Telford, 2.87; Lois Woolford, 2.68.

Juniors: Grace Anderson, 2.88; Eloise Grimm, 2.53; Lorraine Heffner, 2.53; Rita Keeney, 2.87; Marjory Maxwell, 2.54; Barbara Perrine, 2.70; Virginia Shuntill, 2.58; Ruth Swetland, 3.00.

Sophomores: Jane Bishop, 2.50; Judith Callet, 2.73; Joan Chapman, 2.50; Marian Cooper, 2.52; Marilyn Franklin, 2.88; Shirley Habecker, 2.83; Mary Housum, 2.57; Patricia Jenkins, 2.58; Thomas Long, 2.77; Lois Powers, 2.94.

Freshmen: Jane Evans, 2.60; Janice Holm, 3.00; Martha MacDonald, 2.50; Susan Minnich, 2.55; Edna Patterson, 2.53; Marian Romberg, 2.90; William Shifflett, 2.55; Arlene Smith, 2.60.

## Alpha Phi Omega Plans Open Mixer

Alpha Phi Omega, national service fraternity, will hold its second open mixer for new members at 7 p.m. tomorrow in 3 Sparks, Stanley Rapp, president, said yesterday.

Rapp said 50 students attended the first mixer last week and 25 attended the first pledge meeting Monday.

Rapp said the fraternity has pledged 500 service hours to the community in co-operation with the State College Commerce Club. Alpha Phi Omega also provides counseling for local Boy Scout units, he said.

Requirements for membership are previous affiliation with the Boy Scouts and a desire to serve, Rapp said.

## Ag Heads To Discuss 1st Congress

Washington officials of the State and Agriculture departments will converge on the College March 11 to confer with College administrators concerning America's first session of the International Grassland Congress, to be held here August 17-23.

Some 3000 delegates from 65 countries will exchange information, on the improvement, management and use of grasslands at the August session.

Dr. Herbert R. Albrecht, head of the Agronomy department, is heading arrangements for the March 11 meeting. President Milton S. Eisenhower, Dr. Lyman E. Jackson, dean of the School of Agriculture; J. M. Fry, state director of the agricultural experiment station; Dr. M. A. Farrell, acting director of the experiment station, and other agriculture officials will attend the meeting.

Heading the Washington delegation will be W. A. Chapline, U.S. Forest Service and attached to the Department of State as executive secretary of the organizing committee for the congress.

Stress will be placed on better methods for conservation of land and water resources.

The last session was held in the Netherlands in 1949; the first was in Germany in 1927.

## Sophomores Need Artistic Talent

Sophomores with decorative and artistic talent are needed by the sophomore class to prepare for their class dance March 22, according to Donald Herbine, class president. Sophomores with ability to draw, paint, or sketch are especially needed. Those interested in working may contact Herbine.

The dance will be informal and free to sophomores and their dates. There will be dancing from 9 p.m. to 12 midnight to the music of Jack Jenkins and his orchestra.

### Schug to Give Paper

Clayton H. Schug, associate professor of public speaking, has been invited to present a paper in the debate section of the Speech Association of the Eastern States at the meeting to be held April 17 to 19 in New York.

## 'Now Just Once More'

—Photo by McNeillie  
PEGGY FAHRINGER (left) and Renee Kluger, assistant and prop manager respectively of "You Can't Take It With You," rehearse with Groucho and Harpo, the two kittens who have starring roles as paper weights in the Players' production. The play opens tomorrow night in Schwab Auditorium.

## Fires, Snakes, Skull Appear in Comedy

By BETTIE LOUX

Running the gamut from a skull to snakes and rockets, the property list for "You Can't Take It With You" is just as eccentric and many times longer than the large cast for the Kauffman-Hart comedy which opens tomorrow night in Schwab Auditorium.

Players have used both elbow-grease and ingenuity to fill the requirements of the 355 suggested properties, the longest list for any play this year, according to property manager Renee Kluger.

"We rummaged through the prop cage," she said, "and found we were able to use anything—even things we didn't know what to call."

A pair of old nylon stockings have been converted into Grandpa's pets—a couple of snakes. Players stuffed the stockings with cotton batting, painted them green, and wired them so they could rear their lovely heads over their solarium.

### Experimenting with Fire

When Donald comes on stage clutching a jar of "flies," in reality the insects will be little pieces of cotton which have been dipped in black paint. Thus, no insect plague should the jar top fall off.

Two chemistry students have been experimenting to make a harmless red fire—something the wardens will approve. Nothing they've come up with so far can be used.

Included in the program's list of credits for individuals and College departments who have helped in the search for properties are a few fictitious names. A glimpse at the program reveals that the Interfraternity Council has donated a gin bottle, and a racing form comes with the compliments of the Kefauver committee.

A model ship allegedly was given to Players by Admiral Nimitz himself. The rest are up to the audience to figure out.

### Cats Suffer Stage Fright

Director Warren S. Smith said yesterday that the white Persian kittens came through their audition all right and should work out fine as soon as they get over their nervousness.

When they are comfortably asleep in a Player's lap they are perfect "paperweights," but stage fright seems to affect them when they find themselves sitting, under bright stage lights, on Penns-

half-finished plays.

Players are renting a xylophone from the Music department, and borrowing a printing press from Prof. Warren B. Mack, head of the Horticulture department.

The snake solarium was donated by the Zoology department, and a dart board will be hurried over to Schwab Auditorium as soon as a sorority is finished using it for a rushing party.

A human skull, used as a candy dish and ash tray, in the play, is being lent to Players by Ina Gerson.

## Fifty Register Two Protests On Air Topic

More than 50 residents of State College attended last night's Borough Council meeting to register two protests about the airport problem before council.

A petition was presented by Kent Forster, of the Corl Street School PTA, with 584 signatures. The petition recognized the need for good airport facilities but protested the air depot site as a danger to lives of children and property. The airport is situated near Corl Street Grade School.

Mrs. R. U. Blasingame read a letter from Mayor James T. Kirk of Elizabeth, N.J., emphasizing the dangers involved when an airport is within a city's limits. Kirk explained the three recent crashes there in detail and quoted from a book on airport construction urging locations away from residential and other built-up areas.

Some of the citizens felt that there should be a public poll taken, but the board of directors is opposed to such action until further study can be made of possible sites, cost involved, and similar issues.

# Week of Proofreading, Cutting Begins on 2d Issue of Inkling

Proofreading and cutting proofs down to page size began last night for the second issue of Inkling, campus literary magazine.

The student end of the production will take a week, and the magazine will go on sale after another week in the College printing plant, Florenz Fenton, editor, said.

The cover, designed by John Tibbott and Milton Bernstein, will be a pastel grey-green color with "Penn State" printed on a red box and "Inkling" drawn in a dark green.

Five short stories, nine poems, and a "couple of features" will fill the 48 pages, according to Fenton. Most of the stories will be illustrated and a picture will accompany one of the poems "to help the reader understand the verse," Fenton said.

Last spring the only other issue of the magazine, printed by the offset process, appeared. Inkling sells for 25 cents a copy.

### Phi Sigma Iota to Meet

Phi Sigma Iota, Romance languages honorary fraternity, will meet at 7 tonight in Atherton lounge. Patricia Bowles will present a paper entitled "Contemporary Sociological Theory as Applied to Spanish Literature of Renaissance of Juan de Avila."

## It's Almost Ready
