Incorporation of the afterburner adds substantially to the thrust of the plane's engine, says Consolidated Vultee which built the plane as an experimental ship to explore and test flight characteristics of a true delta wing.

College Plans To Sponsor European Tour

The first College-sponsored study tour to Europe in two years is scheduled for this summer, according to Kent Forster, associate professor of history and group leader.

The tour, which will leave New York on June 25 and will return August 18, will include England, Holland, Germany, Austria, Italy, Switzerland, and France.

Membership in the study tour, according to Forster, is open to students, teachers, and other adults who want to see Western Europe in perspective and observe the life of its peoples.

Some of the specific points the tour is scheduled to visit are Southampton and London, England; Amsterdam and The Hague, Holland; Bonn, Siegburg, Frankfurt, and Munich, Germany; Innsbruck, Austria; Venice, Florence, and Milan, Italy; Geneva, Switzerland; and Paris and Cherbourg, France.

The round trip cost of the tour from New York is \$1088, according to Peter Nadsen Inc., the educational travel agency managing the tour.

Three Educators Awarded Medals

Three educators were awarded medals for 25 years service in agricultural education at the annual banquet of the Penn State chapter of Future Farmers of America.

Dr. William F. Hall, professor of agricultural education; William J. Tucker, area advisor for Centre and Clearfield counties; and Edwin H. Dale, former teacher of vocational agriculture at three Centre County schools were the recipients of the awards.

H. C. Fetterolf, Harrisburg, chief of the state's vocational agricultural division, presented the medals.

Penn State Grange To Meet Tonight

The Penn State Grange will hold a meeting at 7 tonight in 100 Horticulture building. A group picture of the club's officers will be taken.

Rehearsal of the two skits to be presented at Centre Hall Friday will also take place at the meeting, Gerald Birth, publicity chairman, said.

Miners to Hold Career Meeting

The Mining Engineering Society will hold its "Career Conference" at 7:30 tonight in the Mineral Industries Art Gallery in the Mineral Industries building.

A panel of six men representing six companies in the mining industry will present their respective company's policies in regard to graduate and possible summer employment. Each member of the panel will describe his company's policy in regard to type of work, how they operate, and what the future employe can expect.

The conference is sponsored by the Penn State chapter of the American Institute of Mining and Metallurgical Engineering. The meeting is open to the public. All engineering students are urged to attend.

working for a master's and doctor's degree in agricultural engineering; he also received his bachelor's degree from Allahabad.

Shunil was surprised at "the preponderance of automobiles" in the United States. "I'd heard there were a lot of automobiles here, but I didn't know what that meant. Then landing in New York and driving for seven blocks without finding a single place to park! You just can't imagine things until you see them," Shunil says. "People of India think of America as a Utopia."

Rustum and Prodipto were both surprised to see American girls playing hockey. It is one of their favorite games, but only men play it in India. Their choice of sports is British. They miss cricket, which all of them played for their colleges. Shunil describes the sport as one of endurance, "sometimes lasting as long as five days."

Incidentally, Shunril rides to classes on a small bicycle—probably to keep in shape. Prodipto prefers motorcycling; his ambition is to make a cross-country trip before he leaves the United States.

Rustum, Prodipto, and Shunil plan to return to India as soon as they can. Rustum hopes to be able to work for the United States government or a private agency in India.

Fernelius Finishes Chem Lecture Tour 23 to Participate In State Chorus

Dr. W. C. Fernelius, professor and head of the Department of Chemistry, recently completed a lecture tour on which he presented three papers.

Dr. Fernelius spoke on "The Relative Stability of Coordination Compounds" before the Washington Chemical Society in Washington, D. C., and at a meeting of the Lehigh Valley section of the American Chemical Society. In Bethlehem, Pa., he spoke on "The Teaching of General Chemistry."

Before the Extractive Metallurgy Division of the American Institute of Mining and Metallurgical Engineers, Dr. Fernelius presented a paper on "Relative Stability of Chelate Compounds with Reference to Liquid Extraction."

Camera Club to Meet

The Penn State Camera Club will meet at 7:30 tonight in 305 Horticulture Building. A demonstration on "The Use of Varigam" has been planned.

23 to Participate In State Chorus

Twenty-three students representing Penn State choral organizations will participate in the Pennsylvania Collegiate Chorus this weekend at Indiana State Teachers College, Indiana, Pa.

The representatives, chosen from the Chapel Choir, Glee Club, and Treble Singers, will be at the teachers college Saturday, Sunday, and Monday. The chorus will rehearse under the guest conductor, Dr. Igor Jones, of the Bethlehem Bach Choir, and will present a concert for the public Monday evening in Fisher Auditorium on the ISTC campus.
