

British Guests Tour Campus

Dr. Bertrand Hallward, vice chancellor of Nottingham University, Nottingham, England, and Mrs. Hallward visited the College yesterday as part of Dr. Hallward's three-month tour of American colleges and universities.

Vice chancellor is a position equivalent to that of president in an American university. Chancellor is an honorary position.

Dr. Hallward was especially interested in the layout of the College. He said he was extremely fortunate in having such beautiful spring weather for his visit here.

Dr. Hallward has been taking colored pictures and plans to have slides made, so he can take a record of his American tour back to England.

The Hallwards met Pearl O. Weston, Dean of Women, yesterday and were her guests at dinner in the women's dormitories. Dr. Hallward said he is interested in all phases of college life.

Home economics is one of the chief interests of Mrs. Hallward, who said that, like any other housewife, she is very interested in learning new ways to improve her home. She said she was very impressed by the American way of life and that the English don't have the conveniences the Americans have.

Dr. Hallward is very interested in dramatics and the theater. The Hallwards spent part of the afternoon talking to members of Players and attended a tea in the Green Room, Players' lounge in Schwab Auditorium.

The Hallwards spent Wednesday evening meeting President Milton S. Eisenhower and faculty members and discussing the College. The Hallwards also went on sight-seeing tours of some of the campus buildings.

This is Hallwards' first trip to the United States. They arrived in the U.S. in late February. Their three-month tour is sponsored by the State department of England.

Fee Raise --

traveling during competition, and all their expenses on practice judging trips.

The new proposal, he said, would cover all team expenses during competition trips, but that the costs of the practice judging trips would still be paid by team members.

In his report, Mutchler pointed out that there are only 2062 actual parking spaces available on campus and that there are 4127 cars owned and operated on the campus. He stated that the only possible solution to the problem would be to cut down on the number of cars allowed on campus and to provide stricter enforcement of the regulations.

Under his plan, only 500 student commuters and 1458 faculty and staff members would be given permits to drive and park on campus. The rest of the spaces would be used for storage and service spaces.

Cabinet approved the plan with the following provisions:

"1. The College establish a long range policy of providing sufficient parking on the campus, as conveniently located as practical, for all drivers who wish to use the campus.

"2. The College maintain the present restrictions on the use of student and faculty cars only as a temporary expedient until adequate parking for all may be provided."

MI Tickets Available

Tickets for the Mineral Industries banquet tomorrow night at the Nittany Lion Inn are available to MI students until 5 p.m. today in Dean Edward Steidle's office in the Mineral Industries building.

Sieg Named Recipient Of Award

William W. Sieg, president of Titan Metal Manufacturing Co., has been named recipient of the David Ford McFarland award by the Penn State chapter of the American Society for Metals.

Dr. McFarland, whom the award honors, retired in 1949 after serving nearly 30 years as head of the Department of Metallurgy at the College.

The award will be presented to Sieg at a dinner meeting Tuesday at the Nittany Lion Inn.

The award was established in 1949 as annual recognition to a metallurgy alumnus of the College. Sieg's selection was based upon his attainments in the metallurgical industry and outstanding work in civic affairs.

Sieg was graduated from the College in 1923 and received his master's degree in 1925. He joined the Titan Metal Manufacturing Co. in Bellefonte in 1929 and was appointed to its board of directors in 1934.

He became vice president and general manager in 1936 and president in 1948. He is currently serving his second consecutive term as president of the Pennsylvania State Chamber of Commerce.

Music Profs To Present Demonstration

Dr. Hummel Fishburn, professor of music education, and Frank Gullo, associate professor of music, will present a group singing demonstration at a meeting for elementary teachers at the Music Educators National Conference which starts today in Philadelphia.

Dr. Fishburn will also serve on the committee for music in higher education and the national research council at the six-day conference. James W. Dunlop, associate professor of music education, will serve as a member of the national committee for instrumental music.

A group of students and music faculty members will also attend the conference at which an estimated 5000 musicians from the United States will be present.

Radio Guild Party

The Radio Guild will hold a party at 8 tonight at the Phi Kappa Tau house. Members of the guild and their guests are invited to attend. Cost is 25 cents per person.

CENTERPOISE POWER

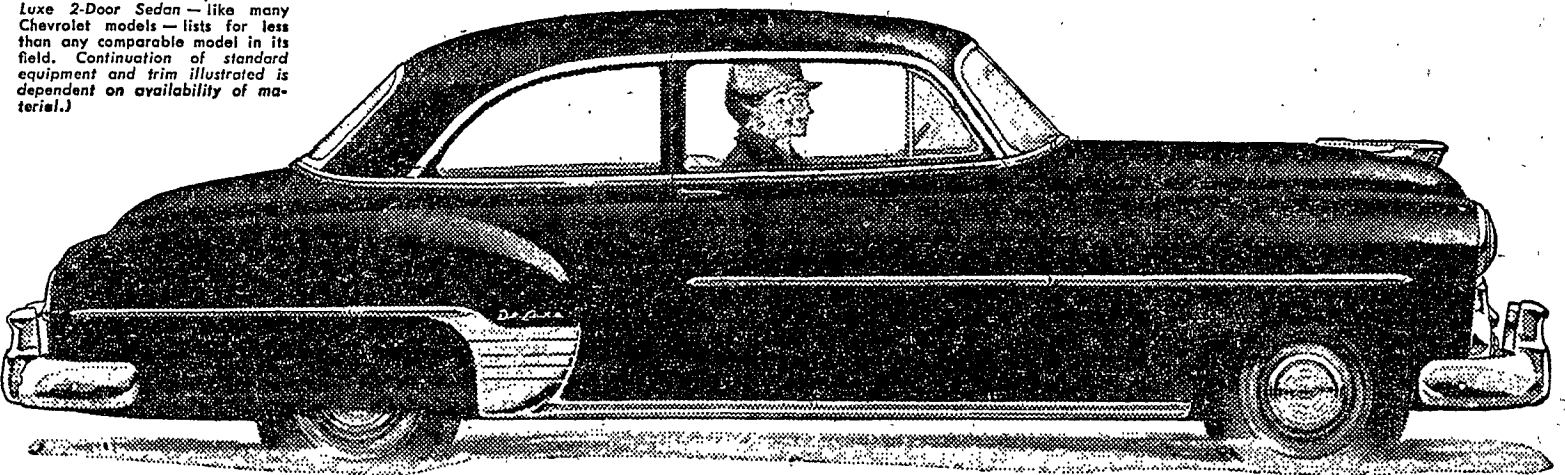

Vibration and power impulses are "screened out" as engine is centered and rubber-cushioned between new, high-side mountings.

BODY BY FISHER

Fisher Body sets the standard—for styling, for craftsmanship, for comfort! Fisher Uni-steel construction is extra strong.

Lowest priced in its field!

This beautiful new Styleline De Luxe 2-Door Sedan—like many Chevrolet models—lists for less than any comparable model in its field. Continuation of standard equipment and trim illustrated is dependent on availability of material.

4-WAY ENGINE LUBRICATION

Chevrolet's exclusive engine lubricating system supplies exactly the right kind and amount of lubrication to each moving part.

POWERGLIDE AUTOMATIC TRANSMISSION

Simpler with fewer parts to wear. Smoother—no complicated intermediate gears. Optional on De Luxe models at extra cost.

CAST IRON ALLOY PISTONS

The same material as the cylinder block, pistons expand and contract at same rate. This reduces wear, lowers oil consumption.

MOST POWERFUL VALVE-IN-HEAD ENGINE

Teamed with Powerglide is the most powerful valve-in-head engine in its field and an outstanding performer in any field!

LARGEST BRAKES

Big 11-inch brake drums apply more leverage for more stopping power. Stops are smoother, safer, with less effort.

UNITIZED KNEE-ACTION RIDE

Chevrolet's famous Knee-Action ride is now even softer, smoother. New shock absorbers give even finer ride control.

WIDEST COLOR CHOICE

26 rich new colors and two-tone combinations... widest choice in Chevrolet's field. New De Luxe interiors are color-matched.

WIDEST TREAD

Chevrolet measures 58 3/4 inches between centers of rear wheels—a broader base to give you more stability, less sway!

Chapel to Hear Aubrey

Dr. Edwin E. Aubrey, professor of thought at the University of Pennsylvania, will speak on "Courage in Uncertainty" at the Chapel services at 11 a.m. Sunday in Schwab Auditorium.

The Chapel Choir will sing "Herzliebster Jesu" by Cruger, "Cast Thy Burden Upon the Lord" by Mendelssohn, and "Jesu, Joy of Man's Desiring" by Bach.

George Ceiga, organist, will play "Cathedral Prelude and Fugue in E Minor" as the prelude, "Hilf Gott, dass mir's Gelingen-Passiontete Meditation" as the offertory, and "Ein Feste Burg ist unser Gott" as the postlude. All are by Bach.

Dr. Aubrey is a native of Glasgow, Scotland. In the course of his many lecturerships and visiting professorships, he was formerly associate professor of sociology at Miami University, professor of Christian theology and ethics at the University of Chicago, associate professor of Biblical literature at Vassar College, president of Crozer Theological Seminary, professor and chairman of religious thought at the University

Chapel Speaker

Dr. Edwin E. Aubrey

of Pennsylvania, and visiting lecturer in ethics at the California Institute of Technology.
