Junior Class Runs Warm and Cool

Michael Hanek, president of the junior class, was more or less compelled to cancel the junior class meeting called for last Tuesday night.

Hanek called the class meeting for the purpose of hearing the class view on the proposed increase of 25 cents in student fees, and also to get its opinion on the proposed joint freshman customs board.

Whether these two issues were not potent enough to draw the juniors is a poor argument. The juniors' last meeting was to discuss their class project and to consider the constitutional amendment asking for a statistical poll before fees could be raised.

Hanek thought the class hit an all-time low in attendance at that meeting when only 19 students turned out. But Tuesday's meeting went one further—there were merely four juniors who came out for the class meeting.

Many students argue that classes mean nothing in college. On the other hand, there are those who complain that classes don't carry enough strength. We would like to ask how they could possibly carry strength if the student apathy is so great? Yes, they are so eager to complain when action is taken and yet make no effort to change or help controversial action.

A small group of the class showed what could be done by working when it presented the record collection to the Pattee Library. But no work can or will be done in any student government unit when only four members of an organization can take time off to attend a meeting.

—Mimi Ungar

More Suspicion Will Curb Thefts

The recent theft of \$300 from the coat pocket of a freshman coed should have served as a warning to those who tend to be somewhat careless with their personal property.

The theft of the \$300 from the coed is not an isolated example, as a check of the records of the Campus Patrol can readily show. Since the loss by the coed was somewhat larger than the "normal" run of thefts, it drew a lot more attention.

Patrol records report the losses of everything from blankets to typewriters, and an odd assortment of items which would stretch the imagination of most persons. As recently as last Saturday, a chain hoist disappeared from Recreation Hall, and last Tuesday gasoline was stolen from a construction job.

Since Jan. 23, 24 thefts have been reported to the Campus Patrol. Only a small fraction of them have resulted in the owners having their property restored. That is not the fault of the patrol, for there is little that the patrol can do to apprehend the thief who removes a clarinet from Carnegie Hall, or an electric razor from a dormitory room.

About the only recourse students have is to be a bit more alert, a bit less careless with their property, a bit more suspicious of the prowler.

Hort Woods Plan Should Be Passed

One of the provisions of All-College Cabinet's acceptance of the parking plan that would restrict student driving on campus during class hours was that the College work toward a goal of providing parking facilities on campus for all those who wished to drive.

That the College plans to do just that was made apparent Thursday night when Walter Wiegand, director of the physical plant, secured the approval of cabinet on a proposed plan which would provide for a 181-car parking lot in the Hort Woods area adjacent to Beaver Field. Wiegand's appearance before cabinet is, we think, an excellent illustration of the regard for student government among members of the administration.

And what Wiegand had to say to cabinet is further indication that the administration is aware that banning most student drivers from campus is not a permanent solution of the parking problem. He indicated that the proposed lot in Hort Woods would be the first of several lots designed to ease the parking jam.

Wiegand also took time to explain another point we think students have not been made familiar with. When the plan is inaugurated in the fall, only so many parking permits will be issued as there are spaces. This plan does not take into consideration, Wiegand explained, the use factor, that is, the number of spaces which will be in use at any given time. This factor may be as low as 60 per cent, he said.

When the plan goes into effect, a study will be made to determine the exact size of this use factor. Additional parking permits will be issued in order to maintain full use of the facilities.

Driving by students on campus will be restricted to commuters, that is, those students living outside the boundaries of State College. When this use factor is determined, the line within which students may not drive on campus will be drawn closer to the campus. The same plan will be followed as additional facilities are made available.

The plan makes sense, and the additional parking space which would be provided by the Hort Woods lot is an indication that the College plans immediate action on the problem.

The trustees should approve the Hort Woods parking lot as the first step toward expanded parking facilities for the College.

Interpreting the News

Ike May Ask For SHAPE Relief

By J. M. ROBERTS JR.
 Associated Press News Analyst

General Eisenhower will make an exhaustive report Tuesday on the progress of European defense in the past year, and it probably will be his swan song as Supreme Commander for the Allied Powers in Europe.

Soon after that the General is expected to ask for relief from that post to become Dwight D. Eisenhower, candidate for the Republican Presidential nomination.

Not that he will resign his commission unless and until he is actually nominated. But he is known to be very earnest about his belief that politics and the Army should not get mixed up, and that he should set no example which might lead to the practice of Army officers "buckling" for positions which would attract political attention. To enter even the pre-convention campaign he must devise some means of making this position clear. He may try to do it when he writes the

President about his relief from SHAPE.

Just when this may come is still the General's secret, but the voluntary leaders of the campaign for him in this country are confidently expectant that he will get home in time to make two or three speeches. The middle of May now is the target date on which they are basing their hopes.

The matter of timing may be settled at conferences in Paris soon between Eisenhower and one or more of his campaign leaders who may go there in the next two or three days.

If Eisenhower acts now, the President would have time to confer with the European governments and get the matter of succession settled in four or five weeks.

COLLEGE PLACEMENT

- Aetna Insurance Group will interview June graduates interested in insurance (not life insurance) Tuesday, April 8. Insurance or Econ. majors are preferred.
- Aluminum Co. of America will interview June graduates in M.E., Metal., Ch.E. and I.E. Tuesday, April 8.
- Arma Corp. will interview June graduates (men and women) in Phys., E.E., M.E. and Acct. Tuesday, April 8.
- Ebasco Services, Inc. will interview June graduates in M.E., E.E. (power) and C.E. Tuesday, April 8.
- Link Aviation will interview June graduates in E.E. Tuesday, April 8.
- Penn Mutual Insurance Co. will inter-

view June graduates interested in insurance sales Monday, April 7.

Truscon Steel Co. will interview June graduates in Arch.E. and C.E. Tuesday, April 8.

STUDENT EMPLOYMENT

- Kimberly-Clark Corp. will interview June graduates in M.E., I.E., C.E., Ch.E., Chem. and Phys. Monday, April 17.
- Room and board for man with car.
- Married couple without children for permanent summer job near State College.
- Men interested in working for meals.
- Night guard and handyman for permanent job in Boalsburg.
- Permanent dishwashing jobs 9 a.m. to noon and 1 to 5 p.m.
- Women for stenographic work Wednesday, Thursday and Friday from 8 a.m. until noon.
- Farm work for a man with car.

EXECUTIVE CAREERS IN RETAILING

One-year Course leads to Master's Degree

- Prepare for a responsible executive position in retailing: buying, advertising, fashion, management, personnel, or teaching. Specialized training, exclusively for college graduates, covers all phases of store activity. Realistic approach under store-trained faculty. Classes combined with supervised store experience with pay. Students usually placed before graduation. Co-educational. Master's degree. Next class begins July 1, 1952.
