

Taylor Named Judicial Head

By GINGER OPOCZENSKI

Theresa Taylor was appointed chairman of Judicial, women's judiciary body, for next year at the Women's Student Government Association Senate meeting last night.

Miss Taylor was chosen from the four eligible junior members of Judicial. The other three are Grace Anderson, Jean Berg, and Joan Yerger.

The new chairman was a member of Judicial for two years and volunteered to serve as secretary of the body. She is also national advertising manager of "News and Views," home economics publication, and a member of the home economics honorary.

Mary Jane Woodrow, president of WSGA, said that new members of Judicial and the Freshman Customs and Regulations Board will be appointed after the spring vacation.

Senate passed a motion "not to include the results of WSGA elections in the minutes of meetings." Joan Hutchon, present junior senator and newly-elected WSGA president, said she felt senate has no reason to know the results of elections when they were not published for the student body as a whole. The motion passed by a 5-4 vote.

A motion was then passed that the names of all candidates running in WSGA elections be included in the official minutes in the order of the number of votes received.

Senate members expressed the desire to help with spot radio announcements during Spring Week. Louise Glud, WSGA representative on the spring week committee, will make a further report after attending a committee meeting tonight.

Since all phases of the acceptance of the student radio station are not clear to senate members, Miss Woodrow said she would ask Milton Bernstein, who presented the plan to All-College Cabinet, to explain it at a future meeting.

Indians in Canada Originated Lacrosse

By MARJORIE COLE

The object of lacrosse when first played by the Canadian Indians was to cripple the opponents. Now the players concentrate on making goals and avoiding injury.

Tribal ceremonies, including dancing and feasts, accompanied the Indian game, which lasted all day and sometimes two or three days. The teams were composed of anywhere from one hundred to one thousand braves.

French Give Name

The Indians had very few rules. The only boundaries were natural. Sometimes the distance between goals was a mile or more.

When the French missionaries arrived, they thought that the implement used by the Indians looked like the bishop's crozier. Therefore, they named the game lacrosse.

Interest grew. Canadians were the first white men to play it. They modified the game and took two exhibition teams to England where it also was adopted. As the game spread, English women became interested and modified the game still more. They turned the tables and brought the game back across the ocean, to the American women.

Lacrosse Association

Now enough interest has been shown by coeds on campus that Alberta Mills, instructor of physical education, has started a lacrosse club.

The rules set up by the United States Women's Lacrosse Association make the game somewhat similar to basketball. The players are lined up according to defense and attack. The fast cutting tactics used in basketball are also employed.

The ball is passed and caught

with an implement called a crosse. Each team is composed of twelve players. Two 30 minute halves make up a game.

Froth Girl Deadline

Deadline for submitting entries for Froth Girl of the Month has been extended to noon Saturday. All entries should bear the name and address of the coed, her picture, and the name of the sponsoring group or individual.
