

Board Eases Regulations On Political Speakers

Regulations governing the campus appearance of political speakers have been eased as a result of a clarification of College policy by the board of trustees.

The trustees' interpretation, which represents no change in basic policy, were announced yesterday by Dr. R. Wallace Brewster, professor of political science.

Student groups desiring to schedule political speeches must file a request with the College Senate committee on student welfare.

The committee, according to Dr. Brewster's statement, would consider the special circumstances which make it impossible for "representatives of duly recognized student political groups to bring their speakers to campus on the same date."

The previous statement of College policy had required that a speaker of both major parties be on the same platform. Representatives of campus political groups asked the trustees for the clarification on grounds that it would be impossible to schedule leading political figures of both parties on the same date.

To alleviate this situation the trustees have granted a certain amount of leeway to the Senate committee.

The request to the committee, however, must include an agreement by both Republican and Democratic groups to the presentation of their speakers at different times and to the issuance of joint publicity regarding them.

Only student groups certified as representatives of legal political parties of Pennsylvania are eligible to file a request with the committee.

A Young Democrats organization was organized last week and a Young Republicans Club began functioning last night. Both would meet the requirements of the College regulation.
