

Pan-American Seminar Slated

As part of the College's tenth annual Pan-American Day celebration a seminar of four lectures by students on the campus from South American countries will be given starting next week.

The lectures, as all programs planned for the week, are open to the public.

Alvaro Shapiro of Columbia will speak on "Social Customs in Latin America" at 9 a.m. Monday in 12 Sparks and at 10 a.m. in 233 Sparks.

'Yankee' --

(Continued from page one)

ther remarkable accomplishment for a show whose music, dancing, and script was directed by different persons.

Incongruities in medieval and atomic age speech idioms make for some hilarious plays on words, which, coupled with the situation of "Sir Boss" introducing modern technology to King Arthur's court, makes a script that could stand alone without music.

Add to that the Rodgers and Hart score, whose popularity after 25 years is proof of its greatness, and it's a hard-to-beat combination.

Just to prove the success of her initial number wasn't beginner's luck, Miss Cooper, as Queen Morgan La Fay, put over "To Keep My Love Alive" and "Can't You Do a Favor?" with even more gusto.

Rolf Is 'Yankee'

Nancy Lou Thomas and Al McChesney, who played the delightfully imbecilic Galahad, did wonderful things with both "Desert Isle" and "I Feel at Home with You."

Ed-Rolf, as the ingenious Yankee who becomes "Sir Boss," had the opportunity to display his range and tonal quality in "Thou Swell" and "My Heart Stood Still," both evidently favorites of Betty Richardson, who played Sandy. At times she actually carressed her notes with the same earnestness that made the "thee's" and "thou's" in her lines so hilarious.

Eclipse of Sun

In contrast to the generally flippant mood of the show is the stirring "Rise and Shine" scene. The courtiers, enveloped in darkness as a result of an eclipse of the sun, raise their voices in a plea for light.

The mechanization of Camelot is portrayed at the beginning of the second act with the "Lunchtime Follies," a rhythmic number complete with calisthenics that has everyone "pulling in the belt."

Generally good production included a 15-foot tree and a jeep that appears in a flash of light—Thespians, not Merlins, magic. The band—extremely brassy—is good in parts and extremely hard on the ears in other parts that a little more practice should smooth out.

"International Relations" is the topic of Werner Joseph, from Chile, who will talk at 9 a.m. Wednesday in 12 Sparks and 10 a.m. in 233 Sparks.

Enrique O. Monge will discuss Peru, his native land, at 9 a.m. April 18 in 105 Mechanical Engineering. He will also lecture on "Tourism in Latin America" at 7 p.m. April 22 in 304 Old Main.

Pedro Achenbach will give an informative talk on Uruguay at 9 a.m. April 22 in 105 Mechanical Engineering.

Since Pan-American Day, April 14, falls during the Easter recess, an abbreviated celebration is being planned by the Pan American Day committee to run from April 16 to 18, inclusive.

Other activities planned include three films to be shown at 3 p.m. April 16 in 121 Sparks. The sound movies, in color, are "Incas," "Cuernavaca," and "Southern Brazil."

April 17, the Spanish and Inter-American Clubs will sponsor a joint open meeting to help celebrate the week. A fiesta at Phi Kappa will be held April 18. A display in the Mineral Industries Building will be ready by April 16.

Virginia Opocznski and Frank Follmer are student co-chairmen of the committee and William H. Gray, professor of Latin American history, is faculty advisor.

Radio --

the most feasible for Penn State. He said that the group had voted in favor of cabinet support of the measure.

The FM system, which was presented in a report by the radio committee, would call for the establishment of an FM radio station on campus, with slave transmitters set up to convert the signal into AM in order to make it available to more students.

An additional consideration in the discussion was the acceptance by the board of trustees of an FM transmitter and antenna free of charge for College use. The offer was made by the Gable Broadcasting Company of Altoona which has dropped FM transmission in order to go into television. However, the trustees did not commit themselves as to how the equipment would be used. It has been estimated, the transmitter and antenna are worth approximately \$24,000.

Budget --

come NSA chairman on campus. The new plan also makes the All-College president and vice president the College representative to state and inter-regional conference committees.

The plan also states the NSA working committee must be cabinet-appointed. Klisanin said the new plan will not only cut expenses of sending representatives to conventions, but will give student government personnel representation at the conferences.

Delegates to conferences, under the plan, will be active members of cabinet, if possible, and the number of delegates to conferences will not exceed the number of workshops and conference committees.

ing on the circulation junior board, was appointed as circulation director.

The position of editorial director was given to Renee Kluger, arts and letters major, and Estelle Sklar, journalism major, was appointed editorial director. Both are now on the editorial junior board.

Appointments to the lower boards and for the remaining positions on senior board will be announced after Easter, Bonn said.

'Independent' Out Today

The third issue for this semester of the Independent, featuring a profile on Patricia Bowles, leading Thespian dancer, will be distributed on campus and in town today.

CLASSIFIEDS

FOR SALE

SPRING'S HERE. You need this 1949 Chevrolet coupe. Radio, heater, excellent condition. Call Boalsburg 6534.

1935 CHEVROLET coupe; good mechanical condition, new tires, sound body. Phone 4749. See at 257 E. Beaver Ave.

1937 OLDSMOBILE 4-door, radio, heater, defroster. Call State College 2450.

FOUR MATCHED golf woods. \$20. Call Theta Chi 3915 after 9 p.m. Ask for John Leister.

WHY BE a peasant? Ride around campus in an Olds. Good deal for mechanically inclined man. Call Jules 6718.

NEW PIERCE Chronograph Wrist Watch, \$125.00 value. Will sell for \$50.00. Call Andy 3950. Never been worn.

CLASSIFIEDS

LOST

BLUE GABARDINE topcoat at Paradise Cafe March 22. I have yours. Call 4444.

BROWN SUEDE jacket. First floor Sparks, Thursday. Reward \$10.00. Call 7645 town. Ask for Dave.

ELGIN DELUXE watch between Cathaum Theater, West Dorms, Thursday. Call Wilson Weaver; Hamilton ext. 1188.

BROWN LEATHER notebook, Wednesday morning. Information important to owner. Please return to Marvin Krasnansky, Daily Collegian or Student Union desk, Old Main.

MISCELLANEOUS

LET 'HANDY DELIVER' take care of your weekend ice needs. Call 7617 or 4859. We deliver.

IF YOUR typewriter needs repairs, just call 2492 or bring machine to 633 W. College Ave. Mr. Beattie's 28 years experience is at your service.

HELP WANTED

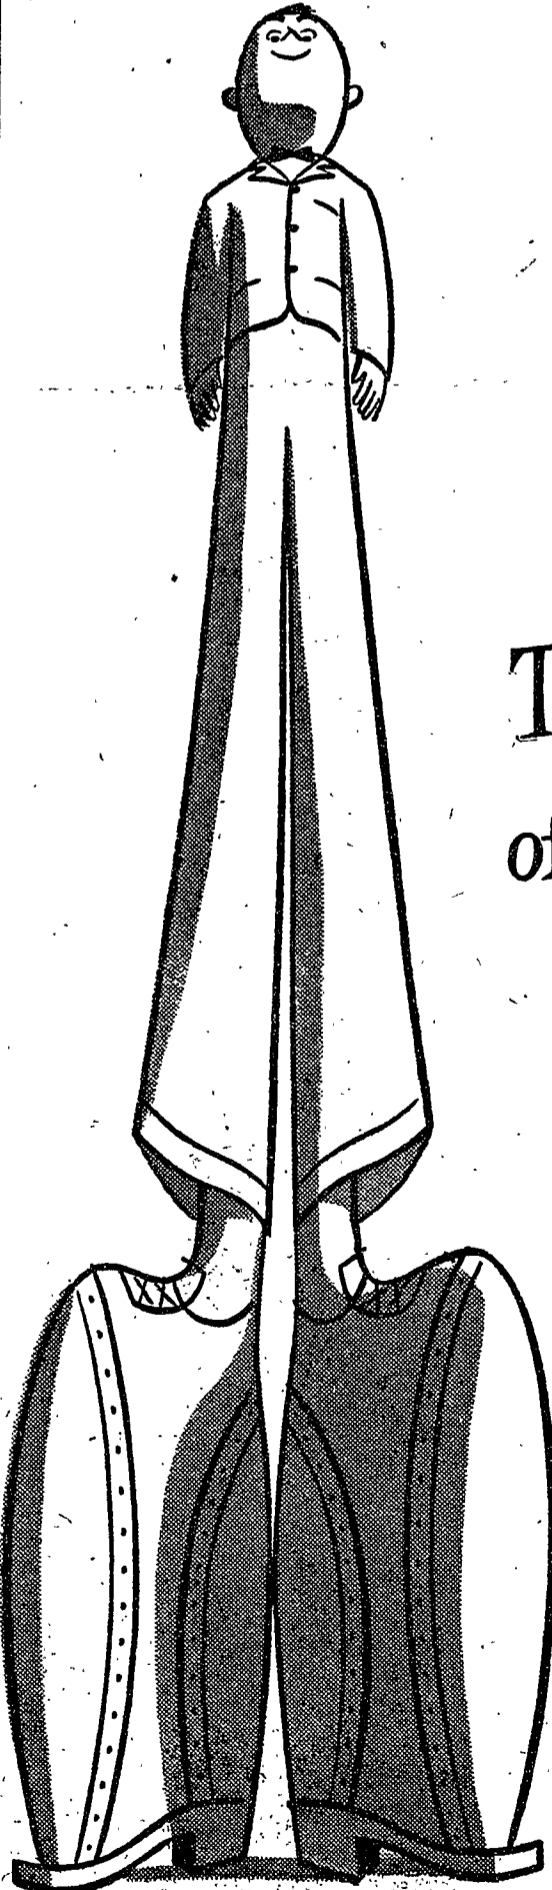

TWO PHYSICISTS required by small company in eastern Pennsylvania for research and development work. Applicants should have basic knowledge of electronic circuits associated with radiation counter equipment. Should also be qualified for research on the measurement of luminescent and radioactive materials. Position as health physicist also open. Salaries commensurate with ability and experience. United States Radium Corp., P. O. Box 380, Bloomsburg, Pa.

SCULLERY HELP wanted. Fraternity men preferred. White bucks, gray flannels, and diagonally-striped, red and black tie necessary. Call 2193, Ask for John.

WANTED

RIDE WANTED to Philadelphia April 9. Call Ellie, 409 Simmons Hall.

SIX WAITERS and two dishwashers for Saturday evening, April 5. Call Martin Benson, Ted Hardy—THE 4444, 4203.

The amazing height of Remington Feeny

Remington Feeny's money went to his feet. Being extremely cautious, he hid his money in his shoes so he could always keep it with him. By the time he was 48, he was nine feet tall.

Money can be used to grow on, but not necessarily by Mr. Feeny's method. For instance, more than 1,100,000 people have shown their faith in the future of the Bell Telephone System by investing their money in it. About one-fifth of them are Bell employees who bought stock through a payroll savings plan.

It takes both money and people to keep the Bell System growing and improving to meet our country's telephone needs. That's why college men with the right qualifications can find interesting opportunities with us—in engineering, research, operating and administration.

Your campus placement office will be glad to give you more information.
