

# Council Nominations End Tomorrow in 5 Schools

Nominations for next week's student council elections will end at 5 p.m. tomorrow for five of the eight student councils.

Nominations are open for representatives to the student councils of Home Economics, Liberal Arts, Mineral Industries, Chemistry and Physics, and Engineering.

Elections for the Home Economics Student Council will be held Monday, Tuesday, and Wednesday in the main lobby of the Home Economics building. Girls may nominate themselves or others, Marilyn Franklin, election chairman, said.

Nominations for student council of the School of Education will be open from 8 to 5 p.m. tomorrow through Friday. Nominations will be accepted for sophomore, junior, and senior posts in Dean Marion Trabue's office, 102 Burrows. A 1.3 All-College average is required. Elections will be held Monday, Tuesday and Wednesday.

Nominations are open for sophomore, junior, and senior candidates for general representatives to the Engineering Student Council. John Miller, head of the elections committee, said all persons interested in nominating themselves or others should turn their names into their department head during the week.

A complete list of the entries will be posted on all engineering bulletin boards by next Monday. One sophomore, junior, and senior will be elected from each of the six departments of the school next Monday and Tuesday. The newly elected representatives will meet Tuesday night with the old council to elect officers for the coming year.

### 1.5 Average Needed

Nominations for positions on the Liberal Arts Student Council will take place in Dean Ben Euwema's office in 132 Sparks.

Eight sophomores, 11 juniors, and seven seniors will be elected. Candidates will nominate themselves and must have at least a 1.5 average. Candidates accepted may submit a poster no larger than eight by ten inches to be displayed.

Students may nominate themselves for the Mineral Industries Student Council by signing lists posted on bulletin boards in the Mineral Industries building. Two members from the freshman, sophomore, and junior classes will be elected. Voting will take place from 9:30 a.m. to 4:30 p.m. next Monday, Tuesday, and Wednesday in the main lobby of the Mineral Industries building.

### Two Elections in May

Nomination forms and instructions will be placed on the bulletin boards in Osmond and Pond Laboratories for students in the School of Chemistry and Physics. Elections will be held next Monday, Tuesday and Wednesday. Four juniors, four sophomores, and two freshmen will be elected. Nominees must have a 1.0 average and length of terms are determined by the representatives' ability to maintain the average.

Nominations and elections for the School of Physical Education will be held some time in May.

Officers of the Agriculture Student Council will be held at a meeting of the council May 13.

# Bell to Receive Hetzel Award

Jeannine Bell, senior in education, has been awarded the Ralph Dorn Hetzel Memorial Award and will be presented with it at the Honors Day program at 7:30 p.m. Monday in Schwab Auditorium.

The award was established in 1949 to be presented annually to the senior "whose achievement scholastically and in the other activities of College life gives the highest promise of that kind of useful citizenship in the national life expounded by the late President Hetzel."

### College Observatories To Be Open to Public

The College Observatories will be open to the public from 8 to 10 p.m. today, tomorrow, and Friday, weather permitting.

The ringed planet Saturn will be the special feature of observations on these evenings.

# AA Chief To Sit As Adviser

When the president of the student Athletic Association is elected, he will be one of three students automatically named to the Athletic Advisory Board.

The other two student representatives are the Daily Collegian editor and the All-College president.

Other members of the Advisory Board include four members of the faculty Senate, five members of the Alumni Association, and an alumnus member of the Board of Trustees. Regularly matriculated male students are also members of the Athletic Association after payment of the \$7.50 fee.

The object of the Athletic Association, according to its constitution and by-laws, is "to promote intercollegiate athletics in the Pennsylvania State College subject to the jurisdiction of the Board of Trustees of the College and the authority delegated to the School of Physical Education and Athletics."

Included in the association's duties are the handling and distribution of football tickets to students and alumni.

# Olympic Tryout, NAAU Ticket Sales Hit 1993

Ticket sales for the combined Olympic tryout and NAAU gymnastic meet have now reached 1993, W. R. Hosterman Jr., assistant graduate manager of athletics, said yesterday.

The meet is scheduled Friday and Saturday in Rec Hall, with men's and women's titles at stake. Afternoon sessions will start at 2 p.m., while evening performances will begin at 8 p.m.

Hosterman said that ticket applications have arrived from 20 states, the District of Columbia, and Canada. The tickets, he said, have come from as far west as California and as far south as Georgia and Louisiana.

Tickets are still on sale in the Athletic Association Office, 107 Old Main, with prices ranging from 30 cents to \$2.40. All seats are unreserved for Friday afternoon and night. Prices are 30 cents for Friday afternoon and 90 cents for Friday night.

A combination ticket will be used Saturday, with one ticket good for admission to both sessions. Prices are \$1.80 for unreserved seats and \$2.40 for reserved seats.

As an added attraction, the Penn State Blue Band and the organ music of George Ceiga, chapel organist, will be featured.

# Young Democrats To Hear Rathgeber

Lewis W. Rathgeber Jr., chairman of the Young Democratic Division of Pennsylvania, will speak to the Young Democrats at 7:30 tonight in 209 Willard Hall.

Rathgeber, lecturer in history at the University of Pittsburgh, was an alternate delegate to the Democratic national convention in 1948 and will be again this year.

The meeting was reported in yesterday's Collegian to have been scheduled for last night.

The exhibition, sponsored by

# Art Exhibition Opens Tonight In MI Gallery

Two groups of paintings entitled "Portrait of Power" and "Portrait of a Free Press" will go on exhibition at 8 tonight in the Mineral Industries Gallery.

The exhibition, sponsored by the Department of Architecture, will be open from 9 a.m. to 9 p.m. daily for a week, closing April 30.

The group, "Portrait of Power," depicts operations at the Sunbury plant of the Pennsylvania Power and Light Co., largest anthracite-burning power plant in the world. The paintings are done in oil, water color, pastel, and collage by members of the Lehigh Art Alliance for the permanent collection of the firm. Twenty-five were selected by the firm and will be on display in the exhibit.

The collection, "Portrait of a Free Press," was painted under similar arrangements with the Call-Chronicle newspapers of Allentown.

W. H. Rodgers, Jr., of the Pennsylvania Power and Light Co., will speak at the opening, explaining how members of the Lehigh Art Alliance produced the two exhibits.

# TV Cooperation Viewed As Best Public Service

Education and commercial television can best serve the public by working together, William Hadopp, executive director of Teleprograms Inc., told the Educational Television Program Institute yesterday at the College.

In session for the third day the institute heard Hadopp say he believes education needs the experience of professional television

personnel and the facilities and unlimited funds of the networks and local commercial stations to operate successfully.

I. Keith Tyler, director of the Office of Radio Education, Ohio State University, said in a panel discussion on the significance of television for the educator that many colleges and universities have obligations that extend far beyond the campus.

### Effective Tool

In land-grant colleges, Tyler said, television is a means by which information, needed by the farmer, can be quickly carried from the college or university campus.

R. Edwin Browne of the Division of Radio and Television, University of Kansas, said that the television camera makes it possible for students to see demonstrations better than they could see them even from the front row of a classroom. He said for this reason alone it is an effective tool of education.

Discuss Educational TV President John S. Mills of West-

ern Reserve University, Cleveland, Ohio, told the conference he was satisfied with the educational program conducted on a commercial station in that city during the current school year.

Discussion groups in today's session will discuss "Basic Planning for Educational Television."

# Food Demonstrations Highlight 'Weekend'

Many food demonstrations will highlight the School of Home Economics Spring Weekend program Friday and Saturday.

This year's theme, "Food and People," offers unusual opportunities for demonstrations and exhibits of this type for the program, Dr. Grace M. Henderson, dean of the school, explained.

A demonstration on "Using Less Expensive Cuts of Meat" will be conducted by Elizabeth Cook, field representative of Armour and Company, Friday night and Saturday morning.

### To Conduct Demonstrations

The Campus 4-H Club will present "Ways with Eggs" Friday afternoon and night and Saturday afternoon. A demonstration scheduled for Friday afternoon and Saturday morning will feature Centre County school children who get their supper from an emergency food shelf.

Myrtle E. Swanson and Mary Brown Allgood of the School of Home Economics faculty, will conduct demonstrations of "Quick Meals for Busy Women" and "Breads You Will Like."

"Roast That Bird" and "Broil That Bird" are demonstrations on cooking poultry that will be presented Friday afternoon and evening by Helen L. Danning, instructor in nutrition extension, and Janet L. Coblenz, instructor in nutrition and health extension.

### Tool Use to Be Shown

Marguerite F. Little, associate professor of child development and family life extension, will present "Out-Door Cooking with the Family" Friday afternoon, while on Saturday afternoon Richard M. Bower, assistant professor of hotel administration, will demonstrate "Have Fun Cooking Out-of-Doors."

A demonstration on time-saving methods by skillful use of kitchen tools will be conducted by Delpha E. Wiesendanger, professor of home management and housing, at 11 a.m. Friday.

# U.S. Air Force Training Film To Be Shown

A film depicting the life and training of the Air Force aviation cadet will be shown at 8 tonight and tomorrow night in the downstairs meeting room of the Elks Club, 119 S. Burrows street.

Captain Charles A. Hertzog, aviation cadet procurement officer of the Altoona recruiting station, will be present to answer all questions applying to the aviation cadet program. Applications will be accepted at this meeting, but students will not be enlisted until the end of the school year, he said.

A limited number of applications for pilots and observers will be accepted, Hertzog said, from students who will graduate this semester, or from those students between the ages of 19½ and 26½, who have 60 college credits.

However, the Air Force is not interested in taking students out of college before they have completed their education, he added. This program is open to graduating seniors, and other students who will leave college at the end of the semester.

### German Club to Meet

The German Club will meet at 8 tonight in the Grange Hall recreation room with two plays by Hans Sachs to be given by a German 12 class. The plays will follow a business meeting.

# College To Honor Kennedy

Dr. Joseph Kennedy, Priestly lecturer and chairman of the Washington University department of chemistry, will be honored by the College after he presents the third in a series of five talks at 5:15 p.m. today in 119 Osmond Laboratory.

Adrian O. Morse, College provost, will present a scroll to Dr. Kennedy at a dinner in the Hotel State College. The dinner will follow the chemist's talk on "Isotopic Tracers and Electron Transfer Reactions." Dr. Lyman E. Jackson, dean of the School of Agriculture, will preside at the lecture.

Last night Dr. Kennedy spoke on "Uranium, Fission, and Trans-uranium Elements." Dr. Kennedy will discuss "Quantitative Kinetic Studies with Tracers" at 7:30 tonight in 119 Osmond Laboratory. This will be his fourth lecture. The final talk will be given at 7:30 p.m. Friday in 119 Osmond Laboratory. The subject of this lecture will be "Self-Diffusion of Aqueous Ions."

Dr. George L. Haller, dean of the School of Chemistry and Physics, will be chairman of tonight's lecture. Dr. Donald S. Cryder, professor and head of the department of chemical engineering, will preside at the fifth and final lecture Friday.

# 23 on Collegian Staff Promoted

Twenty-three promotions to sophomore and junior boards of the Daily Collegian were announced yesterday by David Pellnitz, editor elect.

Those promoted to junior board are Mary Adams, George Barrey, Tamsin Bloom, Lorraine Gladus, William Jost, Robert Landis, Luella Martin, Charles Mathias, Nancy Meyers, Richard McDowell, Charles Obertance, Lavier Propocipio, Sarah Sapper, Thomas Saylor.

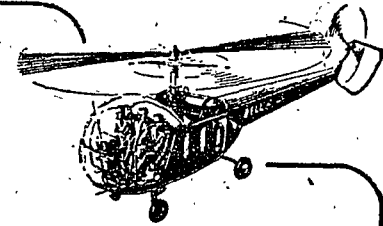

Sophomore board promotions were given to Elizabeth Allen, Philip Austin, Beverly Dickinson, Mary Lee Lauffer, Martha MacDonald, Homer McKalip, William Pete, Eleanor Rakosi, and Nancy Ward.

Hue, saturation, and luminosity are the three characteristics of color.
