

6 Councils—

(Continued from page two)

may submit names to their department head by 5 p.m. Nominations are open for sophomore, junior, and senior representatives. A complete list of entries will be posted on engineering bulletin boards by Monday. One sophomore, one junior, and one senior will be elected from each of the six departments of the school.

Liberal Arts Need 1.5

Women in the School of Home Economics may nominate themselves, Marilyn Franklin, elections chairman, said.

Candidates for the Liberal Arts Student Council must have a 1.5 All-College average. Eight sophomores, 11 juniors, and seven seniors will be elected. Nominations will be accepted in the office of Dean Ben Euwema, 132 Sparks.

Four juniors, four sophomores, and two seniors will be elected to the Chemistry and Physics Student Council. Nominees must have a 1.0 average. Forms and instructions for nominating are posted on bulletin boards in Pond and Osmond Laboratories.

A 1.3 All-College average is required for candidates in the School of Education. Nominations will be open until 5 today and will be accepted in Dean Marion Trabue's office, 102 Burrowes.

Froth Deadlines

Pinnings, engagements, and marriages for Froth's Old Mania should be submitted to Estelle Sklar, 409 Simmons, or Renee Kluger, 413 Simmons by Saturday noon, April 26.

Pictures of girl-of-the-month candidates should be submitted at the Student Union desk in Old Main by noon Saturday.

Vote Counters Claim Record For Longevity

By GEORGE GLAZER

Elections committee members were willing to take bets that they established a new record for longevity in ballot counting last night.

A meeting to hear any complaints from both parties was held at 5:15 yesterday afternoon. At 5:45, the committee started sorting the ballots. By 6:30, they were ready to tally the vote. Almost six hours later, at 12:15 a.m. today, elections committee chairman Carrol Chapman walked into the hall and announced the results to about 25 diehards.

The two recounts in the senior and All-College races took about three hours. Most of the time, the ballot-counters were on their hands and knees making up stacks of 50 ballots each. About 15 "outsiders" were pulled in to help with the tallying.

At one point before the results were announced, a crowd of at least 100 persons was gathered on the balcony and in the second-floor lounge of Old Main. It seemed more like a funeral than an election. Politicians, reporters and interested students stood around in little groups, talking in hushed tones.

Light Plane Crashes

CLEARFIELD, Pa., April 24—(P)—A light airplane crashed tonight near Shiloh, 12 miles east of Clearfield.

First reports from the Civil Aeronautics Administration's weather station at Black Moshanon airport were that at least one person had been killed.

tains the two All-College Cabinet seats it won in last year's spring elections.

Feels Press Importance

After his victory last night, Kimmel said he hopes that next year will be "outstanding in its achievement and that our senior class will be held up as an example to those that follow." Kelly, defeated Lion candidate, said he feels a split party representation "should help rather than hinder Penn State."

Richard Lemyre, when reached by phone after his junior class victory, said "I hope we do a good job so we will be remembered for what we do." He said he felt the student press plank was the most important in the State Party platform.

Vital Experience

Edmunds, reached by a reporter in the Infirmary, said "it was a good fight while it lasted."

O'Malley said the election was a new and vital experience and said he will do his best to fulfill the obligations the students have given him.

Carruthers said last night he feels the best way to carry out the party platform is in convincing the students and the administration. Commenting on the three Lion Party victories in the elections, Carruthers said students have shown more intelligence and less "follow the leadership" at the polls.

Drew Pearson was the "Father of the Year" in 1948.

Laubach—

(Continued from page one)

dential candidate, expressed his thanks to those who voted for him and said he was sure Laubach would do an excellent job.

Pleased at Turnout

A large crowd of students gathered outside the student government room where the votes were being counted. A series of moans went up when the elections committee announced that there would be a recount in the All-College race. When the final results were announced, the news was received quietly by those who had stuck out the recount.

Both party chairmen expressed their pleasure at the large turnout of voters. Farrell congratulated the victorious Lion candidates and thanked the members of his own party for their support. "In addition," he said, "I hope that the spirit of cooperation made evident by Ray and the Lion Party will continue throughout the next year as we move toward our common goal, an ever better Penn State."

In his statement, Evert said, "I'm sorry that some of our candidates lost. I'm sure they could have done a good job, but I feel certain that the Lion and State party candidates who were elected will do a good job. I wish them all the luck in the world."

The National Baseball Hall of Fame is located at Cooperstown, New York.

CLASSIFIEDS

FOR SALE

REMAINDER OF household goods. Leaving town Friday. Must sell. Call 6821.

LOST

WALLET Friday night, McElwain lobby. Send no money—just cards. Ralph Clark, Phi Sigma Kappa.

the mouth that'll never be kissed

Until Bell Laboratories scientists design an electric mouth that can pucker, the human model is here to stay. But we have built a machine that can imitate human vocal characteristics—from the slate-pencil squeal of a girls' cheering section to the basso rumble in a men's dining hall.

Sound being a basic raw material of the Bell System, we have pioneered in the science of speech. Measuring the properties of your voice leads to better and cheaper ways to transmit it.

Keeping the world's best telephone system growing for our country is a big and challenging job. There are opportunities for college men with the right qualifications, not only with Bell's corps of research scientists, but also in engineering, operations, and administration, with the Bell Telephone Companies and Western Electric, the System's manufacturing and supply unit.

Your campus placement office will be glad to give you more information.
