

College to Host Fuel Conclave

The spring meeting of the division of gas and fuel chemistry of the American Chemical Society will be held at the College Monday and Tuesday.

The conference, Dr. C. R. Kinney, professor of fuel technology and chairman of the local arrangements for the affair, announced, will bring together 125 division members and others from all parts of the nation.

Greek Minister To Give Talk In Simmons

Dimitri Lambros, minister at the Royal Greek Embassy in Washington, D. C., will speak on "Greco-American Relations" at 7:30 p.m. Tuesday, in the Simmons Hall lounge. Lambros will be sponsored by the Hellenic Society and the International Relations Club.

Lambros served as private secretary to the late Prime Minister of Greece, Eleutherios Venizelos, from 1928 to 1933. From 1935 to 1937 he was the Greek consul to Bulgaria. In 1946 he became the Greek charge d' affaires to Norway, and held this position until 1948. In 1949 and 1950, Lambros served as a member of the Greek delegation to the fourth and fifth assembly of the UN.

At present, he is minister-counselor to the Greek Embassy in Washington, D. C., and has acted as host to several groups of Penn State students who have toured Washington.

Joseph Stratos, public relations chairman for the Hellenic Society, and Donald Cutler, vice-president of the International Relations Club, said that the talk is open to the public. No admission will be charged.

'Dimes' Money Given Cabinet

The \$576.90 collected for the March of Dimes during the Campus Chest drive has been turned over to the All-College treasury, William Klisanin, drive chairman, said yesterday.

Checks will be mailed this weekend to the other eight agencies included in the drive, Klisanin said. Of the \$11,890.67 received in the drive, \$6073.82 will go to the Penn State Christian Association; \$1676.06 will go to the World Student Service Fund; and \$769.13 will go to the Scholarship Program.

The Heart Fund, Cancer Fund, Salvation Army, and Women's Student Government Association Christmas Fund will receive \$576.90 each. The State College Welfare Fund will receive \$96.60. Three per cent of the income, \$356.50, was used by the Chest committee for working capital.

Klisanin said that the March of Dimes funds turned over to the All-College treasury would be sent to the March of Dimes headquarters as a donation from the student body government organization.

March of Dimes officials said in February that they could not accept Chest funds due to a national ruling prohibiting acceptance of money from joint fund raising groups.

Band to Give Concert at TUB

The All-College dance band will present a concert at 3 p.m. Sunday at the TUB. The band, tomorrow at the TUB. The band, has been taken over by Samuel Moldovan.

Members of the band are John Creigh, Harold Hess, Richard Stevens, William Walker, and Duane Beals, saxophone; James Longo, Fred Orkiseski, and Howard Hallett, trumpet; and Jack Miller, James Bortolotto, and William Mitchell, trombone.

Other musicians are Alden Shoup, piano; Edward Gruber, drums; and George Georgieff, bass. Patricia Leis will be vocalist.

Program selections include The Man I Love, Star Dust, Early Autumn, and Sugar Beat. No admission will be charged.

2d Teaching Conference To Be Held

The second annual Student Teaching Conference will be held today at the College, with more than 350 cooperating teachers, supervisors, and principals from Pennsylvania schools expected to attend.

Sponsored by the secondary and elementary education divisions of the School of Education, the conference is held annually to improve and better coordinate the College's student teaching program, and to dramatize more effectively the objectives of student teaching.

Dr. Marion R. Trabue, dean of the School of Education, will address the conference. A talk entitled "I Had a Part" will be given by Dr. Frank Butler, professor of education.

Mary Jane Wyland, professor and chairman of the division of secondary education, will deliver the conference keynote address.

Discussion groups will consider six pertinent questions concerning student teaching at 11 a.m. in the Sparks building.

At the conference luncheon in the Nittany Lion Inn, Dr. Roy W. Wiley, superintendent of public schools, Johnstown, will speak. Dr. Charles Long, head of the Department of Education, will give the summary remarks.

Work Begins In Ionosphere Research Lab

Work in the Ionosphere Research Laboratory, established recently with \$13,000 awarded to the College by the National Science foundation, began Thursday, Dr. Arthur H. Waynick, head of the Electrical Engineering department has reported.

The laboratory, which will investigate the physical characteristics of the high upper atmosphere in relation to possible solar phenomena affecting atmospheric regions, started its work with the setting up of instruments and mathematical work, Waynick said.

Funds for the laboratory were received from four separate sources, Dr. Waynick said, the final appropriation being from the National Science foundation. The grant from the foundation was one of five such grants allocated for physical sciences in the United States.

The work from this project is hoped to provide information on the physical processes which result in magnetic and ionospheric storms that interfere with wire and radio communications.

Dr. Waynick, professor of electrical engineering; Sir John J. Gibbons, associate professor of physics; and Robert L. Schrag, a graduate student in electrical engineering, will conduct the work in the laboratory.

Civil Service Exams

Persons wishing to take the Civil Service examinations for ordinance material inspector and for engineers at the GS-9 and GS-11 levels should see J. A. Dale, area representative of the Civil Service Commission, at the State College post office.

At 1:30 p.m. Monday the group will gather for its first session in the Mineral Industries Art Gallery and will conduct a symposium on the subject of "Chemicals From Coal." The discussion will be presided over by Dr. John F. Foster of Batelle Memorial Institute, Columbus, O.

Edward Steidle, dean of the School of Mineral Industries, will give the official welcome to the division at a dinner at the Nittany Lion Inn at 6:30 p.m. Following the dinner the group will meet in the art gallery to hear H. P. Swarthout of the Gas Turbine Division of General Electric Co., Schenectady, N.Y., speak on the development of gas turbines and their potential application in the chemical industry.

The Tuesday morning session, starting at 9 p.m., will be devoted to selected papers. College faculty members who will participate are Dr. Kinney and T. S. Polansky, also of the fuel technology department.

At 2 p.m. Eugene E. Ayers of the Gulf Research and Development Corp., Pittsburgh, will have charge of a symposium on the "Future of Fuels and Energy Sources." The discussion will attempt to answer many of the questions now confronting fuel chemists.

Arrangements for the meeting are in charge of Dr. Karlan W. Nelson, secretary of the division. He is presently with Batelle Memorial Institute. Prior to that appointment he was on the faculty of the Fuel Technology department at the College.

Honor Society Council to Meet

The Honor Society Council will commemorate its 30th anniversary at a special meeting at 4:10 p.m. Tuesday in 102 Willard.

Dr. Francis J. Tschan, professor emeritus of European history and historian of the council, will present a copy of the history of the organization from its beginning May 9, 1922 until the present time.

Dr. Agnes R. McElwee, president of the council, will present a scroll honoring Stevenson W. Fletcher, dean emeritus of the School of Agriculture. Dr. Marsh W. White, chairman of the committee on eligibility and admissions to the Association of College Honor Societies, will give a talk, "The Honor Societies and the College."

In addition to these special activities, the members will conduct a regular business meeting to consider some constitutional changes and elect new officers.

Prexy to Speak

President Milton S. Eisenhower will be the commencement speaker at the graduation exercises of the University of Maine on June 15, the President's office has announced.

Parade to Mark 3d Armed Forces Day

The parade to be held May 17 by the three branches of the Reserved Officers Training Program will mark the third annual celebration of Armed Forces Day to be held in this country.

Prior to 1950 Army Day and Navy Day were celebrated separately. Army Day was celebrated April 6 in New York and in several other states by a display of flags and military parades.

Navy Day was celebrated Oct. 27 and was sponsored by the Navy League of the United States. October was chosen since this was the month in which the

American Navy was founded (1776) by the Continental Congress.

Last year, spectators saw the largest parade ever to be held in State College. The Armed Forces Day parade this year will not be as large as last year's, however, since 750 airmen who were stationed here last year for Air Force clerk-typist training will not be marching this year.

Also, last year the entire Air Force branch of ROTC participated in the parade, and this year only band members and advanced students will march.

Hoffman Gives Talk At Hillel Foundation

In seeking workers for two summer service projects, Daniel N. Hoffman, field representative of the American Jewish Society, spoke last night at the Hillel Foundation as part of his three-week, 3000-mile tour of New England and Mid-Atlantic college campuses.

The projects are open to men and women of all races and creeds. Conferences with Hoffman for today may be arranged

Work Camp Leader

Daniel N. Hoffman

through Rabbi Benjamin Kahn, Hillel Foundation director.

Twenty volunteers are needed to build a dining hall at an interracial camp for underprivileged children in Winchester, N.H., and 12 are needed to build playgrounds for a trailer community of more than 100 Negro, white, and Mexican flood victims in Kansas City, Kan.

35 Hour Week

Both projects will begin July 1 and end Aug. 19. Food and housing will be provided for the camper, who must pay transportation costs to and from the project.

Men will do heavy construction jobs while women will do such things as painting and shingling during the 35-hour work week. After hours, the campers will talk with representatives of labor, management, social welfare agencies, and religious organizations; go on field trips; and participate in camp activities.

One of the founders of the American Jewish Society, which is sponsoring the projects, is Hoffman's father, Isidore.

Anti-Defamation League

Hoffman was graduated from Columbia University in 1948; received a M.A. degree from Haverford College, and did graduate work at the New York School of Social Work. At Columbia he was political analyst for the Columbia Spectator, and for two years was sports editor of the college radio station.

Working 15 months with the Florida district of the Anti-Defamation League of B'nai B'rith, Hoffman was in Miami during the Anti-Semitic outbursts which lasted from last April to December.

Doles Receives Pivot's Pattee Poetry Award

Pivot has selected Alice Doles, sixth semester student in arts and letters, as recipient of the first annual Fred Lewis Pattee Poetry Award.

This \$25 award is given to the student writing the best poem or group of poems for Pivot. Miss Doles' group of poems will appear in the spring issue.

Miss Doles' contributions include "Silent Generation," "Perspective," "Candle Flame," "Change," and "Empathy."

The three award judges were Prof. A. Pauline Locklin, Prof. W. L. Werner, and Professor J. L. Grucci, adviser to the publication. The co-chairmen of the Pattee memorial committee are Prof. Julia G. Brill and Professor Werner. The two co-chairmen, Prof. T. J. Gates, Prof. Brice Harris, and Professor Grucci are donors of the award.

Five Bacteriologists Attend Annual Meeting

Five members of the Department of Bacteriology are attending the annual Society of American Bacteriologists meeting in Boston this week.

Those attending the meeting are Prof. J. Frank Cone, Assoc. Prof. Carroll E. Heist, Prof. James J. Reid, Prof. Robert W. Stone, and Asst. Prof. L. N. Zimmerman.

Dr. Reid presided at the session on agricultural bacteriology, and Dr. Stone is program chairman of the general bacteriology division.

Griffith Wins Ag Scholarship

William Griffith, a junior in dairy husbandry, has been named winner of the KDKA scholarship in the School of Agriculture. The scholarship is awarded for "leadership and the advancement of agricultural information through radio," according to Russell B. Dickerson, director of resident instruction.

The cash award of \$100, established by the Pittsburgh radio station, is also given at Ohio University and West Virginia University. One of the three recipients of the award will be chosen to work all summer with Homer Martz, a Penn State graduate and now KDKA's radio farm director.

Griffith is the campus Grange representative in the Agriculture student council and was formerly editor of the Ag Hill Breeze, weekly publication of the School of Agriculture.
