

# Choir Plans Five-Day Workshop

The Chapel Choir is planning a five-day workshop session, Sept. 3 to 7, prior to the opening of the fall semester.

The daily program will include rehearsals and lectures. A planned recreational program will consist of singing, folk and square dancing, and swimming.

This is an experimental plan which has never been tried by any other choral group, according to Carroll Chapman, president of the organization.

About two-thirds of the 110 choir members are expected to attend. The camp site chosen is the Seven Stars Boy Scout camp, which offers adequate and suitable housing quarters, Chapman said.

Hummel Fishburn, head of the Department of Music, will be faculty adviser. A student committee consisting of Louella Valmont, chairman; Joan McKinley, David Fishburn, and Andy Zerman is in charge of arrangements.

New members have been selected to replace nearly all the 40 graduating members of the choir. A few places are being held for new students entering in the fall.

## Officers --

(Continued from page fifteen)

William Obert, treasurer, and William Lauder, publicity manager.

**Symphony Orchestra:** David Fishburn, president; Joan Else, secretary treasurer; Jane Davis, librarian, and Fred Arkiseski, manager.

**School of Mineral Industries**—Paul Barton Jr., Robert Chilcote, William Englert, John Harrison, Frank Johnson, and Robert Wasall.

The honor graduate in the School of Physical Education and Athletics is Ruth Wehofer.

## Professor Gives Paper

Dr. Hans Panofsky, associate professor of meteorology, submitted a paper to the American Meteorological Society in Washington, D.C., at the meetings of the society last week. The subject of the paper was: "Analysis of Simultaneous Flux of Momentum, Heat, Moisture, and Smoke at Brookhaven."

## Walker --

(Continued from page one)

tor unit, Dr. Walker said, but the building, a 65-foot cube, must be built by the College.

Dr. William Brezeale, now at the Oak Ridge, Tenn., atomic laboratories, will come to the College September 1 as professor of power transportation, and will direct the construction of the pile.

Dr. Sauer said a written proposal to establish the isotopic laboratory will also be presented to Dr. Walker for further presentation to the Administration.

The establishment of an isotopic laboratory was called essential to the proposed nuclear engineering program by R. Rupert Koontz, professor of sanitary engineering.

The laboratory, Koontz reported, could be housed in present facilities, and could be established for an estimated \$82,000. The operating expense, he added, would be about 30% higher than an average Chemistry laboratory, because of the type of radioactive materials used, and could handle 60 students and staff members.

## Engineering Professor To Discuss Floridation

R. Rupert Koontz, associate professor of sanitary engineering, will discuss floridation and public water supplies today at a meeting of the central chapter of the Pennsylvania Society of Professional Engineers.

Koontz, a consultant on public water supplies, will speak at the Clearfield-Curwensville Country Club.

## Plank to Retire

William B. Plank, a graduate of the College and head of the Mining and Metallurgical Engineering department at Lafayette College for the last 32 years, will retire in June.

# Be Happy-Go LUCKY!

In a cigarette, taste makes the difference — and Luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the *taste* of a cigarette. You can *taste* the difference in the smoother, mellow, more enjoyable taste of a Lucky... for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco... fine, mild tobacco that tastes better. Second, Luckies are made to taste better... proved best made of all five principal brands. So reach for Lucky. Enjoy the cigarette that *tastes better!* Be Happy-Go Lucky! Buy a carton today.

## L.S./M.F.T.-Lucky Strike Means Fine Tobacco

In home ec. class the teacher says That seasoning adds zest, But I don't need a course to know That Lucky tastes the best!

Jane Bates Beeston University of Connecticut

When classmates "bum" a cigarette, They always come to me, Because they know I smoke the best— That's L.S./M.F.T.

Mildred Brown Fresno Junior College

Anatomy's my roughest lab, But everything is ducky, When I can lay my scalpel down And light a tasty Lucky!

Richard J. Dorger University of Cincinnati
