

13 Groups OK \$2 LaVie Fee

Seven school student councils and six other student government groups had approved the \$2 LaVie assessment for freshmen as of noon yesterday. The fee proposal was presented by Douglas Schoerke, editor of LaVie, at the last All-College Cabinet meeting.

The \$2 assessment, if approved by cabinet and the Board of Trustees, will go into effect beginning February. At present, freshmen are not assessed for the yearbook.

McCoy Plan Is Rejected By Ed Council

The McCoy plan to allot 300 seats for faculty, alumni, and townspeople in Recreation Hall received another jolt last night when the Education Student Council voted it down by a wide margin. At least four other student groups have turned down the proposal so far.

Another plan sponsored by McCoy, that of dividing AA book holders into two groups, each seeing half of the Rec Hall athletic events, was turned down unanimously by the Ed Council.

It was felt if the plan went into effect, students would have to be given a partial refund on their AA books.

The group announced that freshman self-nominations for the Education Student Council will be open until Friday. Those interested should leave their name, semester, rank in high school, and high school activities in 102 Burrowes, according to Marian Whiteley, president.

The council also discussed the proposed senior women's hat society. It decided to allow Miss Whiteley to vote for the group when the matter comes up before All-College Cabinet. The council tentatively favors the measure, Miss Whiteley said.

Oil Conference Opens Today

Better methods for locating and producing oil will be discussed at the 16th annual Conference on Petroleum Production, to be held at the College today through Friday.

More than 150 research and oil production men from all sections of the country are expected to attend the conference.

Dr. John C. Cahoun, professor and chief of the division of petroleum and natural gas engineering, reports many of the 13 technical papers to be presented at the session will explain why oil is held in the earth and how carbon dioxide and electricity are used to obtain it.

College Enrollment Approaches 13,000

Total enrollment at the College and its centers reached 12,815 students this fall with 9600 men and 3215 women registering.

Seven off-campus centers registered 1276 students, and the remaining 11,539 were enrolled on campus.

The total enrollment, which includes 11,161 undergraduates, 1409 graduate students, and 245 special students, is 224 higher than last year's figure. Included in the total is the largest freshman class since 1949 with 3496 students.

Ed Group to Meet

Phi Delta Kappa, men's scholastic education honorary, will meet at 7:30 tonight in Simmons Hall lounge.

Tickets Available For IFC Banquet

Tickets for the Interfraternity Council Workshop banquet Saturday at the Nittany Lion Inn are still on sale at the Student Union desk in Old Main at \$3.25 each.

Fraternities that have already made reservations must get their tickets before 5 p.m. Friday. Houses that have already made reservations will be charged for tickets not picked up, Robert Frame, IFC banquet chairman, said.

Thomas Named Grad President

Woods Thomas, graduate student in agricultural economics, was elected president of the Graduate Student Association Thursday night. Other officers are Joseph Coates, vice-president; Roseann Brooks, secretary; and Owen Webster, treasurer.

Officers of the association will preside over the Graduate School Student Council when final Council plans go into effect.

A constitution of bylaws was discussed and tentatively approved pending approval by the Graduate School student body. Final approval must be given by the College Senate before the association is chartered and recognized as an official campus organization.

Plans were made to hold a dance and card party Oct. 31 in the TUB. The mixer is open to all graduate students and their friends, Woods said.

Representatives to the Graduate Student Council are:

School of Agriculture — Thomas, Gene Love, and George Kurtz; School of Chemistry and Physics — Webster, William Ginsburg, and David Lowitz; School of Engineering — Robert Schrag, Robert Bundy, and John Fox.

School of Home Economics — Helen Bell, Phyllis Atherton, and Jessie Warden; School of Liberal Arts — Coates, Miss Brooks, and Joseph Rosenthal; School of Mineral Industries — R. I. Fries, M. Krishna Murthy, and K. Gee; School of Physical Education — Theresa Kulasa, John Meagher, and Joe Holiber.

Representatives from the School of Education have not been announced.

Psych Test Results Given Until Friday

Psychology tests given freshman women during Orientation Week will be interpreted at the psychology clinic until Friday. Dr. Robert G. Bernreuter, director of the student advisory service, has announced.

The psychology clinic is located in the basement of Woman's Building and is open 9 a.m. to noon and 1 to 5 p.m. five days a week.

The Mineral Industries Student Council is the only council that had not voted on the issue as of yesterday.

Included in the student government groups that have approved the freshman fee increase are the Women's Student Government Association, Women's Recreation Association, Leonides, Panhellenic Council, and the Association of Independent Men.

Proposal Amended
The freshman, sophomore, and junior classes and the Nittany, Town, and Interfraternity councils have not yet voted on the proposal.

The senior class, in approving the proposal, amended it to read that seniors for the next three years will pay an extra \$2 when picking up their LaVies. This was the only group that did not approve Schoerke's original proposal.

The senior amendment, if approved, will do away with the provisions of the original proposal whereby present sophomores, juniors, and seniors would not have been assessed for the amount they were not required to pay while freshmen.

At present, sophomores, juniors, and seniors pay a \$2 per semester LaVie fee, making the cost of the yearbook \$12. The present proposal would eventually hike the price of the book to \$16.

Second Vote
In recommending the fee increase, Schoerke asserted that production of a LaVie with the same standards of last year's will result in over a \$4400 deficit if more funds are not obtained.

The proposal, which received approval on the first vote taken at the last cabinet meeting, will be voted upon for the second time when cabinet meets tomorrow. If the proposal passes, it will then go to the Board of Trustees in the form of a recommendation.

Any proposal involving more than \$100 must be approved at two successive cabinet meetings. A change in fees must be approved at two successive meetings, and then it is presented to the trustees.

Trustees Approve Changes in Faculty

Promotions, appointments, resignations, leaves of absences, and retirements of College faculty, approved by the Board of Trustees, have been announced.

Promotions for 119 faculty members, effective last July 1, except where otherwise noted, are as follows:

Associate professor to professor: Dr. Russell B. Alderfer, soil technology; Carl S. Bittner, pomology extension; Dr. John W. Bratzler, animal nutrition; Dr. Cyrus E. French, animal nutrition; Dr. John J. Gibbons Jr., physics; Dr. Ruth R. Honey, family economics and housing; William S. Jeffries, agricultural extension; Frederick H. Leuschner, poultry husbandry extension; Dr. Fred H. Lewis, plant pathology; Dr. Laurence LeSage, romance languages; Dr. James H. Moyer, education; Dr. Thomas S. Oakwood, organic chemistry; Dr. Louis F. Peck, English composition; Dr. Ralph P. Seward, chemistry.

Dr. William U. Snyder, psychology; Theodore S. Spicer, fuel technology; Charles W. Stoddard Jr., physical education and athletics and director of extension, School of Physical Education and Athletics; Dr. Florence E. Taylor, elementary education; Willis C. Taylor, music education; Dr. Abram W. VanderMeer, education; and Margaret H. Zook, clothing and textiles.

Dr. William M. Lepley, professor of psychology, was named director of the psychological laboratories, and Delpha E. Wiesendanger, professor of home management and housing, was promoted from acting head to head of the Department of Home Management, Housing, and Home Art and from acting chairman to chairman of the division of home management, family economics, housing, and home equipment.

Pre-Med Honorary To Sponsor Address

Alpha Epsilon Delta, pre-medical honorary, will sponsor an address by Dr. Charles L. Brown, dean of the Hahnemann Medical College of Philadelphia, at 8:15 tonight in 105 White Hall.

Dr. N. Volney Ludwick, chairman of the admissions committee of Hahnemann, will be present.

Dr. Joseph H. Grosslight, psychology; Willard R. Grubbs, English composition, Central Extension; Dr. Julia M. Haber, botany; Jo Hays, education (part-time); Floyd A. Hummel, ceramics; Theodore Karhan, music and music education; John E. LeFrancis, engineering research; John W. Lewis, engineering research; Dr. Vaclav Mares, economics; Dr. Morley G. McCartney, poultry husbandry; Dr. David R. McClay, agricultural education; Jeannette Molloy, elementary education (part-time); Albert S. Mowery, agricultural engineering.

Dr. Harold E. Nelson, speech; Robert D. Reifsnider, dramatics; Dr. H. David Rix, physics; E. Scott Roscoe, industrial engineering; Christine F. Salmon, housing and home art and chairman of the division of home art.

Ray M. Smith, engineering research; Dr. Leo H. Sommer, chemistry; Glenn Z. Stevens, agricultural education; Dr. Richard C. Stoner, physics; George L. Theuring, industrial engineering; Sever J. Torretti, physical education; Harold V. Walton, agricultural engineering; Eugene Wettstone, physical education; David C. White, engineering research; and Lucille L. Zoller, foreign languages, Central Extension.

Instructor to assistant professor: George (Continued from page two)

Nittany Lion Shrine Given by '40 Class

By BILL SNYDER

The Nittany Lion shrine hasn't always been here for visitors to admire and football rivals to paint. Neither has Penn State always had an athletic symbol. The story of how they came about makes an interesting page in Penn State history.

The original purpose of the shrine was not to honor the lion, for Penn State didn't have a mascot. In 1939 the College had no central place for sports rallies, and during the football season of that year, students held private rallies.

There were bonfires and pep rallies on campus practically every night. Rioting and destruction soared high, resulting in a meeting between President Hetzel and a group of students.

It was decided at the meeting that the students must have a place, preferably an athletic monument, for a common rallying spot for "sports hysteria."

The Class of 1940 suggested a statue of a proud, majestic animal suitable to represent all future Penn State athletic teams as a mascot — hence, the Nittany Lion.

Thus the lion became the symbol of Penn State, but the idea didn't originate with the Class of 1940. In 1904 freshman H. D. "Joe" Mason was at Princeton with the baseball team when he saw a statue of a bengal tiger, Princeton's famed mascot. It occurred to Joe that the College, too, should have a mascot, preferably a lion.

Three years later the idea was still with him. He wrote a series of editorials about it. In one he said, "Every college the world over of any consequence has a college emblem, except Penn State. Why should not State, the best of all colleges, get the lion, the best of all animals, for its emblem?"

It was not until 33 years later that the College came around to Joe's viewpoint and adopted the lion as an official mascot.

When the shrine was dedicated in October 1942, Joe was there to see his dream become a reality.

Penn Tickets Available Today

Tickets ordered through student applications for the Penn State-University of Pennsylvania football game will be available beginning at 9 a.m. today at the Athletic Association office.

All seats in the \$3.90 price bracket have been sold. Harold R. Gilbert, graduate manager of athletics, said. End zone seats at \$2.60 are available at the Athletic Association office and at the university.

Athletic Association books must be presented to obtain tickets ordered through application. Signatures on the AA books must be the same as those on the applications submitted. One person may pick up a group of tickets, Gilbert said.

College Plans Few Activities For UN Week

The celebration of United Nations week began Monday and will continue through Friday. Specific activities for the College's observance of the week have not been listed, according to Donald Cutler, committee chairman.

Friday will mark the seventh anniversary of the signing of the United Nations Charter. It will be designated throughout the country as United Nations Day.

Unlike last year, when Nuri Eren, Turkish delegate to the United Nations, and Dr. Jan Goris, Greece's representative to the United Nations Educational, Social, and Cultural Organization, spoke on the effectiveness of the UN, there will be no guest speakers this year.

\$2 LaVie Fee Turned Down By MI Council

The seven members attending last night's meeting of the Mineral Industries Student Council voted against the proposed \$2 a semester freshman LaVie fee as it now stands.

President David Fleming expressed the council's feeling that the \$4 per year raise would be in excess of the amount necessary. With the LaVie needing only \$4500 to cover its cost, they felt the proposal should be modified to \$2 per year, payable on one semester or at the rate of \$1 per semester.

Council members also voted against the \$200 gift per year to the chess team and rebated the request by Ernest B. McCoy, dean of the School of Physical Education and Athletics, for 300 reserved seats at all indoor sporting events.

Fleming announced that freshmen will elect two members to the council on Monday. The elections will be held in MI Dean Edward Steidle's lecture class from a list of nominees now being gathered.

John Ruffner, chairman of the annual Mineral Industries banquet to be held in the spring, reported that George Dieke will act as master of ceremonies at the event. Dieke is a member of the Board of Trustees of the College and is chairman of the board of the Mine Safety Appliance Co. of Pittsburgh.

FREE

Tonight Only

Clip and bring this premium to the BX in the TUB—tonight, from 7-9 p.m.—and you can get a Penn State, blue and white decal, FREE. Put this decal on your notebook, mirror, suitcase, or car window.

Open tonight and every Wednesday night from 7 to 9 p.m.
