Lions Ready to Roll, Prexy Tells Rally

President Milton S. Eisenhower last night compared Penn State's football team to a high powered automobile "whose tank is filled with gas and whose engine is ready to roll it down the Spartan road for a touchdown."

Prexy spoke at a pep rally at which a fair-sized crowd, including the entire Air Force drill team, gave the team a spirited send-off last night in front of Recreation Hall. The team was scheduled to leave Altoona, by train last night.

Chess Club Allotment Is Rejected

By MIMI UNGAR

All-College Cabinet last night unanimously rejected the proposal that \$200 be allocated to the Penn State chess team for the 1952-53 college year.

The proposal was introduced by Peter Betley, president of the chess club, at the last cabinet meeting. Reasons Betley gave for the allocation were that the chess team represents Penn State, and in the past has won the state championship as well as a runner-up position.

Betley estimated that trips have cost each member of the team at least \$50.

David Pellnitz, chairman of the Board of Publications, pointed out, however, that if cabinet were to give money to the chess team, it would be misrepresenting student government funds. The possible establishment of a separate fund for teams who represent the College was suggested by Lincoln Warrell, president of the Chem-Phys student council.

All-College President John Laubach said that cabinet will aid the chess team in investigating the possibility of such a separate fund.

Cabinet approved the following percentages of Campus Chest funds to be allocated to previously specified recipients: Penn State Christian Association, 46 per cent; World Student Service Fund, 13 per cent; Women's Student Government, Association Christmas Fund, 6 per cent; State College Welfare Fund, 1 per cent; Salvation Army, 6 per cent; Heart Fund, 6 per cent; American Cancer Society, 6 per cent; Penn State Scholarship Fund, 7 per cent; National Student Service Fund for Negro Students, 5 per cent; and operating expenses, 4 per cent.

'Ike' Sentiment Strong At College, Poll Shows

"I Like Ike" is the sentiment of approximately 600 Penn State students polled at random, whose growing enthusiasm for General Dwight D. Eisenhower is even stronger than the majority-support given him by voters throughout the nation.

Eisenhower's increasing popularity with students on campus was indicated early this week in a personal-interview presidential poll conducted by 11 Daily Collegian staff members.

He received 67.6 per cent of the poll's vote. His Democratic rival, Gov. Adlai E. Stevenson of Illinois, tallied votes from only 29.1 per cent.

Compare Polls

Those polled were selected at random from such widely-separated locations as Engineering C, McKee Hall, Sparks Building, the Mall, Main Engineering Building, Atherton Hall, Willard Hall, Temporary Building, Ag Hill, and off-campus.

The results of this poll invite comparison with recent polls conducted by Dr. George Gallup's American Institute of Public Opinion and by the Princeton Research Service.

Dwight D. Eisenhower Favored by Poll

At Penn State it's Ike 2.3 to 1. But throughout the country it's Ike 1.4 to 1, according to Gallup. This week's campus poll also shows different results from two

previous Collegian polls, the first one by written ballot last March, and the second by personal interview last April.

Members Increase

The Republican standard-bearer has added a sizeable number of students to his bandwagon since the Collegian polls during the primary elections last spring. He had only 43.5 per cent of the April vote, and 38.6 per cent of the March poll.

The total of Republican party members on campus also skyrocketed since the last two polls. Compared with this week's showing of 67.6 per cent Republicans, the second poll indicated 66 per cent and the first a much lower 42 per cent.

The Democratic ranks on campus also climbed, but less spectacularly. From only 23 per cent in the first poll, and 20 per cent in the second, they jumped to 29.1 per cent.

Less numerous were students who were "undecided." At present only 3.3 per cent have not made up their minds, the same percentage shown last March in the first poll. But as many as 15
