

Childs to Discuss Ike At 1st Forum Program

Dwight D. Eisenhower as the 34th president of the United States will be discussed by Washington news columnist Marquis Childs in the opening program of the 1952-53 Community Forum series at 8 p.m. Monday in Schwab Auditorium.

Childs will comment on the personality of the president-elect as well as his policies as evidenced in the recent campaign. He will consider what present American domestic and foreign policies will be implemented by the new administration and which will be scrapped. Major issues which are due to confront the new Congress will be surveyed.

The title of Childs' talk will be "Washington Calling," the same as that of his daily syndicated column which appears in over 150 newspapers throughout the U.S.

Winner of the Sigma Delta Chi award for Washington correspondence in 1944, Childs has traveled widely in Europe, the Middle East, India, and Pakistan. He also holds the 1951 award for distinguished service in journalism from the School of Journalism of the University of Missouri.

The columnist has written several books, among them "Sweden: the Middle Way," from material gathered during his yearly trips to Europe; "This is Democracy;" and "I Write from Washington." His novels include "Washington Calling" and "The Cabin."

Tickets for the Community Forum series are still on sale at the Student Union desk in Old Main. Season tickets are priced at \$3. Holders of season ticket cards purchased during the forum campaign should exchange them for sets of reserved tickets at the SU desk before the performance Monday night. Only reserved seat tickets will admit persons to Schwab.

Prexy Gets Reports of Destruction

Numerous reports that considerable damage was done in Philadelphia hotels to rooms and furniture during the Penn game weekend have been received by the President's office, Wilmer E. Kenworthy, director of student affairs, has announced.

Reports are that damage was extensive, Kenworthy said. In one case for rowdiness, police were called to restore order. Halls were littered with broken glass and bottles, reports said, and one woman was injured when she was hit with a telephone book.

Telephones were torn from the walls, and many fire extinguishers were emptied in rooms and hallways, reports said. The entire affair was characterized by extreme noise and rowdiness, similar to the situation during the Penn-Penn State game in Philadelphia in 1948, Kenworthy said.

Kenworthy stressed the fact that a great many persons other than State students could have done the damage, including alumni and native Philadelphians. Reports, however, stemmed mainly from the Bellevue-Stratford hotel, which was the headquarters of State students.
