

# Ike Gives OK To GOP Plans

NEW YORK, Nov. 19 (AP)—Gen. Dwight D. Eisenhower was reported in agreement tonight with top Republican leaders on the broad outlines of a tax cutting economy program—and to be standing firm against forcible repatriation of prisoners in the Korean War.

Sen. Alexander Wiley (R-Wis.), who will be chairman of the Senate Foreign Relations Committee in the next Congress, told reporters after a meeting with Eisenhower that the general "re-emphasized his agreement with the principle of no forcible repatriation of Communist prisoners."

The repatriation issue has been used by the Communists as their main reason for refusing the Allied terms for an armistice in Korea.

### Saw Legion Commander

Earlier in the afternoon, Eisenhower had discussed the new legislative program for the Republican controlled 83d Congress with top GOP leaders who reported a "harmonious" meeting and no apparent disagreement on objectives.

Eisenhower also saw Lewis K. Gough, national commander of the American Legion, who said he had presented a 10 point Korean program to Eisenhower and the general had "expressed interest."

Gough's program called among other things for bombing of bases north of the Yalu River, blockading of China, and an invasion of the Chinese mainland by Chinese Nationalist troops.

### To See Dulles

Tomorrow, the President-elect has scheduled a luncheon meeting 12:30 p.m., EST at his headquarters with Anthony Eden, British foreign secretary.

Earlier he is to see John Foster Dulles, Republican advisor on foreign policy, and Harold E. Stassen, former governor of Minnesota.

# Michigan Pen Riot Subdued

JACKSON, Mich., Nov. 19 (AP)—Peace reigned at long-troubled Southern Michigan Prison today after last night's 90-minute riot, which was subdued at gunpoint.

Officials, keeping six men in solitary confinement, sought to fix the blame for the big prison's third riot in eight months.

A guards' riot squad, specially trained since the bloody, million-dollar April outbreak, put down last night's insurrection by firing shots over the heads of rioters.

The rioters, estimated to have numbered at one time 2,200 of the prison's nearly 6,000 population, were herded into cells with minor injury to only one man—an inmate, believed to be hit by a wild bullet.

In contrast to the April and July outbreaks, the rebellious inmates made no attempt to seize hostages.

# DuPont Set To Fight Trust Suit

CHICAGO, Nov. 19 (AP)—Defense attorneys today began an effort to knock the legal props from under the government's anti-trust suit against the du Pont family and six major companies.

John Harlan, an attorney for the du Pont interests, contended the government's case is vague on the main issue and is "built on inferences, assumptions and insinuations."

Harlan harked back to the early days of World War I and related that the du Ponts kept stock in their huge munitions firm from "falling into pro-German hands."

The government's civil suit was brought against 117 members of the du Pont family, three du Pont holding companies, E. R. du Pont de Nemours and Company prime producer of munitions and chemicals, General Motors Corp. and the U.S. Rubber Company.

The suit alleges the du Ponts, through their stock holdings, control all the companies. It seeks to force them to sell their stock in General Motors and U.S. Rubber.

The government charges there was a conspiracy among these interests to restrain trade. The defendants have denied the charges.

Harlan, in his opening statement, asserted it was "ridiculous for the government to say the seed of conspiracy" was planted when the first du Pont holding company, the Christiana Securities Company, was set up in 1915.

### Truce Plan

UNITED NATIONS, N.Y., Nov. 19 (AP)—Bolstered by strong support in the British Commonwealth, India's V. K. Krishna Menon appealed "in all humility" today for the UN Political Committee to accept his compromise plan for solving the Korean conflict.

### Miners Pay Boost

WASHINGTON, Nov. 19 (AP)—Economic Stabilizer Roger Putnam said today he hoped to reach a decision this week on the soft coal wage appeal by John L. Lewis and the industry.

Lewis and Harry M. Moses, president of the Bituminous Coal Operators Association, have asked Putnam to overrule the Wage Stabilization Board and grant 375,000 soft coal miners the \$1.90 daily wage increase negotiated in September.

### Pearl Bailey Marries

LONDON, Nov. 19 (AP)—Blues singer Pearl Bailey and Louis Bellson Jr., white jump drummer, were married today in the jiviest wedding old London has ever seen.

A five-piece swing band beat out "The Hawk Talks," the 29-year-old bridegroom's own tune, and a crowd of 200 in the streets outside the Caxton Hall registry office joined in—some jitterbugging, some just swaying.

### Prexy on Committee To Probe School TV

HERSHEY, Pa., Nov. 19 (AP)—Gov. John S. Fine tonight announced the appointment of a 16-member committee to make recommendations to facilitate the use of television as an educational medium in Pennsylvania.

Included in the committee was President Milton S. Eisenhower.

Fine designated the committee to study educational television and to take any action necessary to insure that the four TV channels reserved for educational use in the Keystone State will be utilized.

### Chemical Engineers

The American Institute of Chemical Engineers will meet at 7 tonight in 117 Osmond.

# Jet Bombers Blast Reds Near Border

SEOUL, Thursday, Nov. 20 (AP)—Thunderjet fighter-bombers leveled a Communist military headquarters and oil storage plant only 25 miles from the Manchurian border Wednesday, leaving them in rubble and flames.

The air blows overshadowed the ground fighting, which was virtually frozen in the most bitter cold so far of the new winter campaign.

The raiders, including new, improved Thunderjets, struck Kanggye, important North Korean rail and supply point. Pilots said they wrecked 25 buildings and left smoke and flames boiling up from the target.

Sabrejets flying protective patrol for the raiders tangled with four Communist MIGs near the Yalu River frontier of Manchuria and damaged one, the Fifth Air Force said.

It was the third straight day of air battles, in which the Reds had seven MIGs destroyed, one probably destroyed and three damaged. Allied losses, if any, are announced weekly.

The top boss of the U. S. Air Force, Gen. Hoyt S. Vandenberg, touring Korea, disclosed that new and improved jet types, including speedier Sabre interceptors and Thunderjets capable of heavier bomb loads are now in action.

Asked at a press conference if the Air Force is strong enough to bomb effectively beyond the Yalu

River boundary of Manchuria, Vandenberg replied:

"The Air Force is in a position to do anything the administration wants done."

However, the Air Force chief of staff indicated that any expansion of the air war would require reinforcement of the squadrons now in Korea. Thus far the United Nations Command has forbidden strikes across the Yalu where Communist jet bases are located on Chinese territory.
