

# Indian Proposal Approved by UN

UNITED NATIONS, N.Y., Dec. 3 (AP)—The UN General Assembly approved overwhelmingly today an Indian plan for peace in Korea. It was ordered dispatched speedily to Red China and North Korea with an appeal for their quick acceptance. They and Moscow have already condemned the plan.

Fifty-four members of the 60 nation Assembly voted on a final rollcall for the resolution which reached the Assembly floor after weeks of debate.

## Dulles Plans Department Investigation

WASHINGTON, Dec. 3 — John Foster Dulles, the next Secretary of State, today projected a thorough investigation of the State Department but declared that "loyal servants of our government have nothing to fear."

In indication of what may be one of Dulles' first actions when he takes over the State Department Jan. 20 came in a statement he issued after a meeting with Secretary Dean Acheson.

Obviously aware of the impact of long sustained Republican criticism on career diplomats and other workers whose boss he will be, Dulles declared the foreign service "will be protected" by the Eisenhower administration "insofar as it is sound and free of corruption."

"There are, of course, many angles that need to be looked into and will be looked into very thoroughly," he said. "But the loyal servants of our government have nothing to fear."

The reference to "corruption" and to the "angles" that will be thoroughly studied left no doubt that Dulles plans to rake over the department and foreign service from top to bottom. Some authorities believe that one of his first and most pressing tasks, aside from reinforcing the morale of the thousands who will work under him, will be to try to restore public confidence in the department to whatever extent it has been destroyed.

Republican critics have assailed the department as a hotbed of Communists or persons with Red leanings, have attacked many of its policies, and have questioned the adequacy of its leaders. A wholesale shakeup of top personnel here and of U.S. missions abroad is expected under the new administration.

Dulles said he discussed with Acheson today "the problems of transition which will be involved in handing the responsibility over foreign policy from a Democratic to a Republican administration."

America's first novel, "Power of Sympathy," by Susannah H. Rowson, appeared in 1789.

**Reds Reject Resolution**  
The five Soviet Bloc countries, fighting bitterly to the end against the solid Free World front, cast the only negative votes. Nationalist China abstained on the grounds that the resolution would not be effective.

Although the Communists already have rejected the resolution, some UN leaders hoped for a change of mind in Peiping and Pyongyang. The action today closes the first chapter of the Korean case in the seventh Assembly and there is expected to be a lull now until the Communists react.

**May Wait For Re-opening**  
Delegates feel that such reaction will not come in time for fresh decisions here by the New Year.

They are ready to suspend action until President-elect Dwight D. Eisenhower takes office in Washington Jan. 20 and sends a new delegation to the Assembly reopening in February.

U. S. Ambassador Ernest A. Gross told the Assembly the resolution shows the way to peace.

Gross said the people of the United States are united with other peoples of the world in a prayer that the Communists will accept the proposal. If they do not, he said, "it will make clear to all the world that the Communists do not want a peace in Korea acceptable to the conscience of civilized men. This will be a disheartening conclusion, but if we are compelled to reach it, we shall do so with courage and determination."

"The other day," Gross continued, "the author of the resolution which has now become our resolution told the political committee that he is not speaking for the people of China but that he is speaking to the people of China. Today the United Nations speaks to the Chinese and to the North Korean people. The United Nations asks the people of China and the people of North Korea to join with the other peoples of the world represented here and accept what we have done here as a basis for peace with honor and dignity."

**CIO Hears Stevenson**  
ATLANTIC CITY, Dec. 3 (AP)—Gov. Adlai Stevenson today led CIO convention memorial services for the late CIO president Philip Murray as a behind scenes battle raged in the choosing of Murray's successor.

## HST and Adlai Discuss Future Comeback Plan

WASHINGTON, Dec. 3 — Gov. Adlai Stevenson came to Washington tonight to "discuss the Democratic party" with President Truman.

That was about all the defeated presidential nominee would say about plans for his two nights and a full day as a White House guest, but there appeared no doubt that the big subject for talks with Truman and other party bigwigs was planning for a Democratic comeback.

Flying in from Atlantic City where he had attended memorial services for Philip Murray, late president of the CIO and one of his staunchest supporters in the recent campaign, Stevenson's commercial plane was about an hour late.

A crowd of some 200, largely made up of women and children waited that hour in dark, chilly weather to shout a greeting. There was a chant of "We want Adlai" when the plane landed. Some shouted "Stevenson in '56" and there were banners reading "Retrieve with Steve."

Stevenson, who has had little to say about his own plans since he lost the election to Republican Dwight D. Eisenhower, left the welcoming group guessing. As he boarded a White House car on the way to the executive mansion he told them: "I have only this to say aside from my gratitude. I'm not coming back for four years." There was no elaboration to clear up whether he meant he was pulling out of national capital affairs for that long, which would suggest an inactive political role for the present.

## Former Red Leaders Executed in Prague

VIENNA, Austria, Dec. 3 (AP)—Rudolf Slansky, former Communist boss of Czechoslovakia, and Vlado Clementis, its former foreign minister, were hanged in Prague today with nine other fallen party leaders. They were judged "Zionist, Trotskyite" enemies of Stalinism.

# Truman Bucks WSB; Approves Pay Hike

WASHINGTON, Dec. 3 (AP)—President Truman today overruled the Wage Stabilization Board and approved a \$1.90 daily wage boost for John L. Lewis' 375,000 soft coal miners.

The President's decision, reached one week ago, was announced by Economic Stabilizer Roger Putnam who said:

## House Sets Inquiry Into State Dept.

WASHINGTON, Dec. 3 (AP)—The House judiciary subcommittee has launched an investigation into reports that the State and Justice Departments interfered with a New York grand jury's search for alleged American Reds in the United Nations organization.

As Chairman Chelf announced the inquiry was under way, the International Monetary Fund disclosed that Frank Coe, its \$15,500 a year secretary, has been fired after refusing to tell Senate investigators whether he was ever a Communist or a wartime spy.

The monetary fund, set up to stabilize currencies, has contractual relations with UN but is not a part of UN.

Chelf and Rep. Keating, another member of the judiciary group, said an investigator already was on the way to New York to look into "serious charges of delay, interference and hampering" which they said had been made against the Justice Department by members of the federal grand jury.

One of the jurors, Max Zimmerman, told reporters in New York yesterday the jury "had reasons to suspect" that the State Department, working through the Justice Department, had started to exert pressure to delay or pigeon hole its report on conditions inside the UN.

Speaking for the State Department, a press officer, Michael McDermott said today it had nothing whatever to do with any such attempt.

"This is not the decision I would have made. It is not the decision I would have recommended."

But Putnam told newsmen he would not resign over the disagreement in handling the case and he was certain that at least three of four public members of the wage board would also stay on the job. Some of the board's public members told newsmen privately some time ago that they intended to resign if the government rejected the board's decision that a \$1.50 rise was all that could be allowed under the government's anti-inflation program.

Lewis, president of the United Mine Workers, and the industry jointly appealed the board's decision to Putnam and the matter then went to the White House. Lewis and the industry has agreed on a \$1.90 rise but under wage price controls it could not be put into effect without governmental approval.

Truman's decision that the miners should have the \$1.90 mean higher price ceilings for many varieties of soft coal but probably not for all. Most soft coal has been selling well under existing ceiling prices and the higher wage costs can be absorbed for some varieties within present ceilings.

President Truman made his decision known in a letter to Putnam which said that the issues in the coal case "go far beyond stabilization considerations."

## Brinks Hold-up Lead

PITTSBURGH, Dec. 3 (AP)—U. S. marshal took Stanley Guscira, 31, back to Boston today for federal grand jury questioning in the million dollar Brink's holdup in 1950.
