## FMA Members To Set Policy In Corporation

Members of the newly chartered Fraternity Marketing Association, while working as stockholders in a regular corporation, are technically not stockholders. Dr. Robert K. Murray, charter member, has announced.

The 15-member fraternities will vote and set the corporation policies, but FMA is not a stockholding corporation and does not issue stock, Murray explained. FMA is a buying organ for fraternities joined under a charter and operating on a non-profit basis, he said.

Reporting Wednesday on the program's progress to members of Interfraternity Council, Murray showed through comparative percentage figures the savings made possible by the plan.
