

### Student Union -

(Continued from page one)

clude an air-conditioned auditorium with 182 seats and motion picture projection equipment, a lobby and dance lounge, a lounge with exhibition facilities, the SU main desk and offices, a music room, browsing library, and large ballroom that will open onto a terrace.

Included on the second floor will be the SU management offices along with meeting rooms for student organizations. On the ground floor will be a cafeteria with small dining rooms for group meetings, a snack bar, a space for the present student book exchange, lost and found department, a dining terrace, photo. There will also be unfinished rooms designed for future development of crafts, including metal shop, ceramics, wood shop, general work shop, and a room for drawing, painting, and designing.

The basement will include storage rooms for the food service and space for the utilities of the building.

The addition of an east wing to the Inn will add 75 new rooms, doubling the present number of guest rooms. It will also provide for a grill room under the present main dining room, a large meeting room in the new wing, and a small meeting room under the lounge of the present structure.

### MI School Plans Studies of Carbon

The Mineral Industries school will study the manufacture of carbon black and activated carbon from anthracite under a research grant of \$12,000 from the Philadelphia and Reading Coal and Iron Co.

Professor Calvert C. Wright, chief of the fuel technology division, will direct the study.

Professor John C. Calhoun, chief of the petroleum and natural gas engineering division, will supervise a \$2500 grant from the Sinclair Refining Co. for a fellowship in petroleum production.
