

# Ike to Conclude Talks in Hawaii

HONOLULU, Dec. 11 (AP)—President-elect Dwight D. Eisenhower came from the frozen desolation of the Korean War into the brilliant beauty of Hawaii today where he will conclude top level policy talks before returning to New York Sunday.

He arrived at 9:12 a.m. (2:12 p.m., EST) and with close advisers rode through Honolulu for an ovation from cheering crowds along the parade route estimated at 100,000.

# Truman To Organize New WSB

WASHINGTON, Dec. 11 (AP)—President Truman and his economic stabilizer said today they have licked the problem of getting business men back on the Wage Stabilization Board.

Truman told a news conference he expects to have the crippled board back on its feet before the end of this week, with a whole new panel of industry representatives.

The board fell apart last Saturday when all seven of its industry members quit en masse with a bitter blast at Truman's intervention in the soft coal miners' wage case.

Pressure immediately began building up from business organizations and at least one big labor organization—the CIO—for a junking of controls.

But Truman said today he would have plenty of volunteers from industry's ranks for the vacant wage board seats before the week is out. Good men too, he added. He said he also expects to have a new economic stabilization administrator when Roger Putnam steps out of that post on Jan. 1.

# ROKs Attempt To Retake Hills

SEOUL, Friday, Dec. 12 (AP)—South Korean infantrymen struck through heavy fog and haze today in efforts to win back one of two hills lost to Chinese Reds yesterday on the northern invasion route to Seoul.

Nearly 3000 Reds had charged recklessly through their own artillery fire Thursday in winning the heights—Big Nori and Little Nori.

Associated Press Correspondent Milo Farneti reported that the Reds have pumped about 15,000 rounds of artillery and mortar fire at South Korean positions in the area since the battle started.

He called the fight the hottest since the Sniper Ridge battle slowed down last month in Central Korea.

# New Atomic Subs Are Navy's Most Stealthy, Deadly

WASHINGTON, Dec. 11 (AP)—The new atomic submarines will be the most stealthy and deadly ships of the Navy. Rear Adm. Homer N. Wallin, chief of the Bureau of Ships, disclosed today.

Wallin had this to say of the commander of the USS Nautilus, one of two nuclear powered undersea boats being built:

"He will be able to cruise so deep and silently that an enemy will have great difficulty locating him, and even greater difficulty damaging him. If necessary this vessel can lie utterly still for long periods of time; longer, certainly, than any enemy surface ships are likely to cruise around exposing themselves to the Nautilus' acoustic sound-tracking torpedoes."

The Navy is working on devices to enable the crew to stay underwater for long periods, Wallin said. In addition to the storing of oxygen in high pressure bottles, the Bureau of Ships "is working on a device to take oxygen from water." The atomic sub will have even a special tube for getting rid of garbage.

Wallin also reported the Nautilus will have three power systems; her main atomic engine which will operate on a steam turbine principle; conventional Diesel engine; the electric power from batteries.

# CIO to Challenge Taft-Hartley Law

WASHINGTON, Dec. 11 (AP)—The CIO said tonight it will challenge the constitutionality of provisions of the Taft-Hartley Act in an American Locomotive Co. case in which President Truman is moving to obtain a strike stopping court injunction.

Arthur S. Goldberg, CIO general counsel, told newsmen the CIO plans to use the case as a test of the legality of the entire national emergency provisions of the labor law.

Truman earlier had instructed the justice department to obtain an injunction, probably tomorrow at Buffalo, N.Y., to stop a 15-week old strike at the Dunkirk, N.Y., plant of the American Locomotive Co.

The company is producing materials which Truman said are vital to construction of atomic energy plants.

Goldberg said the CIO has been waiting patiently for an opportunity to challenge the whole national emergency setup under the Taft-Hartley Act and intends to use the American Locomotive case as a spring board for the litigation.

Goldberg said the main point will be that in writing the law Congress does not declare strikes to be illegal, nor does it declare strikes of a national emergency character to be illegal, but merely attempts to confer upon a federal court the right to enjoin emergency strikes.

### Expected Saturday

The arrival ended nine fateful days in the making of future American history—three of them spent in studying the Korean situation and the rest in conferences which fixed the broad outlines of Far East policy for the new Republican administration.

Eisenhower expects to leave Hawaii at noon Saturday. That would put him into New York about noon Sunday.

James C. Hagerty, Eisenhower's press secretary, said the President-elect would have nothing to say in reply to President Truman. Truman told a news conference today Eisenhower's campaign promise to go to Korea was demagoguery.

### Trip 'Will Pay Dividends'

Hagerty said Eisenhower, who is known to be pleased with the results of the tour, would make his first public statement on his Korean trip when he lands at Travis Field, Calif.

While the President seemed to think little of Eisenhower's trip, John Foster Dulles, the next secretary of state, has told reporters it was invaluable and that policy conferences aboard the Helena will pay dividends to the American people for years to come.

Eisenhower will continue talks here with Dulles, Douglas McKay, his secretary of the interior, and Adm. Arthur Radford, commander of the Pacific Fleet.

### Wilkes-Barre Fares

HARRISBURG, Dec. 11 (AP)—The Wilkes-Barre Transit Corp today won Public Utility Commission authorization to make permanent a 2 cent increase in base fares.
