

# WSGA Senate Discusses Funds For Scholarship

The advisability of contributing to the All-College Scholarship Fund was discussed last night at a meeting of the WSGA Senate. The discussion brought out the fact that Senate's money is allocated to it through a women's activity fee, while many other campus organizations earn their money; also, Senate's money is definitely earmarked for women's activities through WSGA.

The scholarship fund contribution will be considered more fully and voted on at the next meeting. Preliminary plans were made to revise the regulations handbook for undergraduate women, "Tune in, WSGA." The revisions and re-editing will be done this spring, in time for next fall. Barbara Werts, vice president, who presided at the meeting, announced that suggestions for a committee to work on the handbook would be taken after Christmas vacation. She added that the handbook committee members would not necessarily have to be Senate members, but should be familiar with the WSGA constitution.

Miss Wertz announced that the next Senate meeting would probably be Jan. 14.

## With Open Mind

(Continued from page four)

great improvement over the previous setup where mother had to move the clothes from the washer to the drier. Now she can watch television without interruption for more than one hour.

Of course, if you are old-fashioned and don't want mother to corrupt herself by watching television, you had better hide advertisements for this new whiz mechanism from her. But remember industry's new motto, "Mothers are better than ever." Of course Dad goes broke but . . .

**FOR DAD:** This gift is also appropriate for any unusual student you know who might like to read. (Imagine that!) But, for father, it's guaranteed to 1. worry him, 2. please him, and 3. keep him busy over Christmas vacation, thus giving you free access to the car.

It is a new book called "Limbo" by Bernard Wolfe. It will worry Dad because he won't be able to understand it, and will make him wonder how you happened to pick it. (To further add to the confusion, pretend you have read "Limbo" — this will drive him mad.) It will please him because he will think his dear little offspring is finally realizing the more important values of life such as good books.

And it will keep him busy all over vacation because that's how long it will take him to read it. One word of warning—don't bring the book back to Nittany with you, you may be labeled "literary." Instead be sure to wear the new hat she bought you. That's more collegiate.

Here's a reminder in case you may have forgotten — Penn State alumni clubs through the state are holding Christmas and New Year's dances (many are formal) over the vacation period. Just the thing to do if you need something to bring your mind back to Nittany for an evening.

There's an interesting sidelight on these dances. Most of the posters telling of them are in the women's dorms—apparently advertisers expect the women to do the suggesting or inviting. We wonder how many males will go to the dances thinking they got the idea? Hmmmmmm?

## Discarded Clothing Sought by WSGA For Needy Koreans

You'll probably want to get rid of some of those old skirts after you receive new ones for Christmas. There's no need to burn the discards, however, for there are people who can use them.

Women's Student Government Association has planned a clothing drive to give students an opportunity to send discarded clothing to needy Koreans. The drive will be sponsored Jan. 8-15 so contributions from home may be brought back from vacation.

Boxes to collect clothing will be placed in conspicuous places in women's dormitories and in Old Main. At the end of the drive, collections will be given to the local Friends' organization for mending and shipment to Korea.
