

Hans Lundberg Will Deliver Sigma Xi Talk

Hans Lundberg, president of Lundberg Explorations, Ltd., of Toronto, Canada, will discuss "Geophysical Prospecting" at 8 tonight in 119 Osmond. The lecture, sponsored by Sigma Xi, science honorary, will be open to the public.

The use of airborne magnetic, electromagnetic, and radioactive surveys for locating oil pools and uranium deposits will be discussed by Lundberg in this illustrated lecture. He will also discuss the physical exploration of the Arizona meteor and the contribution of geophysics in finding remains of the Texeapan Man in Mexico.

For his meritorious work in electrical prospecting, Lundberg was awarded the Gold Medal of the Swedish Academy of Engineering Sciences in 1925 and the John Erickson Medal in 1944.

Since 1934, he has been president and manager of Lundberg Explorations, Ltd., an organization of geophysicists and geologists who carry out airborne magnetic, electrical, and radioactive surveys on the North American continent and Europe.

On the island of Marajo at the mouth of the Amazon River, cowboys often herd their cattle in dugout canoes during the rainy season.

Applications Due for Awards

Applications for scholarships offered by the College are due by Friday in 202 Burrowes, Kinsley R. Smith, chairman of the Senate committee on scholarships, has announced.

Last year 47 students received awards from the committee.

Students submitting applications will be notified of an appointment for an interview with the Senate committee. Interviews will be held some time later this month, Smith said.

White, Thiel Named To Alumni Fund Group

Dr. Marsh W. White, professor of physics, and Glenn N. Thiel, professor of physical education, have been named to the Alumni Fund committee.

The Alumni Fund is designed to encourage annual contributions from the alumni of the College. The money will be used to finance projects for which appropriated funds and income are not available.

Science Honorary Seeks Old Members

Sigma Xi, national science honorary, is contacting faculty members to obtain a list of persons who were members of the local chapter or who are members of other chapters and are interested in affiliating with the local group.

Any other persons eligible for

Graduation Invitations

Graduating seniors who ordered invitations and announcements may obtain them at the Student Union office by presenting receipts.

Moving Students Must Give Notice

Upperclassmen who expect to move out of Nittany or Pollock Circle dormitories at the end of the fall semester must present a letter of intention to the department of housing, Nittany Dorm 20, by Jan. 15.

Freshmen, according to Dean of Men Frank J. Simes, are required to live in College dormitories during the entire year and may not be released from the dorms at the end of their first semester.

Five Named Officers Of Chemical Society

Five faculty members have been elected officers of the Central Pennsylvania section of the American Chemical Society.

They are Dr. Ralph P. Seward, professor of chemistry, chairman; Dr. Gordon H. Pritham, professor of physiological chemistry, vice-chairman; Dr. A. H. Holtzinger, associate professor of chemistry, treasurer; and Dr. C. R. Kinney, professor of fuel technology, second alternate councillor.

membership may call Dr. Benjamin A. Whisler, head of the Department of Civil Engineering.

Two Alumni Receive Wings

Two alumni received their jet pilot wings in a ceremony at Bryan Air Force Base, Texas, recently.

Lieutenants William Duffee of Ridgeway and Donald Reynolds of Mount Lebanon were graduated from the College in 1951.

Lt. Duffee, who entered the Air Force immediately after graduation, completed his primary flying training at Perrin Air Force Base, Texas. He flew the T-28 conventional trainer and the T-33 jet trainer for his basic training at Bryan.

Lt. Reynolds was assigned to Spence Field, Georgia, for primary training. The first half of his basic training was at Perrin Air Base, Texas, and the final training was also at Bryan.

Commission--

(Continued from page one) million dollars for such a school was made by J. Collins McSparan, secretary of the Pennsylvania State Grange. He said the establishment of a school at Penn State would not hurt the enrollment of the University of Pennsylvania Veterinary College. He added that the proposed school would increase the number of state veterinary graduates to 75 yearly.

FOR BEST RESULTS USE COLLEGIAN CLASSIFIEDS

Wrestlers--

(Continued from page six) Doug Frey and Maurey are juniors.

Samson, after working last season in the light-heavy class, will move up one slot to the heavy-weight division for his final collegiate performances.

Maurey, another of the Clearfield wrestling brothers, will be back for another crack at the 137-lb. class. Maurey, the third brother behind Jim and last season's captain Don, will be wrestling in his first complete season.

2 Earthquakes Recorded

Two earthquakes were recorded on the College siesmograph yesterday.

Dr. B. F. Howell, associate professor of geophysics, reported the first as a major one at 2:59 a.m., possibly in the Aleutians or South America.

Chesterfield is Best for YOU!

"THEY SATISFY--AND HOW... in school and out, I've been a Chesterfield smoker for 5 years," says John B. Boyce, financial analyst. "They've got what it takes to give me what I want in a cigarette."

John B. Boyce

COLUMBIA UNIV. '50

- And First to Present
this Scientific Evidence on
Effects of Smoking

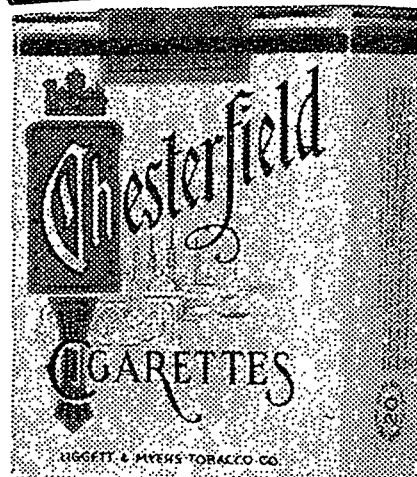

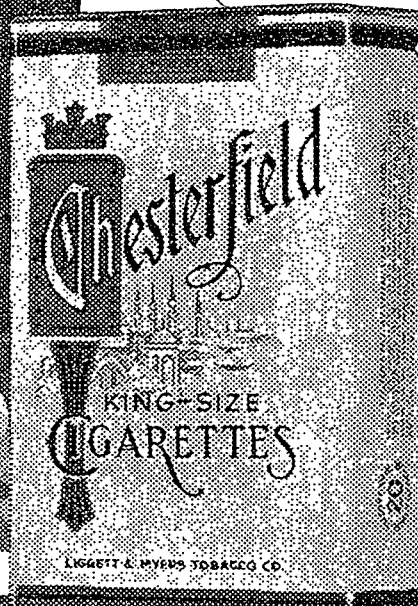

A MEDICAL SPECIALIST is making regular bi-monthly examinations of a group of people from various walks of life. 45 percent of this group have smoked Chesterfield for an average of over ten years.

After eight months, the medical specialist reports that he observed . . .

no adverse effects on the nose, throat and sinuses of the group from smoking Chesterfield.
