

# Dr. Sears Will Lecture On Conservation Topics

Dr. Paul B. Sears, lecturer and writer on conservation topics, will speak on "Conservation—Problems and Solutions" at an open meeting of Xi Sigma Pi, honorary forestry society, at 8 tonight in 121 Sparks.

Sears is director of the graduate program of research and instruction in the conservation of natural resources and professor of conservation at Yale. He also teaches courses in ecology, a field in which he has made field studies in the United States and Mexico.

He is author of "Deserts on the March," "This Is Our World," "Life and Environment," and "Charles Darwin."

Sears received his undergraduate training at Ohio Wesleyan University. He won his master's degree at the University of Nebraska and his doctor's degree at the University of Chicago. He taught at the University of Nebraska, University of Oklahoma, and Oberlin College.

Sears will be guest of honor at the Xi Sigma Pi annual banquet in honor of new initiates at the State College Hotel, prior to the lecture.

## Condition Remains Same for Ex-Dean

The condition of former Dean of Women Charlotte E. Ray, who is a patient in a Pittsburgh hospital where she recently underwent an operation after fracturing her hip, remains the same, according to Dr. J. W. Brandt.

Dr. Brandt, a 1930 graduate of the College and physician for Miss Ray, suggested in a letter that since Miss Ray is entirely alone in Pittsburgh, her friends extend a special greeting to her. Her address is Room 607, Women's Hospital, University Medical Center, Lothrop Street, Pittsburgh.

## IRRA to Meet Tonight

The Industrial Relations Research Association will meet at 7:30 tonight in 218 Willard to nominate officers.

Professor Harold Reed will speak at 8 p.m. on "Labor Relations and Durkin." Following the talk will be open discussion on the subject.

## Work Begins On Inn Wing

Preliminary work for construction of the new addition to the Nittany Lion Inn has begun, Walter Wiegand, director of the physical plant, said yesterday.

It will be a couple of weeks, Wiegand said, before actual construction will begin. All that has been done so far is to clear away shrubbery and do some work on the interior of the inn. Top soil is being stripped for a temporary road to the wing.

Construction on the Pattee Library and the new chemistry building are progressing normally.

## Journal Features Home Ec Activities

The Journal of Home Economics, published by the American Home Economics Association of Washington, D.C., featured articles on the Home Economics Club and News and Views magazine in its November and December issues.

The November issue carried an article on the point system of the Home Economics Club whereby members must maintain a certain number of points to remain in the club.

A piece appeared on News and Views in the December issue. It told when and how News and Views began and explained the purposes, contents, and staff organization of the magazine.

## Test Forms Available

Applications are now available at the College Placement Service in 112 Old Main for a civil service examination to be given Feb. 28 to senior engineering students who would like to work in California after graduation.

## Library to Display Former Frothists' Copy, Cartoons

From Froth art editors to advertising executive and freelance cartoonist, College alumni Edward Zern, '32, and John M. Price, '39 will return to campus recognition next week.

Their original advertising copy and cartoons, which have appeared in national magazines, will be displayed in the lobby of Pattee Library from Saturday through January 20.

The exhibit, sponsored by the division of fine and applied arts at the College, will include copies of the Nash Motors Division advertisements by Zern which appear in sport magazines, as well as cartoons by Price from "The New Yorker," "The Saturday Evening Post," "Collier's" and other publications.

Both Froth art editors while at the College, Zern is now vice president and copy director of the Geyer Advertising Agency in New York City, and Price is working as a free-lance cartoonist in Riverside, Conn.

Probably the only advertising writer whose by-line appears on his copy, Zern is the author of four books: "To Hell with Fishing," "To Hell with Hunting," "How to Tell Fish from Fishermen," and "How to Catch a Fisherman."

## Gauger Accepts Chile Assignment

Under a State Department program to promote a better understanding of the United States in other countries, Alfred W. Gauger, director of the mineral industries experiment station, has recently undertaken a visiting professorship assignment at the University of Concepcion at Concepcion, Chile.

Dr. Gauger was awarded a supplemental grant under the educational exchange program of the International Information Administration, Department of State, to enable him to accept the invitation of the Chilean university.

The exchange program seeks to promote understanding through the interchange of persons, knowledge, and skills.

# Prexy Will Be Adviser—

(Continued from page two)

rector of information, where he turned out tons of information to farmers about everything from foot-and-mouth disease to the advantages of home cooking, and how to do it.

## Worked Under New Deal

When the New Deal came along in 1933, Milton Eisenhower kept his job and advanced to higher position. Although a Republican, he became one of the key advisers to Secretary of Agriculture Henry A. Wallace.

He found himself in the New Deal company of men like Paul A. Porter, Adlai Stevenson and—it must be recorded—Alger Hiss. Dr. Eisenhower's title was coordinator of land use, but in this capacity he had to ride herd over a number of sprawling new bureaus within the department. When Claude R. Wickard became head of the department in 1940, Dr. Eisenhower, skillful in the ways of administration, was practically running the show.

When war came in 1941, President Roosevelt plucked Dr. Eisenhower out of agriculture to do a variety of jobs. He organized the evacuation of Japanese from California; set up the Office of War Information and went to North Africa to cope with the refugee problem.

## Named to UNESCO

After 19 years as a New Deal bureaucrat, Dr. Eisenhower went back to the campus in 1943 as president of Kansas State. There he ended the no-smoking ban and conducted an undergraduate poll to find out how students liked faculty members.

In 1946 he was "borrowed" for

a spell by the Truman administration to become a member of the United States Commission to UNESCO. In 1948 he was urged to run for the senate for the seat of retiring Senator Arthur Capper. The CIO wanted him to run as a Democrat. He declined to run on either ticket. He declined to run for governor in 1950.

## Refuses to Discuss Politics

In 1950 he became president of Pennsylvania State College.

A broad-faced, stocky person, with much presence but not quite Ike's engulfing personality, Dr. Eisenhower prefers to move in the shadows of politics. He will not discuss political matters with reporters.

Considering his wide experience in civilian governments and Ike's relative inexperience, some wit has suggested that the headlines of January 20 might well read: "Milton's Brother Takes Office."

## CLASSIFIEDS

### FOR SALE

USED A. B. DICK Mimeograph, fine condition, complete with stencils, ink, etc. Make offer. Call 4989, ask for Marshall.

GREEN '51 MG, recently overhauled, extras. Call 2708 after 6 p.m.

3-SPEED Webster-Chicago portable Manual "Fonograph" covered in red leatherette. Hardly used. Call Jerry ext. 290.
