Radio Station --

(Continued from page one) the President's radio committee, said a delay of no more than eight weeks was anticipated for ordering and receiving of equipment for the station. The main pieces of equipment to be purchased are a control board, several studio turntables, and a frequency and amplitude monitor for the transmitter.

The College must apply to the Federal Communications Commission for approval of the station. Mackey estimated time needed for this step at one month. The application would be made while equipment was being ordered, he said.

Mackey said there was a probability that the station would be able to go on the air with daily broadcasting tests by May or June. The station could not expect to enter full-time broadcasting for at least a few semesters, he said. It will take time until the station can broadcast five or six hours a day, he added.

among teachers in other areas."

Committee to Divide Work

Capitol observers believe the subcommittee's report will spur a new effort by Congress to rake Reds out of the teaching profession.

Sen. Taft of Ohio, the Senate majority leader, said last night the GOP Policy Committee in the Senate will work out how congressional committees will divide up the investigative chore. Taft said he favored a search for subversives in colleges, but only where there was evidence of organized Communist groups. He is not in favor of investigating individual teachers, he said.

Teachers Refuse Testimony

The subcommittee reported it received testimony that there were about 1500 Communist school teachers in the United States in the early 1940s, with a very heavy concentration in the New York area.

It said that at its public hearings in New York last September and Oct. 30 teachers invoked their constitutional privilege against self-incrimination when asked about Communist party membership.

Refusal by a teacher to answer under oath whether he is or is not a member of the Communist party, the subcommittee said, "should be grounds for dismissal."

Ed Council to Hear Reports on Housing

Edward Crosley, chairman of the Education council project committee, announced room assignment reports will be heard

at the council meeting at 8:30 tonight in 108 Willard.

The reports will cover assignments for women returning from student teaching and prices charged student teachers to stay in the dormitories on weekends.
