

China Proposes Peace Plan; UN Wants Proof

McCarthy Accused For Trade Plans

TOKYO, Tuesday, March 31 (AP)—Red China's Premier last night proposed that the 35-month-old Korean War be ended by a compromise of the thorny prisoner of war issue. The proposal was made over Peiping radio.

The State Department in Washington and the United Nations Command immediately said, in effect, to put it in writing.

The heart of the broadcast by the Red Premier Chou En-lai was his proposal that a "neutral state" take over all those prisoners not willing to go home and let the countries concerned talk it over with them. But he did not make clear if these prisoners would have the final choice.

Meeting Scheduled

Gen. Mark Clark, United Nations Far Eastern commander, said today Chou's plan would get "immediate and careful consideration" by his headquarters "when and if the proposal outlined in the broadcast is received officially from the Communist armistice delegation at Panmunjom."

At the same time, a meeting of liaison officers was scheduled for 2 p.m. today midnight EST at Panmunjom at the request of UN officers.

No reason was disclosed but it was believed to be for the purpose of delivering a reply by Clark to an earlier Red offer for an exchange of sick and wounded prisoners.

Back from Moscow

Chou's Peiping broadcast last night in part resembled an Indian peace plan and in part a plan previously advanced at Panmunjom by the Allied truce negotiators. The Reds had rejected both those plans.

Chou, only recently returned from Moscow, proposed an "immediate" resumption of the armistice talks.

But Chou made it quite clear the Reds held mental reservations about the key issue—what to do about more than 51,000 Communist prisoners of war who say they don't want to go home.

"We are not selling the statement short," commented a spokesman for Gen. Mark Clark, United Nations commander in the Far East, "but so far it is just a Communist radio broadcast."

The spokesman for Gen. Clark pointed out that as yet no formal written offer had been received as was the case last Saturday when the Reds agreed to Clark's offer to exchange sick and wounded under the Geneva Convention.

Navy Discloses New Sub Missile

WASHINGTON, March 30 (AP)—The Navy disclosed today it now has in operation a submarine carrying a faster-than-sound guided missile capable of blasting inland targets—presumably with the fury of the A-bomb.

This means that all three military services have in production for combat and defense purposes, a family of guided weapons approaching the fantastic.

With movie and still pictures, and carefully worded description, the Navy stripped some of the secrecy from its newest member of the supersonic family and its use from a submarine.

The guided missile—called "Regulus"—looks and apparently operates like a small, pilotless, swept-wing jet fighter plane.

The submarine Tunny has been equipped with a stowing tank and launching rack for the Regulus and has been streamlined for lengthy underwater operations.

Mauled Reds Begin New Sneak Attacks

SEOUL, Tuesday, March 31 (AP)—Badly mauled Chinese Reds switched from powerhouse punches to sneak stabs Monday 30 miles north to Seoul, where US Marines estimate they knocked out a Red regiment, 3000 to 3500 men, in the past five days of furious fighting.

U.S. Sabre jets tangled over Northwest Korea Monday with MIG15 jets in scattered dogfights. Sabre pilots said they downed one MIG, damaged two and possibly damaged three others.

UNITED NATIONS, N.Y., March 30 (AP)—United Nations delegates took an optimistic but "show me" attitude toward Red China's broadcast offer of a compromise on the Korean prisoner of war issue which both sides say is the only obstacle to an armistice.

At the same time the Big Five delegates put off until tomorrow a possible showdown vote on a successor to Secretary General Trygve Lie while the Korean question is bubbling.

Coming so quickly on the heels of a Red Chinese agreement to exchange sick and wounded prisoners, delegates openly speculated that this might mean a break in the long-deadlocked Korean situation.

An American source said these should be taken with an attitude of "healthy skepticism." He said the U.S. views such broadcasts and the peace talk in Moscow as "straws in the wind."

In the early stages of the Korean debate last fall in the UN, Mexico proposed that prisoners unwilling to return home be sent to a neutral state until the question could be settled. Rafael de la Colina, chief Mexican delegate, expressed profound satisfaction that the suggestion made by his government has found "echo" in the minds of the Chinese and North Korean leaders.

British Recall Envoy

MOSCOW, March 30 (AP)—The British government abruptly ordered its ambassador, Sir Alvary Gascoigne, home for consultations today. It was obvious that the hurry-up call was connected with Communist China's offers on an exchange of prisoners of war in Korea and other seemingly conciliatory moves by Russia toward the West.

New Department OK'd

WASHINGTON, March 30 (AP)—The Senate today approved President Eisenhower's plan to create a new Cabinet-rank department of health, education and welfare. The Senate action, by voice vote, completed congressional approval of the President's reorganization plan. The House had already approved it, 291 to 85.

WASHINGTON, March 30 (AP)—Mutual Security Director Harold E. Stassen today angrily accused Sen. McCarthy (R-Wis) of interfering with the nation's foreign policy by negotiating an agreement with Greek ship owners to halt trade with Red China and North Korea.

Far from being abashed, McCarthy retorted that he is going ahead with plans to sign a new agreement—this time with some British ship owners.

In a heated face-to-face debate recorded over a nation-wide television hookup (NBC), Stassen bluntly told McCarthy that his tactics are "undermining" the Eisenhower administration's own efforts to reach international agreements barring the shipment of war potential materials to Iron Curtain countries.

"I wouldn't take your word for it," McCarthy snapped back.

At another point, the Wisconsin senator told Stassen:

"The committee accomplished what you and Secretary of State Dulles did not accomplish. I highly compliment the three young men on our staff who did what the whole State Department under former secretary Acheson was not able to do."

At the State Department, Dulles

declined to comment on McCarthy's statement.

A bitter dispute verging on a constitutional row between the executive and legislative branches of the government broke out as Stassen and McCarthy clashed over the right of a congressional committee to negotiate agreements with foreign nationals.

McCarthy had made it clear in announcing the agreement with Greek owners of 242 ships last Saturday that he acted without consulting the Eisenhower administration.

"I don't want any interference by anyone," he said at the time. Under the Constitution, the President is responsible for the conduct of foreign affairs. It was not clear, however, whether McCarthy's action in by-passing the executive branch infringed on the President's prerogative.

Nelson Named to REA

WASHINGTON, March 30 (AP)—President Eisenhower today nominated Lt. Gov. Archer Nelson of Minnesota to be chief of the Rural Electrification Administration. Nelson would succeed Claude Wickard, a Truman appointee who recently resigned by request of the Eisenhower administration.
