

Three Students Are Disciplined

One student was placed on indefinite suspension and two others given suspended sentences of suspension by the Senate disciplinary committee for disorderly conduct in the borough.

The student placed on suspension, a second semester engineer, will be expelled from the College for at least the rest of the semester. If he should then desire re-admittance to school, he must appear before the disciplinary committee.

A second semester and a fourth semester liberal arts student were given a suspended sentence. At the end of the semester their work and conduct for the rest of the term will be reviewed, and if found satisfactory, the sentence will be dropped. If their records should not meet requirements, the suspension will take effect.

AAU Censures Red Instructors

The Association of American Universities said yesterday that Communists are disqualified for university positions by the very nature of their belief.

The association added, however, that discipline or discharge of a professor is a university responsibility and should not be assumed by political authority.

"Discipline on the basis of irresponsible accusations or suspicion can never be condoned," the AAU said in the statement. "Universities are bound to deprecate special loyalty tests which are applied to their faculties but to which others are not subjected," the report added.
