

# School Council Nominations Set

Nominations of members to seven student councils are now open. Closing dates for nominations will vary with the schools, but general elections of student council members for all schools except the School of Agriculture will be held April 29-30.

Agriculture Student Council members are elected by clubs within the school.

Nominations for Chem-Phys Student Council members, including self-nominations, are now open. The council has openings for four juniors, four sophomores, and two freshmen. A 1.0 All-College average is required.

### Engineering Council

The deadline for Education Student Council nominations, including self-nominations, is 4 p.m. Monday. A 1.3 All-College average is required for nomination.

Engineering Student Council nominations, including self-nominations, may be placed in department offices until noon Saturday. An All-College average of 1.2 is needed.

Nominations, including self-nominations, for the Home Economics Student Council must be made in the main office of the Home Economics Building by Friday. A 1.0 All-College average is required.

### Mineral Industries

Liberal Arts Student Council nominations will be made in the dean's office. No more than two members from one fraternity or sorority may be nominated. Nominees must have a 1.5 All-College average and must not be planning to transfer to the new Business school next year.

Nomination lists for the Mineral Industries Student Council will be posted in Mineral Industries Building until Saturday noon. Nominees must have a 1.0 All-College average and must now be in an even semester. Self-nominations may be made.

Self-nominations for the Physical Education Student Council may be made only if the nominee has a petition signed by 15 physical education majors. Other nominations are made by an elections committee. A 1.0 All-College average is required.

# \$10 Inklings Award Won By Luyben

Helen Luyben, sixth semester journalism major, has been named winner of the \$10 Inklings award for the best short story submitted for publication in the coming issue, John Hoerr, editor, announced yesterday.

Miss Luyben is one of four authors whose short fiction pieces will appear in the campus literary magazine when it goes on sale in two and a half or three weeks, Hoerr said. Other authors are Renee Kluger, David Eskey, and Richard Martz. The date of Inklings' appearance on the stands will be determined by the length of time required for the printing run, Hoerr said.

Inklings will also contain two photographic features made possible by the magazine's switch from offset to letterpress printing. The first will depict the Five O'clock Theater, and the second will be a pictorial series on Dramatics 21 and 421 classes.

The series will follow a play from its presentation to the class by the author, through acting on the stage, to final discussion by the class and Warren S. Smith, associate professor of dramatics.

A feature article by Edward J. Nichols, professor of English composition, will be titled "Could You Be a Jazz Purist?" Inklings will also contain nine poems.

Hoerr said publication costs have been met through the aid of hat societies and the securing of several ads. The last issue of Inklings appeared in March 1952.

# Simes Stresses Counselor Need For Next Year

The need for resident counselors for the 1953-54 year was stressed yesterday by Frank J. Simes, dean of men, when he repeated his announcement that application blanks for graduate counselors are now available in his office, 109 Old Main.

Simes said there has been a surprisingly small response to the call for applicants and said he is particularly anxious to talk to Penn State graduates. He said that completed applications should be turned in at his office by May 1 so that appointments could be made on or about May 15.

The counselors are responsible for the social, academic, and emotional development of the undergraduate residents of their dormitory. For his work the counselor will receive remission of fees for a single room and board in the residence where he works.

To be considered, the applicant must submit proof of acceptance by or acceptability to Graduate School by the department in which he intends to work. During his counseling term he must maintain academic work at a level satisfactory to the department in which he is working.

# Sheep Dogs To Be Shown At International

Carrol Schaffner, College shepherd, will demonstrate his imported Border Collie dogs at the 36th annual Little International Livestock Show Saturday in the Livestock Judging Pavilion.

The sheep dogs, Roy, Nell, and Laddie, are recognized for their ability to obey commands. Roy, rated as the outstanding stud dog in the United States, has been exhibited in western livestock shows.

Laddie was shown in the 1948 Virginia Eastern Stud Ram Sale trials. Nell was a ribbon winning trial dog in Scotland, where Schaffner obtained the dogs. Schaffner demonstrated his dogs at the Fort Worth Stock Show in Texas last summer.

Border Collies originated over 400 years ago and are one of the oldest breeds of dogs registered. Although they are bred chiefly for their working ability, the dogs are used in sheep dog trials popular in Scotland.

# Camp Jobs Available At Student Employment

Students desiring jobs at camps this summer are asked to sign up as soon as possible at the Student Employment office, 112 Old Main. There are 230 camps in 14 states with 1200 jobs still available.

James A. McCrory  
Distinguished alumnus

# McCrory To Receive Alum Award

James A. McCrory, engineering executive of Montreal, Canada, will be given one of the five 1953 Distinguished Alumnus awards at the Honors Day ceremonies set for 7:30 p.m. Monday in Schwab Auditorium.

McCrory, one of three members of the class of 1907 to receive this award, was graduated from the College in three years with a bachelor's degree in mechanical engineering.

He is now chairman of the board of directors of the Shawinigan Engineering Co. in Canada. He served as the company's president from 1947 to 1951 after advancing steadily from the job of office engineer, where he started in 1918.

After graduation from the College, he worked first as a mill draftsman for Crucible Steel in McKees Rocks and then went to the Pittsburgh Filtration Plant. In 1910 he left the country to work in Toronto and later Montreal. After working two years as an assistant engineer for a Canadian power company, he started with his present organization.

The Engineering Institute of Canada awarded McCrory the Julien C. Smith Medal in recognition of his personal role in the development of Canada. McGill University conferred on him an honorary Doctor of Science degree.

# Novotny to Speak

John A. Novotny will speak at the Electrical Engineering Seminar at 4:10 p.m. today in 110 Electrical Engineering.

# Chorus to Perform On Honors Day

The Penn State Women's Chorus, under the direction of Herbert W. Beattie, assistant professor of music, will present a program of classical music at the Honors Day ceremony at 7:30 p.m. Monday in Schwab Auditorium.

The ceremony will honor undergraduates and alumni of the College and include the presentation of awards and the installation of the new All-College President.

An organ prelude will be played by George E. Ceiga, assistant professor of music. The invocation will be given by the Rev. Luther H. Harshbarger, College chaplain.

A 20-page program has been prepared for the ceremonies. It includes the program, a list of the awards to be presented, a list of outstanding awards not presented at the Honors Day program and their recipients, biographical sketches of the five men named to receive the 1953 Distinguished Alumnus awards, and a list of students initiated during 1952-53 by campus honor societies.

The Women's Chorus will sing four numbers from the Renaissance in German, French, and English, five canons by Ernst Bacon, the one act opera "Bastien and Bastienne" by Mozart, and a selection by Benjamin Brittain. The chorus will be accompanied by a string orchestra.

# Seniors May Sign For Caps, Gowns

Today is the first day for graduating seniors in chemistry and physics, home economics, and mineral industries to order caps and gowns at the Athletic Store. The deposit for cap and gown is \$5.

Seniors should know their hat size when ordering. Students who will graduate in military uniform should not sign up for caps and gowns.

Today is the first day for seniors in Chemistry and Physics, Home Economics, and Mineral Industries to order their invitations and announcements at the Student Union desk in Old Main.

P L A Y E R S	The perfect entertainment for the perfect date
	<b>Right You Are</b>
	(if you think so)
	This Friday & Saturday
	Tickets on Sale at Student Union—\$1.00
	8:00 p.m. Center Stage

# Seven Chosen As Finalists In IM Debate

Seven finalists were chosen in the preliminary round of the women's annual intramural debate last night. The final round will be held at 7 tonight in 2 Sparks.

Those chosen were Nancy Levitt, Terese Moslak, Janet Noll, Norma Reck, Marjorie Seymour, Margaret Turner, and Jeanette Williams.

Speaking on the topic, "Can Career be Successfully Combined with Marriage," each contestant was allowed six minutes to present her views. The debate took the form of a round-table discussion, with the participants talking informally for two or three minute periods.

The intramural debate is sponsored each year by Delta Alpha Delta, women's debate honorary, and the women's debate team. Any coed who has never been a member of the debate team was eligible to take part. The sponsors will present the winner an engraved trophy.

Members of Delta Alpha Delta and debaters served as judges for last night's session. Faculty members will assist in judging tonight. The debate will be open.

# Metallurgy Prof to Talk

William J. Rea, associate professor of metallurgy, will speak on "Trends in Steel Making" at a mineral economics seminar at 4 p.m. today in 225 Mineral Industries.
