Draft Exam Applications Due May 11

Maj. Gen. Lewis B. Hershey, director of Selective Service, reminded students yesterday that applications for the May 21 Selective Service College Qualification Test must be submitted to the Educational Testing Service, Princeton, N.J., no later than midnight May 11.

The May 21 test is primarily for students prevented by illness or other emergencies from taking the test April 23, but General Hershey emphasized that this did not bar any qualified student from taking the test if his application is mailed before the deadline.

General Hershey also stressed that students who have a certificate of admission for the April 23 test which they failed to use on the assigned date must submit new applications if they wish to take the May 21 test. The test will be the last SS exam given this school year.

Students may obtain applications from any Selective Service local board, or from the Dean of Men's office, 104 Old Main.

Qualifications for the test require an applicant to be a Selective Service registrant who requests a student deferment; he must be satisfactorily pursuing a full-time college course; and he must not have taken the test previously.

A registrant must write or call his local board to obtain the results of his test, Mrs. Sara E. Case, director of the Selective Service tests at the College, said.
