

Ike Sees Russia Capable to Attack

WASHINGTON, Oct. 8 (AP)—President Eisenhower said today Soviet Russia now has "the capability of atomic attack on us" and commands "a weapon or the forerunner of a weapon of power far in excess of the conventional types."

The President made the statement at his news conference in an effort to clarify seemingly conflicting statements by various officials on the potentialities of Soviet atom bomb and hydrogen bomb developments.

Eden Discloses Western Plans For Peace Try

MARGATE, England, Oct. 8 (AP)—Foreign Secretary Anthony Eden said today the West plans a new approach to Russia for world peace based on guarantees against aggression.

"I think something can be worked out," Eden told a Conservative party conference here. He also offered Russia Big Four talks on any level in the hope of easing the cold war stalemate.

He suggested that Britons keep clearly in mind that Russia's negative attitude rather than American policies have blocked the way to big power talks.

Returning to the direction of British foreign affairs after an illness and enforced absence since April, Eden made this significant reference to the West's diplomatic plans:

"Our policy has not changed. I am glad to restate it here. Our first aim is to maintain the unity and strength of the Western alliance, which have been mainly responsible for any softening there may have been in Soviet intransigence."

Eden's remarks coupled, with a statement along similar lines made recently by U.S. Secretary of State Dulles, might mean the United States and Britain now are studying a formula to be sent to Moscow.

Truman Concerned Over Ike's Policies

ST. LOUIS, Oct. 8 (AP)—Former President Harry S. Truman tonight expressed concern over the Eisenhower administration's policies toward counteracting a depression.

Here to receive the \$1000 annual Sidney Hillman Foundation Public Service Award, Truman said in a speech tonight at a dinner in his honor the "Old Guard of reactionaries" has gained new strength and is striving mightily to overturn many constructive achievements of recent years.

"The greatest danger springs from the attitude of those who reluctantly, and 20 years late, accept the reforms we have made, and then refuse to go forward to meet the new problems we face," Truman said.

Turnpike Killer Hunt Sounded In Two States

CLEVELAND, Oct. 8 (AP)—Cleveland police issued a two-state pickup alarm today for a 25-year-old man wanted for questioning in the recent Pennsylvania Turnpike shootings.

Homicide Capt. David E. Kerr identified the man as John Wesley Wable, who was freed last March from his job in an east side electrical plant here. He said Wable had not been charged, but warned he might be "armed and dangerous."

Two men were killed in the turnpike shootings and a third was wounded. All three shootings occurred last July.

The pickup order to Ohio and Pennsylvania police went out after police had questioned a 22-year-old blonde they said was Wable's girl friend. Kerr said the girl, later released, linked Wable to a gun turned over to police by her stepfather, and to a pocket watch found in a pawn shop.

Ballistics tests will be made to determine whether the revolver found here was the one used in the turnpike attacks. Previous tests indicated the same weapon was used in all three shootings.

U.S. Asks Red's Intentions On Korean Conference

UNITED NATIONS, N.Y., Oct. 8 (AP)—The United States called on Communist China and North Korea today to say quickly whether they intend to take part in a Korean peace conference and when they will be ready.

Today's note informed the Reds officially that the UN Assembly resolution of Aug. 28 limiting the peace conference to the belligerents, plus Russia if invited by the Communists, stands without change despite efforts to overturn it.

Eisenhower also announced that he has asked all members of his administration "to refrain from comment on Soviet nuclear capabilities unless they first check their statements with the chairman of the Atomic Energy Commission."

At the same conference Eisenhower announced the appointment of Assistant Secretary of the Army James P. Mitchell, 52, of Spring Lake, N.J., as secretary of labor, succeeding Martin P. Durkin.

Eisenhower did not predict bigger defense outlays. The administration will try to find ways, he said, of adjusting the nation's defenses to the new kind of threat; therefore, there will not necessarily be an increase in the gross sums requested—there might be shifts in priorities of the programs of which the money is spent.

The President said he was not prepared to say how much his military appropriation request will be up or down when he submits his budget message in January. As for the budget, this administration always will seek the goal of balance in spending and income, he said.

The President emphasized he was not saying there would be a budget balance on July 1, 1955.

Truman Decries Economic Policies of Administration

WASHINGTON, Oct. 8 (AP)—The United States and Great Britain announced today they are turning over their occupied zone of Trieste to Italy—but Yugoslavia angrily declared it will refuse to accept the decision.

Less than an hour after the news reached Belgrade, hundreds of Yugoslavs poured into the streets shouting "We will give up our lives, but not Trieste!"

But even before the Belgrade demonstrations broke out many diplomatic observers here failed to see how the move would help stabilize the tense situation.

FBI Quits Suspects In Greenlease Case

KANSAS CITY, Oct. 8 (AP)—The government tonight turned prosecution of an ex-convict and his girl friend for the kidnap-slaying of little Bobby Greenlease over to the State of Missouri as authorities seriously questioned whether the two had an accomplice.

The FBI, at Washington, said it was withholding a nationwide alert for Thomas Marsh, another ex-convict, because of inconsistency in the couple's statements. Carl Austin Hall, confessed leader of the kidnap plot in which a \$600,000 ransom was paid in vain, has named the 37-year-old Marsh as a co-conspirator and slayer of little Bobby.

Held in St. Louis on \$100,000 bond with Hall, a one-time playboy who ran through a \$200,000 inheritance in 15 months, is Mrs. Bonnie Brown Heady, 41, of St. Joseph, Mo.

The FBI didn't pin-point the "inconsistency" but it put the finger on Mrs. Heady as a principal in collecting the \$600,000 ransom from Bobby's wealthy 71-year-old father, Robert C. Greenlease.

The FBI said it had found the woman's fingerprints on ransom extortion papers, showing that she had handled them.

Even as the Hall's story came under close scrutiny, Atty. Gen. Brownell announced at Washington the couple would be turned over to the state for prosecution.
