

# U.S. Warns ROKs To Curb Hostilities

## UN Will Stop Korean Action To Free Reds

WASHINGTON, Oct. 9 (AP)—The United States has given South Korea a firm warning that any forcible efforts to release anti-Communist war prisoners or attack the Indian troops guarding them will be resisted forcibly by United Nations troops.

This was disclosed officially today with the release of a State Department statement which though couched in the careful language of diplomacy, made clear the United States' position.

India had appealed Wednesday for American aid in curbing South Korea's threatening maneuvers. Officials said the U.S. caution was given to President Syngman Rhee's South Korean government prior to the Indian appeal.

The key fact in the dispute between the Indian units and the bitterly antagonistic South Korean government is that non-Korean troops of the UN Command hold positions between South Korea and the neutral zone. This is the strategic place for putting down trouble if any develops.

The State Department statement was issued by Press Officer Lincoln White even as reports came through from Korea that the UN Command had taken precautions against the possibility of violence directed at the Indians. White said he could not say what these precautions are.

The United States, White said, regrets "the recent differences which have arisen regarding the operation of the Repatriation Commission."

The commission, of which India is chairman, was established in the Korean armistice agreement to supervise the handling of prisoners from both sides who do not wish to return to their homelands.

The vast majority of these are Chinese and North Koreans, and the UN Command has sought to have the commission adopt rules which it said would prevent them from being coerced by officials of Red China and North Korea.

Rules which the commission did finally adopt were attacked by the UN Command as following closely what the Communists had proposed and playing into their hands.

## Adenauer Wins Election Again

BONN, Germany, Oct. 9 (AP)—Dr. Konrad Adenauer was elected Chancellor of West Germany today for another four years. He immediately predicted "a fresh wind" will blow through stagnated European problems.

By an overwhelming 304-148 vote, the Bundestag lower house put the stern, 77-year-old Christian Democrat back in office with the biggest backing any democratic Chancellor has ever received in German history.

## Mitchell Takes Oath As Labor Secretary

WASHINGTON, Oct. 9 (AP)—Big, wide-smiling James P. Mitchell took over the stormy post of Secretary of Labor today with mixed blessings and blasts from labor union leaders.

President Eisenhower looked on as Mitchell, 50, former assistant Secretary of the Army, was sworn in at a brief White House ceremony.

# Tropical Rains Rip Florida Peninsula

MIAMI, Fla., Oct. 9 (AP)—A tropical storm crossed Florida from the Gulf of Mexico to the Atlantic Ocean with a mile-a-minute winds and driving rain today, flooding highways and farmlands.

By dusk the disturbance had moved out over the Atlantic very near the city of Vero Beach. It was expected to gain strength over open water and perhaps reach hurricane force of 75 miles an hour.

All warnings were lowered along the Florida Gulf Coast and south of Vero Beach. Storm warnings continued to fly north of Vero Beach to Fernandina.

Only slight damage to buildings resulted but heavy rains brought a threat of critical floods in sections already waterlogged by excessive water. The rain fell in a band north and east of the center, at times far in advance of it, and tapered off quickly as the center passed.

The sun peeped out as the rainfall diminished. Spotty losses to citrus were observed. Bennett DeLoach, Associated Press reporter, said he saw heavy falls of fruit in some sections, light to spotty falls in others depending on whether groves were protected by windbreaks or bypassed by gale winds.

"All in all, losses appeared light," said DeLoach after a tour of the area. He said rain was falling very heavily.

The storm moved into the state between Fort Myers and Punta Gorda on the Gulf coast where winds were estimated at 65 miles per hour with gusts somewhat higher.

Daytona Beach, on the Atlantic Coast, was flooded with nine inches of rain and nearby Ormond Beach was hard-hit, with water over the floors in at least 50 homes. Drainage canals in that area overflowed.

## Kidnap Killers Face Possible Death Penalty

KANSAS CITY, Oct. 9 (AP)—Little Bobby Greenlease was buried today in a silver-plated casket while authorities made the first moves to bring his confessed kidnapers here to meet a possible death penalty.

Bonnie Brown Heady, 41, the alcoholic divorcee who took the six-year-old boy from his private school to his death, and her boy friend, Carl Austin Hall, 34, who engineered the kidnaping, made their first appearance in court in St. Louis.

They waived a hearing on a federal charge of extorting \$600,000 from Bobby's wealthy father, Robert C. Greenlease.

But this was a relatively minor charge against the drunken pair arrested last Wednesday in St. Louis with \$300,000 of the kidnap money, and was filed as a means of holding them while authorities prepared their case.

Hall and Mrs. Heady, whose flower garden yielded the lime-covered body of the little boy, both face state kidnap charges here and murder charges in St. Joseph.

## Faculty Will Hear Address by Prexy

President Milton S. Eisenhower will address members of the faculty at 4 p.m. Monday in Schwab Auditorium.

His annual talk on the state of the College is expected to explain new policies that will affect faculty members during the 1953-54 school year.

## West Dorm Council To Meet Monday

West Dorm Council will meet at 8 p.m. Monday in 102 Willard, Ross Clark, president, has announced. Presidents and those vice presidents of living units housing more than 105 men are asked to be present.

## Chrysler Building Changes Hands

NEW YORK, Oct. 9 (AP)—The world's second tallest skyscraper, the graceful 77-story Chrysler Building, changed hands with two smaller buildings today in a \$52 million deal.

It was an even bigger transaction than the \$51.5 million sale two years ago of the 102-story Empire State Building, world's tallest.

Three-fourths ownership passed to William Zeckendorf's Webb & Knapp, Inc., one of the nation's great realty firms. The Wall Street investment banking firm of Lazard Freres & Co. joined in the purchase to the extent of a 25 per cent interest.

## In Red Shakedown . . .

# Britain Ousts 6 Members Of British Guiana Cabinet

GEORGETOWN, British Guiana, Oct. 9 (AP)—Britain ousted the Prime Minister and five leftist associates from the Cabinet of this crown colony today, charging they served Moscow instead of Queen Elizabeth II.

"The faction in power have shown they are prepared to go to any length, including violence, to turn British Guiana into a Communist state," said the order issued by Colonial Office in London and broadcast here.

The ousted Cabinet ministers have been in office six months. They were accused of supporting Communist fronts, fomenting strikes, threatening the public welfare—even of seeking to undermine Boy Scout troops.

The British government has had the ax poised for at least a week. It was withheld until troops could land yesterday.

The 500 or more troops reported no disturbances. Although a state of emergency was declared, a cricket match against Trinidad

# Yugoslavia Protests U.S., British Plan To Transfer Trieste

BELGRADE, Yugoslavia, Oct. 9 (AP)—Yugoslavia demanded tonight that the United States and Britain give up their plan to turn over to Italy the administration of the Allied zone of Trieste.

A formal note to the U.S. and British governments protested that their decision—involving withdrawal of their occupation troops from Zone A of the 320-square-mile free territory, including the port of Trieste—would give "Italian expansionism . . . a bridge-head on the Yugoslav shore of the Adriatic."

"The Yugoslav government demands that the decision should not be carried out," the note said bluntly. President Marshal Tito's regime reserved the right to "use appropriate means—on the basis of the United Nations charter—to protect the interests of Yugoslavia in the Trieste area."

## Border Sa'd Closed

It did not specify what those steps might be, but declared that the transfer would mean violation of the Italian Peace Treaty of 1947 and would be "an unjust and dangerous act."

A dispatch from the port of Trieste said the Yugoslavs had closed the border between Zone A and Yugoslav-occupied Zone B and Tito's troops were reported moving toward the border. A party of four Italians who returned by bus from the port of Capodistria said troops and tanks were heading up from the southern part of the zone. At one point, they said, they counted 40 tanks.

## U.S. Accused

In Rome, Italian Premier Giuseppe Pella told his Parliament Friday night he was happy over the decision giving Italy administration over Zone A but would press Italian claims to the whole territory. Pella obviously had majority support of the legislators.

Yugoslavia's ambassador to Washington, Vladimir Popovic, accused the United States of breaking a promise to consult with the Tito government before making any move to dispose of Trieste.

British Ambassador Sir Ivo Maliet and U.S. Charge d'Affaires Woodruff Wallner were summoned to the Yugoslav Foreign Office to receive the note.

# Police Hunt Two States For Killer

CLEVELAND, Oct. 9 (AP)—A two-state manhunt for John Wesley Wable was intensified today after police said ballistics tests show a gun linked with Wable fired the bullet that wounded a trucker near Lisbon, Ohio, last July.

Homicide Capt. David E. Kerr said markings on a bullet from the Lisbon shooting match the German-made pistol connected with Wable.

Kerr declined to say definitely the same gun was used in the murder of two other truck drivers along the Pennsylvania Turnpike.

Although previous tests indicated one gun was used in all three shootings, Kerr said he wants to see a report of further tests in Pennsylvania.

But in Harrisburg, Col. C. M. Wilhelm, Pennsylvania state police commissioner, said one gun was used in all three shootings.

The gun, a 7.65 millimeter revolver, is being taken to Harrisburg for comparison with bullets which killed the two truckers.

Wable, 25, dark and thin-faced and described as having a shrill voice, disappeared from a rooming house here Monday and is sought on a warrant for "investigation of murder." Police said he probably is "armed and dangerous." He worked as a plant guard until last March.

## Faculty Luncheon Club To Discuss Encampment

"The Mont Alto Student Encampment Idea" will be discussed at the meeting of the Faculty Luncheon Club at noon, Monday at State College Hotel.

Wilmer E. Kenworthy, director of Student Affairs, and Edgar Fehnel, seventh semester animal husbandry student, will be the speakers for the meeting.

## Frehug Sentenced

QUEBEC, Oct. 9 (AP)—Pvt. Robert LaLancette, 22, who told a court martial that he set a series of fires in army barracks in order to get a discharge, was sentenced today to two years in the penitentiary.
