

Cattle-Judging Coed Reorganization- Earns High Score

By AL MUNN

If the majority of coeds on campus were asked the difference between a Brown Swiss and a Guernsey they would probably point to the Infirmary and shake their heads over the present state of affairs. But not Marion Cullen.

Marion, a seventh semester animal husbandry major, is not only the only girl on Penn State's livestock judging team but was high-scorer this year at the Eastern States Livestock Exposition in Springfield, Mass.

"I was just numb," said Marion, when asked her reaction to the news.

"To be perfectly honest," she added, "I think everyone else was too. We were all lucky."

Only seniors in animal husbandry are eligible for the judging team. During their junior year, students take two preparatory courses, and during the first week of fall semester team members are chosen.

Classes of animals are set up on Ag Hill or, if the right types of animals are present, on farms in the area for the team to practice judge. Occasionally the group visits near-by schools to judge their animals.

Marion hails from Georgetown and claims she never had any experience in judging before coming to the College. (It proves that girls can learn more from higher education than believed in popular songs.) She plans to do graduate study in animal husbandry next year and hopes to make research work her career.

Law Honorary Starts School Catalogue File

A file system of catalogues from approximately 45 major law schools in the country has been begun by Pi Lambda Sigma, pre-legal honorary fraternity.

The file, to be renewed each year, will be kept in the Political Science department for student use.

Other projects decided upon by the group for this year are monthly luncheon meetings and the showing of law films early in November.

CLASSIFIEDS

FOR SALE

1949 FORD Custom V-8 R&H, seat covers, good tires. Must sell—make offer. Call 4712 after 5:00.

SUEDE JACKET, grey. Like new. \$10. Call Dan, 6340 after 7 p.m.

46 MERCURY radio and heater. \$325. Call ext. 172 after 3:00, ask for Ken.

1941 PLYMOUTH with heater. Call 4923 from 6:30 to 7:00. Ask for Andy.

PRE-WAR LUGER automatic with two clips and holster. Very good condition. Call match target Woodsman. Perfect condition. Many others. Call 7958 after 5 p.m.

COLUMBIA AUTOMATIC LP attachment. \$8. Weaver G-6 rifle scope with mount. \$7. Call 3498 after 5 p.m.

LIGHT GRAY Flannel Suit—single breasted, 100% wool, size 38-39 short, used one day. Will sell for less than 1/2 price, \$30.00. Will finance. See Joe, 2nd floor, 222 W. Beaver, from 6 to 7 p.m.

1949 FORD Custom V-8 — \$850. R&H, seat covers, good tires. Must sell to meet expenses. Joe Racik 4712.

LOST

WILL THE senior boy who found Nancy Ritter's AA Book call ext. 1085 immediately!

PLEASE RETURN straw hat taken from decorations at Dungee Drag to Annie in 249 Atherton.

K&E SLIDE RULE in Room 207 EE Monday morning. Gavenas written on side of slider. Reward. Return to Student Union.

REDDISH BLONDE female cocker spaniel, 2 years old, wearing black collar, Sat. afternoon near Mineral Science. Answers to "Taffy." Not friendly to men. May be limping. Reward. Phone ext. 2244 or after 5 p.m. phone 4003.

GRAY TOPCOAT Thurs. night in TUB. White comb in pocket. I have yours. Phone 4612.

BROWN WALLET Monday between theater and McElwain. Finder keep money, but return wallet. Call 3246, Bob Skelly.

FOUND

EDUCATION BOOK by Myers-Williams in Electrical Engineering building. Call ext. 2238.

FOR RENT

TO VISITING parents—large room with private lavatory in new home. Phone 4467.

ROOM FOR Rent. Call 4255, ask for Bob in Rm. 4.

WORK WANTED

WHEN YOUR typewriter needs attention just dial 2492 or bring machine to 633 W. College Avenue.

RIDES AND PASSENGERS WANTED

RIDE TO Philadelphia Friday afternoon, return Sunday. Call Chiz after 8 p.m. 5332.

FOR TWO to Washington, D.C., Oct. 30 after 4 Friday. Call Mike McLaughlin ext. 1192.

'Career Day' Will Be Held By Biz School

A "Career Day" is being planned for Oct. 29 by the student council and student organizations of the School of Business.

Twelve state and national business leaders will participate in six panel discussions covering management, marketing, accounting, finance and insurance, international economics and labor management.

Dr. Philip Young, chairman of the U.S. Civil Service Commission, Washington, D.C., will discuss "Career Opportunities in the Civil Service," at the evening meeting.

The purpose of the conference is to explore opportunities in the business fields and to learn from leaders of American industry the requirements for successful business and public service.

Biz Council Backs 'Career Day' Plan

Business School Student Council last night voted to advance \$20 to support "Career Day," being planned for Oct. 29 by the council and student organizations of the school.

The council decided to hold a student mixer the first week in December. A committee has been appointed, but chairmen have not been named by Philip Greenberg, council president.

A proposal for a student newsletter for the Business School was tabled by the council.

2 Groups to Hold Korea Week Drive

Chi Omega sorority and Phi Kappa Psi fraternity will sponsor a "State College in Korea Week" next week to collect bedding and old clothing for needy Koreans.

Door to door soliciting in State College will be done Oct. 21. Students and collection trucks will cover the town area for donations. The clothing and bedding will be sent to the American Relief for Korea group in New York City and then to Korea.

A wooden plaque will be presented to the organization collecting the most material in the drive.

Chess Club Meeting

The Chess Club will meet at 7 tonight in 3 Sparks. Students who wish to try out for the team may attend.

Anderson to Give Management Talk

(Continued from page one)

the council, which would be responsible to the president of AIM and in an advisory capacity.

Two parliamentarians, one a junior and one a senior, will be suggested, as well as two advisers. James Dean, assistant dean of men in charge of independent affairs, and Ross Lehman, assistant executive secretary of the Alumni Association, are the present advisers.

To Go to Dean

The AIM Judicial Board of Review would still function as an independent committee of AIM. The board's duties are expected to remain about the same. The board is concerned with disciplinary matters in the dormitories.

The reorganization proposal will be presented to the Office of the Dean of Men for final approval

Anderson to Give Management Talk

Clifton A. Anderson, professor of industrial engineering, will speak to the Society for Advancement of Management at 7 tonight at Triangle fraternity. The subject will be "Management Training in Italian Industry."

Professor Anderson, who returned Aug. 19 from an eight-month tour of France and Switzerland, taught methods analysis and time study for 22 weeks to Italian graduate students in Turin, Italy.

al sometime following the meeting next week, Somers said.

At present there is too wide a gap between the executives of AIM and the 6300 independent men, he explained. It is hoped that this proposed reorganization will make the group more cohesive and more representative of independent opinion, he said.

Free Prizes At Wimmer's Sunoco Station

Wimmer's Sunoco Station, East College Avenue, gives away five gallons of Highest Blue Sunoco gasoline each day to the Penn Stater with the lucky license number.

All you have to do to get in on these free drawings is to register your license number with Jack Wimmer . . . there's nothing to buy, no strings attached.

Don't wait another minute . . . register today at Wimmer's.

AVIATION ENGINEERING

Today More Than Ever . . . offers a Sound, Well-Paid FUTURE with a Leader Like CURTISS-WRIGHT

Today's graduate engineer seeking a secure, well paid career will do well to look to the aviation industry, provided he joins a leader with permanent roots in the field.

Such a company is CURTISS-WRIGHT, and here is why it will continue to provide exceptional engineering career opportunities of many kinds.

- Aviation is a precision industry in which new developments are rapid and continuous. Curtiss-Wright, always in the forefront of these advancements, is a center of research programs that go beyond aviation itself and thus create new products and processes affecting many other industries as well. The company's leadership in military aviation power is assured by long range research and development plans. Commercial production is growing, in both aviation and developments in other industries.

- To meet aviation's need for ever-better materials and techniques, Curtiss-Wright explores many fields—hydraulics, mechanics, electronics, plastics and metallurgy . . . new alloys and casting methods. Out of this research come not only improved propellers and powerplants, but many products with applications in general industry.

- So great an asset is this pool of engineering experience that it has become a bulwark to the national defenses and economy.

- For these reasons, including the wide range of projects at Curtiss-Wright, the company offers stability and solid career jobs for qualified engineers. One may choose his favorite field or specialty and look for increasing advancements and rewards as fast as he can, assume responsibility.

WRIGHT AERONAUTICAL DIVISION, at Wood-Ridge, N. J., leads in the development and production of reciprocating and jet engines, and development of turboprops and ramjets.

PROPELLER DIVISION, at Caldwell, N. J., is engaged in many projects other than the name implies. In addition to propeller research and production, it embraces machine design, stress analysis, aerodynamics, hydraulics, metallurgy, electronics, servo-mechanisms, instrumentation and controls.

Jobs are waiting for engineers in these fields:

AERONAUTICAL • MECHANICAL
METALLURGICAL

If you want permanence, progress and good pay that grows better, living near your work in a desirable home area, contact your placement office for additional information and arrange for an interview with our representatives when they visit the campus.
