Coed Voting: An Eye to the Future

Is it too much to ask of college women that they spend a minute and a half, four times a year, to safeguard their representative government?

Or more accurately, is it too much to expect the women will feel a certain degree of interest and responsibility toward the two campus organizations whose decisions most directly affect them?

Approximately 61 per cent of freshman women voted in final elections last week for two senators to Women's Student Government Association.

The Women's Recreation Association polled about 57 per cent of freshman and sophomore women's votes in elections for three WRA representatives.

Surprisingly, primary election returns were better with 82 per cent of freshman turning out Oct. 13 to nominate four women to run for WSGA.

Why was there a letdown last week and why wasn't there a 100 per cent vote on both occasions?

The polls were open in women's dormitories from 10 a.m. to 1 p.m. and 5 p.m. to 7 p.m. both days. Surely a coed has enough free time during those hours to cast her vote.

Women living in Grange Dormitory, Woman's Building and the cottages were asked to vote in McAllister Hall. During each election day those coeds ate two meals in McAllister Hall, giving them ample opportunity to vote.

Seventeen of the 72 freshman women in Atherton Hall voted in final WSGA elections, 268 of 408 in Thompson, and 170 of 313 women in McAllister, the cottages, Woman's Building, and town.

In final elections for two freshman representatives to WRA, 37 per cent of the freshman women in Atherton Hall voted, 56 per cent in Thompson and 57 per cent in McAllister.

Sophomores set no example for the frosh. Of 22 sophomore women in Thompson serving as counselors or checkers for freshmen, only 14 felt it their duty and privilege to vote. In Atherton, the sophomore stronghold,

202 of 431 voted. In Simmons, 22 of 140 sophomore women voted. Fourteen of 61 sophomores in McElwain cast ballots. This voting record is a disgrace. Posters displaying pictures of candidates were placed on dormitory bulletin boards 24 hours before the openings of the polls. Candidates were introduced to voters at dormitory unit meetings. The election board of WSGA and WRA did their work. The freshman and sophomore women failed.

If college living is regarded as preparation for future intelligent citizenship, is it to be assumed the coed will exercise as little interest in her federal and local government later as she is showing now?

Perhaps greater interest will be drawn by the open meeting to be held by Senate of WSGA at 6:30 p.m. Nov. 4 in Simmons Hall. Freshman women will find a second opportunity to display some concern for their own welfare, and a chance to view the mechanics of women's government.

Androcles: Service

The showing of football movies in Schwab Auditorium under the auspices of Androcles, junior men's hat society, is one example of the service that can be extended to the students by a hat society.

All too often, hat society members are thought of by students, freshmen in particular, as spokes aspiring to become little wheels. The job of enforcing customs has done little to dispel this theory.

With recognition of at least one of the services that can be performed for the students, Androcles has shown hat societies may be worth more than the rather questionable honor of being the target—at football games—for fruits and vegetables in varying states of decay.

All the Eggs...

Campus Chest solicitation time is here again. And again the battle to save students the inconvenience of numerous individual drives will be begun.

In the past campus solicitation drives have been faced with a long drawn-out battle to get funds from students. The idea for a Campus Chest campaign that would combine several drives into one sprang originally from students tired of being subjected to a series of individual drives.

Under the Chest idea, many worthy groups that might be ignored by the students can be included.

Unless the students show by their interest that the idea of putting as many collection eggs into one basket is desirable, then a barrage of individual campaigns will undoubtedly descend on the unwilling student body.

On Autumn Ball

Saturday night, the Association of Independent Men and Leonides will stage the second Autumn Ball. The dance last year was at first greeted with pessimism since it was the first time independents tried a project of such major proportions. Many felt Homecoming weekend, largely a fraternity affair, would possibly present too much competition.

This year, with proper support of independents, there is no reason why the dance cannot be at least as successful as last year. Certainly with the support independents should give their own project, it should be more successful than last year's affair.

Independents have long sought the measure of prestige that should be theirs. Prestige is a rather nebulous commodity that can be gained only after the successful completion of major projects. With support of the independents, the ball cannot help but place both independent groups in a more favorable light than has so far been obtained.

Directory Sale Starts Oct. 31

The 1953-1954 Student Directory will go on sale Oct. 31 in the basement of Willard Hall.

The directory may be purchased for 50 cents this year due to higher printing costs and the 1 cent state tax.

Instead of the usual plain cover, the directory will have a picture of the Lion Shrine from a view never previously seen or used. The directory contains the name, College address, home address, semester, curriculum and telephone number of students.

According to the Public Information office the Faculty Directory has been delayed, but the tentative date for it to go on sale will be Oct. 30.

Four-fifths of British Guiana is forest.

Doors Painted On 3 Buildings

The doors on Sparks Building, Carnegie Hall and Schwab Auditorium have received a coat of steel gray paint as part of the general maintenance project of the College Physical Plant.

The doors on Recreation Hall are scheduled to be painted this semester.

It is the first time in the last five years that the doors have been painted.

The exterior of Home Economics Building and two Horticulture greenhouses are being painted. Main Engineering Building is scheduled to be painted this week.

Pi Lambda Sigma

Pi Lambda Sigma will hold its monthly luncheon on Tuesday at the Allencrest.
