

Recreation Majors Get Varied Careers

By BILL PETE

How often do you hear of the Recreation department — that is, like you hear of other subjects such as journalism, German or agriculture?

Not very often, even though the Recreation department is the backbone of a large number of social activities on campus.

27 Greeters Will Attend Hotel Meeting

Twenty-seven members of the Penn State Hotel Greeters Club will attend the 38th annual National Hotel Exposition Monday through Friday at King's Bridge Armory, New York City.

The College delegation will be one of several college groups to sponsor an exhibit at the show. The display will feature slides on the Home Economics school, the Hotel Administration department and general campus scenes.

Brochures on the College will be distributed and Greeters will be on hand to answer questions concerning the College. Thomas List, seventh semester hotel administration major, will be in charge of the exhibit.

Half the delegates will leave for New York tomorrow and return Wednesday night. Others will leave Wednesday morning and return Saturday. Richard M. Bower, professor of hotel administration and adviser of Greeters, will accompany the group.

MS Annex --

(Continued from page three) temperatures and pressures will be located in the wing. The laboratories will be used in the research program of faculty members and graduate students.

Installation of a complete lapidary laboratory will make possible the revival of a gemstone course that had to be dropped from the curriculum several years ago for lack of space. The laboratory will be utilized largely for undergraduate instruction in cutting and polishing of gems.

In the course, Gems and Gem Material, undergraduate students will be taught the characteristics and qualities of gems as well as being given instruction in cutting, polishing and identification of the gems. The course will be taught starting next fall.

The lapidary laboratory will also be used in the preparation of gems that are shown year-around in the mineral and gem display collections in both the Mineral Industries and Mineral Science buildings.

The remainder of the wing will be occupied by laboratories which will include research in geophysics, geochemistry, metallurgy, petroleum and natural gas engineering, mineralogy and sedimentary petrology.

8 Profs Attend Physics Conclave

Eight members from the X-Ray Crystal Analysis Laboratory of the Department of Physics recently attended the 11th annual Pittsburgh Diffraction Conference at the Mellon Institute.

They are Dr. Raymond Pepinsky, Dr. Vladimir Vand, Dr. R. V. G. Sundara Rao, Dr. B. C. Frazer, Dr. Arrigo Addamiano, P. Frank Eiland, Robert C. Newnham, and Rafael Vera-Meje.

Six papers were presented at the meeting by members of the laboratory staff.

Criminology Talk

Edmund A. Burbank, executive secretary of the Pennsylvania Prison Society, will discuss prison administration, delinquency and criminology at 4 p.m. Thursday in 312 Sparks. The talk, sponsored by the Social Science Research Center, is open to the public.

Chem-Phys Dean's List Honors 61

Sixty-one students in the School of Chemistry and Physics were cited for scholarship during the spring semester. George H. Haller, dean of the school, has announced. An average of 2.5 or higher is required for the list.

Seniors named to the list are Harvey Bolan, 2.71; Margaret Bratt, 3; Charles Doubs, 2.56; John Goettel, 2.5; Thomas Gorrill, 2.82; Edward Kamykoski, 2.5; Richard G. Lee, 2.63; Frederick Litwin, 2.85; Charles Manwiller, 2.66; Joseph Matunis, 2.82; Edward Meros, 2.62; Otilie Milliken, 2.5; Robert Motley, 2.82; Rocco Narcisi, 2.75; Dorothy Pfahler, 2.52; James Salmon, 2.66; Ronald Sauer, 3; Jack Shearer, 3; and David Swanson, 2.8.

Juniors on the list are Robert Euwema, 3; Lawrence Gregor, 2.63; Sheldon Penman, 2.6; Cecilia Poor, 2.5; Charles Rockman, 3; Anne Roess, 2.81; Charles Rohrbeck, 3; Gilbert Seigworth, 2.76; Richard Sloan, 2.7; and Charles Wingert, 2.5.

Sophomores are Edward Baranski, 2.51; Joseph Besecker, 2.51; Carter Brooks, 2.85; Sidney Goldblatt, 2.61; David Hutchinson, 2.62; Malcolm Katze, 2.79; William Luyben, 3; Carl McGrew, 3; William Matthews, 2.53; David Meckler, 2.69; Jane Metz, 2.66; Samuel Newman, 3; Jack Rosemary, 2.61; and John Waldron, 2.82.

Freshman named are David Baumann, 2.65; Allan Bergman, 2.76; John Caretti, 2.58; William Childs, 2.94; George F. Dunn, 2.92; Joseph Fisher, 2.57; Joseph Harmon, 2.56; William Lennarz, 2.58; John M. McCabe, 2.71; Mary McElhaney, 2.82; George Mauler, 2.72; Albert Moore, 3; Robert Neiman, 2.72; Thomas Robbins, 3; David Rockmore, 2.84; William Schwarz, 2.64; Carol Shaw, 2.52; Paul Streng, 2.85; and Calvert Wright, 2.84.

CLASSIFIEDS

FOR SALE

1953 MG, low mileage, never raced nor wrecked, perfect condition, priced reasonably. Call ext. 264 ask for Bob, rm. 26.

'41 OLDS sedan in good mechanical condition with heater and radio. Price is reasonable. Call 8-6693.

'50 FORD Convertible. Radio, heater, overdrive and extras. Can finance. Call State College 2683 or College ext. 2451.

PAIR BROWN new loafers with heraldic decorations. Size 7 1/2-B. Call Gail, ext. 1087.

PEACOCK BLUE leather jacket, never been worn. Size 12. Very reasonable. Call Sandra 551 McElwain.

1941 STUDEBAKER President 4-door, radio, heater, spotlight. Excellent running condition. \$135. Phone 8-6000 or see at 127 Keller Street.

1948 BUICK Roadmaster convertible. Fine condition, \$745. See at Bathurst's Gulf Station, College Ave. and Atherton Street.

FOR RENT

SELECT DOUBLE room with running water, central, quiet. Call 4850 or 7792. Ask for C. R.

LOST

BROWN ZIPPER Wallet, in Schwab Tuesday night at Players. Call Ruth 355 Atherton.

TWO PAGES inked notes about George Moore. Call 8-3764 evenings.

WORK WANTED

GOWNS ALTERED and restyled. Buttonholes made. Call 4823 for appointment.

WHEN YOUR typewriter needs attention just dial 2492 or bring machine to 683 W. College Avenue.

RIDE WANTED

RIDE TO Bedford, Stoystown or vicinity Nov. 13. Call ext. 451 8 a.m. to 5 p.m. Ask for Jean.

'Ole Man Winter' Arrives in Time For Junior Prom

It has been cold recently, but it's all very normal.

That's the report given yesterday by Charles Weintraub, research assistant in the Department of Meteorology. Outlook for the weekend, Weintraub reported, is for cloudiness and continued cold.

This is "real November weather," Weintraub said. Yesterday afternoon the temperature dropped to 28 degrees. That's about the average minimum temperature for November. All time low for November was in 1929 when the mercury slid down to 1 degree above zero. In 1938, temperatures hit a high of 76 degrees.

There was a trace of snowfall between 4:30 and 5 a.m. Thursday morning. A heavier snowfall hit State College about 4:30 p.m. yesterday with several inches of snow. November snowfall average is 2.2 inches. In 1892, though, 11.7 inches were recorded.

Weintraub declined to make a long-range prediction for the winter. The Meteorology department, he said, is kept busy enough tagging the weather for a 24-hour period. The department is quite willing to leave season-long predicting to the authorities—almanacs and caterpillars.

In Paisley, Scotland, cloth is being produced from peanut shell fibers.

LA Series To Present Yale Prof

The second in the Liberal Arts lecture series will be delivered at 8 p.m. Tuesday in 121 Sparks by Dr. Henri Peyre, Sterling professor of French and chairman of the Department of French at Yale University.

Dr. Peyre will discuss "The Present Temper in France Interpreted Through French Literature."

A native of Paris, the professor received his early education at the Lycee Louis le Grand. He completed his college study at the Ecole Normale Supérieure and later at the Sorbonne. Peyre taught in France and England, and was an associate in French at Bryn Mawr College from 1925 to 1928.

In 1928 Dr. Peyre joined the faculty at Yale as assistant professor of French and in 1930 received a Guggenheim Fellowship to make a study of Louis Menard, 19th century French author. He received his Litt. D. in 1931 at the University of Paris.

Dr. Peyre left the Yale faculty in 1933 to serve as professor of French literature at the Egyptian University in Cairo and in 1936 was appointed to the faculty of the University of Lyons. He was named a visiting professor at the University of Buenos Aires the following year and returned to Yale in 1938.

"Men and Works of the 20th Century," Dr. Peyre's comprehensive survey published in France in 1938, has become a standard reference book for French departments.

State Council--

(Continued from page one) university in terms of size, organization and function. Nominal recognition of that fact would properly identify the institution to its advantage.

They explained that, by definition, a college is an undergraduate institution doing little or no research, while a university offers both undergraduate and graduate instruction and maintains a well-developed research program.

Penn State, the releases explained, qualifies for university status on both counts: it now stands third in Pennsylvania (19th in the nation) in the number of master's degrees awarded and second in the state (30th in the nation) in the number of doctorates awarded.

"2. The change in name would permit more effective administrative organization of the institution."

They point out how greater flexibility would result because with Penn State a university, the existing schools will be renamed colleges, with the major divisions therein becoming schools suitably subdivided into departments.

"3. The change in name would indirectly help to raise the quality of the instructional and research staff."

Many times, the releases declare, top-flight staff people and students, particularly on the graduate level, have hesitated to come to the College because of the prestige implications of the name.
