FOR A BETTER PENN STATE

VOL. 54, No. 48

STATE COLLEGE, PA., SATURDAY MORNING, NOVEMBER 21, 1953

FIVE CENTS

Gridders Are Underdogs at Pitt

Ticket Sale For Mil Ball Is Sellout

Ticket sales for the Military Ball Dec. 11 reached the 1000-mark for a complete sellout at 10 a.m. yesterday, Douglas Kosan, chairman, has announced.

Tickets were distributed among advanced ROTC students, members of military societies, and basic ROTC students in proportion to their number in each department.

Finalists for the Military Ball queen title will be chosen by military officials at Virginia Military Institute at Lexington, Va. They will be escorted to the dance by cadets or midshipmen.

Heads of the three campus military units Col. Lucien E. Bolduc, Army; Captain Rowland H. Groff, Navy; and Lt. Col. Jack W. Dietlerle, Air Force—will select the queen.

Finalists will be escorted to the bandstand through a military honor line formed by members of Pershing Rifle and Scabbard and Blade, military honor societies. The coronation will be held prior to intermission with George Black acting as master of ceremonies.

The queen will be presented an engraved crown. The finalists will receive roses and engraved loving cups.

Military Ball will have big weekend status this year for the first time, with upperclasswomen receiving two o'clock permissions Dec. 11 and one o'clocks Dec. 12. Freshman women will get one o'clocks Dec. 11 and 12 o'clocks Dec. 12.

Parents Given Custody of 2 Dorm Prowlers

Two borough youths, caught after they had entered White and McElwain Halls Thursday night have been turned over to their parents for disciplinary action, Capt. Philip A. Mark of the Campus Patrol, reported yesterday.

One of the boys was caught by campus patrolmen, but the other, chased by coeds from McElwain, was able to escape until yesterday when he was questioned by Campus Patrol officers. Captain Mark said he was the one who had entered both buildings. The youth confessed, Mark said, after he had been told he could be identified by the coed.

The father of the boy caught in the dormitory told Mark yesterday he was surprised his son had been involved. Mark reported the father said he did not even know the boy was interested in girls.

According to Miss Elizabeth B. Laird, head hostess in McElwain, the boy had been seen prowling through the dormitory before. Last night he entered a coed's room and told her he had a knife before she routed him from her room and set him to flight. However, the boy did not threaten her, she said.

The other boy, standing outside the building, was caught by campus patrolmen. He did not enter either building, Mark said. The boy refused to identify his companion, but Mark said he had little trouble locating the prowler.

LA LaVie Photos

Liberal Arts seniors whose last names begin with N through Z may have LaVie pictures taken at the Penn State Photo Shop today through Tuesday.

PENN STATE'S versatile backs, quarterback Tony Rados, left, and left halfback Lenny Moore, right, who will endeavor to keep Pitt's defense busy. Rados, who is the East's No. 1 passer, will flood the air with his "radar" pitches, and Moore, who is State's leading ground gainer, will consume the yardage of the ground with his open-field running.

Chaplain to Give 2d Credo Talk

The Rev. Luther H. Harshbarger, University chaplain, will present the second in a series of sermons on essential beliefs at Chapel services when he speaks on "Credo ut Intelligam" at 11 a.m. tomorrow in Schwab Auditorium.

As executive secretary of the Penn State Christian Association, Harshbarger has been active in YMCA and YWCA work. For the past two summers he has directed European seminars to Great Britain, Holland, Germany, Switzerland, Yugoslavia, and Italy under the sponsorship of the National Student Council of the organization.

During World War II Harshbarger worked with the YMCA service to enemy prisoners of war for five years. He served as pastor of the Salem Community Church, Wichita, Kan.; the Lordship Community Church, Stratford, Conn.; and Church of the Brethren, Ambler, Conn., before coming to Penn State.

Harshbarger holds degrees from McPherson College and Yale University Divinity School. He has done graduate work in theology at Yale and Temple University.

A member of the National Program Commission of the National Student Council of the YMCA, he is also active in the NSCY summer service supervisory committee, NSCY European seminar committee; program committee of the National Association of College and University Chaplains and

ROTC Seniors To Be Officers

The Department of Military Science and Tactics has announced all college seniors enrolled in the Army ROTC program will be commissioned in the Army soon after their graduation in June.

The information was given by James P. Mitchell, acting assistant secretary of personnel and manpower at Fort McPherson, Ga.

Mitchell did not say whether men who are now freshmen, sophomores, or juniors in the ROTC program will be commissioned in the Army when they finish the program.

Chem-Phys Council Will Hold Banquet

Chem-Phys Student Council and the Chemistry-Physics executive committee will hold their banquet Monday at the Eutaw House. The group will meet at 6 p.m. behind Osmond Laboratory.

The next Chem-Phys Student Council meeting will be Dec. 9.

Seven Lion Players End Football Careers Today

By SAM PROCOPIO

PITTSBURGH—Once again Penn State University's football eleven arrives here at the Smokey City as the underdog against its traditional rival—the Panthers of Pitt. Although Coach Rip Engle's gridgers are not favored for the season's finale today, his reserves are capable, spirits are high, and "bring 'em on!" is the challenging cry from the Lions.

Kickoff time at Pitt Stadium is 1:30 p.m.

Seven players, including Penn State's co-captains, quarterback Tony Rados and end Don Malinak, will close out their college careers today. The other Lion stalwarts are Dick Jones, Don Eyer, Keith Vesling and Wayne Wolfkeil and linebacker Pete Schoderbek. More than 40,000 spectators are expected to watch both teams carry two-game winning streaks into this game. Pitt gained easy

The Meteorology department said yesterday there is a possibility of rain in Pittsburgh during the University of Pittsburgh-Penn State University football game today, but rain is not as certain as it was believed to be previously.

wins over Virginia and North Carolina while Penn State downed Fordham and Rutgers.

Al Michaels, Lion scout, called Pitt "a vastly better team than its 3-4-1 record would indicate." Michaels, who scouted the Panthers in their losses to Northwestern and Minnesota as well as their wins over Virginia and North Carolina State, said Pitt's defense was sound, even without the injured Eldred Kraemer—an all-American last year. He termed Pitt's ground game "decidedly above average."

"We can't give up touchdowns like we have been—and beat Pitt," the Lion scout explained. "This Pitt team is too strong defensively and far too dangerous offensively for that kind of football."

Student Reported To Dean of Men

A "peeping tom" report concerning a first-semester horticulture major was received yesterday from Campus Patrol, the Dean of Men's office said yesterday.

The student will receive a hearing on Monday or Tuesday, Frank Men's office said.

According to Capt. Philip A. Mark of the Campus Patrol, the student was apprehended about 12:30 a.m. yesterday in the area of McElwain Hall.

There is no relation between this incident and the two borough youths caught in women's dorms Thursday night, Mark said.

Amendments Are Read To Cabinet

Two amendments to the All-College Constitution were read for the second time in All-College Cabinet Thursday night.

The amendments must be read at the next meeting before action can be taken on them.

The first would permit decisions of the elections committee to be appealed to cabinet. At the present time there is no appeal for decisions of the elections committee.

The other would give the Interfraternity Council Board of Control and the Association of Independent Men's Judicial Board of Review responsibility for penalizing students for conduct detrimental to the fraternities and independents of the University. This would make the Board of Control similar to the Judicial Board of Review, which is now responsible for detrimental independent behavior.

James Musser and Hugh Cline, freshman and sophomore class presidents, were sworn into office by All-College President Richard Lemyre. Musser replaces James Bowers and Cline, Robert Homan.

Homan was named by Lemyre to head a committee to study the selection of candidates for "Who's Who in American Colleges and Universities."

Three members of cabinet, Harry Shank, president of the Education Student Council; Joe Somers, president of the Association of Independent Men; and Neil Yocum, president of the Chemistry-Physics Student Council; were nominated as cabinet representatives on a trip to the United Nations. Lemyre said the executive committee of cabinet will draw lots to select the two who will go.

Union Conclave Set Dec. 3-4

The fifth annual region three conference of the Association of College Unions will be held Dec. 3 and 4 in McKee Hall. Thirteen colleges and universities have been invited to the conclave.

College union programs, student government, and the place of the student union on campus will be discussed in informal workshops.

Student workshops will be divided into sessions for colleges in cities and those in towns since the problems of unions depend largely upon where they are located.

Newsletter Is Available Today

The Independent newsletter, published bi-weekly by the Association of Independent Men and Leonides, will be distributed today. Featured in the issue are articles on the Food Service department and Leonard Moore, Lion football star.

Allies to Get U.S. Atomic Data

WASHINGTON, Nov. 20 (AP)—The United States is going to give Britain and Canada a fill-in on some of the devastating effects of its latest atomic weapons.

The Atomic Energy Commission said today that arrangements are being made to exchange, with its wartime atomic partners, information on the "effects of atomic weapons on human beings and their environment" — effects which would include those resulting from exposure to blast, heat and radiation from bombs.

AEC Chairman Lewis Strauss has hailed the new move as one aimed at "improving our ability to defend ourselves against the effects of atomic weapons," but he said the exchange "does not envision any disclosures about the nature of our atomic weapons themselves."

An AEC information spokesman said the new move would mean "updating" Britain and Ca-

nada on the potential effects of atomic bombs on people and their environment — as distinguished from the already publicly described effects of the original bombs dropped on Japan in 1945.

While he offered no amplification, the "updating" term conceivably means giving Britain and Canada an idea of what effects might be expected from this nation's improved bombs, perhaps even including the projected H-bomb.

The potential power of America's latest models is clearly implied in a recent statement by AEC Commissioner Thomas Murray.

In a speech in Seattle last May Murray said:

"Today man . . . can, as it were, generate hurricanes, earthquakes and consuming fires. He can today open the tight doors of the atom and let forth all three—wind, earthquake, and fire—in such a

manner as to make Hiroshima's atomic attack look like a Civil War bombardment."

The information to be shared presumably will include the results of studies made of a model community that was set up and atom-bombed in the Nevada desert last March.

The AEC statement noted that Chairman Strauss referred to "this additional exchange" in a speech at Richmond, Va., last night and added that it will be "carried out by the direction of the President and with the consent of the Joint Congressional committee on atomic energy."

The statement gave no indication of what type of information now is being exchanged among the three countries. The United States stopped trading atomic secrets after the arrest of British scientist Dr. Allan Nunn May in connection with a Soviet spy ring operating in Canada.
