

University Operator Now

COLLEGE TELEPHONE OPERATORS became University telephone operators when the name change was officially approved by the county court. Although well aware she is now no longer an employee of the college, Mrs. Verna Wert,

State College, still dangles a note in front of her just so she won't say the wrong thing from "force of habit." Just in case you can't tell, it says "were," the contraction for "we are" and not "were."

Fall Semester Grads to Receive University Diplomas Belatedly

Students who will be awarded degrees at Fall semester commencement exercises Jan. 27 will receive University diplomas but delivery may be delayed until some time after graduation, it was announced yesterday.

C. O. Williams, dean of admissions and registrar, said immediately after action was taken by the court changing the College to the Pennsylvania State University, the order for the diplomas was recalled and a new one embodying the changes placed.

It will take some time to make a new engraving, print the diplomas, and have the names put on, he said. The work is done by the E. A. Wright Co., of Philadelphia.

Five Persons Are Selected For SU Board

Five persons were selected yesterday to represent alumni, graduate students, and staff members on the Student Union Board.

Formerly the board was composed of ten undergraduate students and an ex-officio member, George L. Donovan, director of associated student activities.

Alumni representatives are Ridge Riley, executive secretary of the Alumni Association, and Ross B. Lehman, assistant executive secretary of the association.

Gene Love, president of the Graduate Students' Association, will represent the graduate students.

Faculty and the administration representatives are Kent Forster, associate professor of history, and Robert M. Koser Jr., assistant to the registrar.

The board drew up a tentative list of organizations to occupy offices in the new student union building and discussed possible names for the building. It will take final action upon these matters at a later meeting.

Beam Accepts Course Forms

Applications for enrollment in three four-week agricultural short courses are now being accepted by A. Leland Beam, director of short courses in the School of Agriculture.

Instruction is offered in general farming, dairy farming, and livestock farming. The first course will be given from Jan. 6 to Feb. 3, and the last two will run from Feb. 3 to March 3.

Advance registration is required for all short courses. Application blanks and a descriptive booklet may be obtained from county agricultural agents or from Beam's office, 203 Dairy.

APHO to Hold Banquet

Alpha Phi Omega, national service fraternity, will hold a banquet at 5:45 p.m. Friday at the Hotel State College. Pledges will be initiated and officers installed.

Makeup Group to Meet

Players' makeup workshop will meet at 7 p.m. tomorrow in the basement of Schwab Auditorium.

When the order was recalled, Williams said, 400 of the needed 600 certificates had already been done. He explained it was felt students would rather have a delay in receiving their diplomas than receive one bearing college markings.

Schools May Be Changed
He said if the academic divisions now referred to as schools were changed to colleges this would also be included on the revised diplomas. It is expected the Board of Trustees will consider this question at their monthly meeting Friday.

Changes involved, Williams pointed out, would be substituting the word university for college in the heading, three times in the text, and in the seal. The master engraving is done on silver, he said, and added that this will be the first change since the early 20's.

Grade prints or transcripts, as they are popularly called, will also be relabeled to read university, he said. This will be done for all students still in school while former students will have the change noted on their records as the need or occasion arises, he said.

Expects Little Confusion
Williams stated that he felt very little confusion would come from the name change and there will be no more conflict with the University of Pennsylvania than now exists. If anything, he said, the net result will be better because

Coal Scuttle To Be Brought To University

The "Li'l Coal Scuttle" won by the University for defeating the University of Pittsburgh in the annual Pitt-Penn State football game will be returned to campus this week, Frank J. Simes, dean of men, said yesterday.

The scuttle was put on display in a downtown Pittsburgh store window several weeks before the game, Simes said. It is being engraved and will be brought to the campus by the Pittsburgh delegation to the student union conference to be held at the University this week.

The tradition of presenting the scuttle to the winner of the annual football game was started last year by the Interfraternity Councils of the two schools. The trophy resides at the winning school for the year following the game. Penn State won the scuttle last year as well.

The scuttle will be placed on display in the dean of men's office, Thomas Schott, IFC president, said yesterday.

Greeters Club to Meet

Greeters Club will meet at 8 tonight in the Home Economics cafeteria.

Growing Pains

Research Lab Nears Completion

The Animal Disease Research Center now being constructed at the rear of Orchard 3 on the University farms is over 90 per cent complete and may be completed within a month's time, Walter H. Wiegand, director of the physical plant, has announced.

The T-shaped building is being constructed for the study of livestock and poultry diseases in Pennsylvania. Construction on the one-story, concrete block building began in April.

Research projects on animal diseases, now conducted on various parts of the campus, will be centered in the new unit, according to Alfred L. Bortree, head of the Department of Veterinary Science.

New facilities will enable the University to greatly expand research on animal diseases, Bortree said. Air sac infection and other respiratory disease that have been causing serious losses for Pennsylvania poultrymen, and

diseases of the newborn calf, will receive close attention in the new center, he said.

The center is being built on a site that will provide for any desired future expansion. The site is isolated from other poultry and livestock which could spread contagious diseases.

Funds for the center were obtained by special appropriation by the state legislature and private funds. The state legislature allocated \$137,500 and the state's livestock and poultry industries contributed \$37,500. The Pennsylvania State Poultry Federation also contributed \$5713 to help provide equipment.

The main laboratories will be located in the front part of the T. Offices for veterinarians, bacteriologists, or pathologists who will supervise the research studies, will be in the front section of the T.

The basement of the center will

Fraternity Autonomy Described by NIC

A resolution upholding the right of member fraternities to decide the qualifications for membership in the fraternity without outside interference was passed at the annual National Interfraternity Conference in Cincinnati over the weekend.

The conference is an organization of fraternities, which gather to discuss mutual problems and to advise action. The conference meets in sessions of the national officers of the fraternities and in separate sessions of the undergraduates.

The "autonomy resolution" of the conference was adopted in the sessions of the national officers. The report of the committee on fraternity autonomy supported the adoption of the resolution "as a result of effort by several college administrators to regulate membership criteria of the fraternities on their respective campuses," which "constitutes a most serious threat to the entire fraternity system."

Resolution 'Objective'
The report also laid emphasis upon the "fact that the resolution neither contains nor implies opinion with respect to the desirability or undesirability of racial or religious discrimination in fraternity membership."

The resolution as adopted reads: 1. That "each member fraternity should have the right to adopt qualifications for membership applicable to all its chapters free from any interference or restriction by any non-member."

Self-Government Defended
2. That any attempt to restrict or regulate the right of a fraternity to choose its own members from among students in good moral and scholastic standing in any college or university in which it has a chapter is an inadvisable interference with the democratic processes of self-government and with the fundamental principle of free association.

3. That in accordance with such principles, the National Interfraternity Conference declares itself in favor of fraternity autonomy with respect to fraternity membership."

Reorganization Effected
A reorganization of NIC was also effected at this year's meeting. Under the new plan, a House of Delegates may be convened on a month's notice. The group would then have full jurisdiction to act.

Representing the University at the conference were Edwin Kohn, seventh semester industrial engineering major; Temple Reynolds, seventh semester forestry major; Frank J. Simes, dean of men; and O. Edward Pollock, assistant to the dean of men in charge of fraternity affairs.

1081 Get Prom Refunds

Refunds of \$1.50 each on Junior Prom tickets have been returned to 1081 students, George L. Donovan, director of student activities, has announced. Tickets were sold to 1218 persons, he said.

New Creamery Hours

The University Creamery Sales Room will be closed Sundays until spring, Dr. Chester D. Dahle, professor of dairy manufacturing, said today.

10 to Attend Music Ed Conference

Nine faculty members and a student will participate in the annual conference of the Pennsylvania Music Educators Association Thursday, Friday, and Saturday in Hershey.

Dr. Hummell Fishburn, professor of music and music education, and Frank Gullo, associate professor of music, will have charge of group singing at a luncheon. Fishburn will also appear on a panel discussing "The Scope of General Music in the High School."

Dr. Francis M. Andrews, associate professor of music education, will be chairman of a discussion concerning elementary and junior high school music programs.

James W. Dunlop, associate professor of music, will be chairman of a discussion concerning instruments.

Willie C. Taylor, professor of music education, will be moderator of the panel discussing the "Elementary Classroom Teacher and the Music Supervisor."

James K. Karhan, associate professor of music and music education, will be in charge of a demonstration of string instruments.

Barry S. Brindsmid, associate professor of music, will take part in a panel discussion on piano classes. Elmer C. Wareham, instructor in music, will be sergeant-at-arms.

Anna Mae Webb, seventh semester music education major, will participate in a panel discussion "Pre-college Preparation for the Music Education Major."

Dr. Clarence R. Carpenter, director of the Instructional Film Research program, will speak on "Why Radio, Television, and Other Sensory Aids for Music Education?" He will show an experimental film made by the research program concerning violin techniques.

Teachers' Exam Forms Are Ready

Applications are now available for the National Teacher Examination, to be given Feb. 13 at the University in accordance with the Educational Testing Service, Princeton, N.J.

Applications and a bulletin of information describing registration are available in 8 Burrows or from the testing service, Box 592, Princeton, N.J. Deadline for filing applications is Jan. 16.

Dr. Hugh M. Davidson, professor of educational research, will administer the examination.

Chest Solicitors To Return Funds

Campus Chest solicitors who have not turned in money collected in the drive should do so immediately so final tabulations may be made, Richard Gibbs, chairman, said yesterday.

Money and envelopes may be turned in at the Student Union desk in Old Main. Fifty students have not turned collections in, Gibbs said.

Forster to Speak

Kent Forster, professor of history, will discuss "Europe Through the Eyes of the Penn State Seminar" at the Belles Lettres Club at 7 tonight in the northeast lounge of Atherton. Slides will be shown.

Cummins to Speak

Donald J. Cummins of the Cummins Engine Co., Inc., Columbus, Ind., will discuss "Diesel Race Cars" at a meeting of the Society of Automotive Engineers at 7 p.m. tomorrow in 105 Mechanical Engineering.
