

Employers Seek Leadership Says Job Service Director

Poise and indications of potential leadership are what employers look for first when interviewing job applicants, G. L. Harvey Jr., director of employment service of Philadelphia Electric Co., recently told commercial consumer service seniors in the School of Home Economics.

Stressing the importance of the job interview Harvey advised the group "When you are interviewed for a job opening, be as natural and as calm as possible and remember that the interviewer is human too." A firm handshake when meeting the interviewer is the best start to an interview, he added.

As indications of potential lead-

ership, employers look for promptness, neatness, appropriate dress, friendliness, purposefulness, courtesy, self-confidence and ability to express ideas, Harvey said.

He advised the seniors to talk enough when answering questions so that they create an impression of their own personality and to ask questions about the job and company policies on working conditions during the interview.

Successful workers need good judgment, honesty, dependability and the capacity to follow instructions carefully and continuously, Harvey said. They should, he added, take good care of materials, be willing to work hard, and be tolerant of others.

Dunne Receives Professorship In Vet Science

Dr. Howard W. Dunne, former deputy chief of the veterinary medicine division of the Chemical Corps Biological Laboratories, Camp Detrich, Md., has been appointed professor of veterinary science, President Milton S. Eisenhower has announced.

Dunne will be in charge of the veterinary science research program and will be chiefly concerned with diseases of large animals.

After receiving his master of veterinary medicine degree from Iowa State College of Agriculture and Mechanical Arts, he received his doctorate from Michigan State University.

His next job was a special assignment with the Bureau of Animal Industry of the United States Department of Agriculture, where he conducted research from 1948 to 1950 on European and Mexican foot and mouth disease. In 1952 he began working at the Chemical Corps Biological Laboratories. More than 15 papers by Dunne have been published in professional journals.

Some forms of life can survive at absolute zero—the total absence of heat, scientists believe.

Snow Flurries And Cloudiness Will Continue

Occasional snow flurries and cloudiness will continue today in Centre County, according to Charles Weintraub, meteorologist at the University Weather Station.

Weintraub said the snowfall today would not reach the expected two inches because of yesterday's warmth. Today's temperature readings will continue to average about 38 degrees, he said.

Yesterday's snow was a result of a storm moving in from southern Ohio, he reported. The storm was expected to hit Centre County last night or early today.

LA LaVie Deadline Set for Tomorrow

Tomorrow will be the last day Liberal Arts seniors may have LaVie pictures taken at the Penn State Photo Shop.

Seniors must return LaVie proofs to the photo shop within three days after pictures have been taken or the staff will select the pictures to be used in the yearbook, Herman Golomb, editor, has announced.

Few Request Resetting Of Class Ring Letters

Few students have requested a resetting of their class rings with the University lettering, according to D. C. Jenkins, Balfour representative. Persons may alter orders for \$4.50, actual company cost, at the Athletic Store, Jenkins said.

Ag Technicians Visit University

Thirty agricultural technicians from nine western European countries are visiting the University this week to study farm planning and work simplification.

Four interpreters accompany them to translate addresses and other details on their program. The group, sponsored by the Foreign Operations Administration, will observe some aspects of Pennsylvania agriculture in trips to farms in Centre and Lancaster counties, study agricultural extension methods, and visit projects on the University farms.

Fall Grads--

(Continued from page two) "people will learn they have to be more careful."

The situation is not unique, he said, and cited as examples the similar cases in Ohio and California. His office is attempting to avoid trouble, he explained, by notifying organizations with which the University has considerable dealings or common interests of the change.

Music Honorary to Hold Smoker for Rushees

Phi Mu Alpha, men's music honorary fraternity, will hold a rushing smoker at 9 tonight at Alpha Chi Sigma, George Black, president, announced yesterday.

Third semester men who have shown music ability in any recognized music organizations at the University are eligible for membership.

Chorus to Rehearse

The Penn State Women's Chorus will rehearse at 7 p.m. tomorrow in 117 Carnegie, Raymond Brown, assistant professor of music, has announced.

Library Gets London Times Gift Volumes

Five hundred and fifty volumes of the London Times, dating back to 1809, have been received by the Pattee Library as a gift from the Boston Public Library.

Acquisition of the volumes, which weigh approximately 30 pounds apiece, was made possible in part by the Penn State Foundation, which paid the cost of transporting the volumes from Boston.

The volumes, which make up one of the most complete sets in the country, according to Ralph C. McComb, librarian, have been temporarily placed in the bottom floor of the new wing. They are not yet ready for use, McComb said, and it may take a week to get them in order.

Pastor to Speak At PSCA Assembly

The Rev. Robert H. Eads, pastor of the University Baptist Church, will speak on "The Christmas Baby Grew Up" at the Penn State Christian Assembly at 7 p.m. tomorrow in 304 Old Main.

An open discussion and question and answer period will follow Eads' speech. The meeting is open to the public.

Pistols are believed to have been invented in Pistoia, Italy, about 1540.

WDFM--

(Continued from page one) cooperation with the United States Marine Corps, is a Monday night feature of WDFM. Adventures in Research is scheduled for the pleasure of the scientific-minded listener. Lest We Forget is a program of instruction for democratic education.

University Programs
Faculty Forum, Open Meeting, Administration Reports, and Cabinet Review are designed to explain workings within the University's administration and student government.

No Starting Date
A definite date for actual broadcasts to begin has not yet been set because of difficulties the station is having securing materials that have been deferred for defense orders. These materials include the translators which convert FM signals of the station to AM and electronic equipment for the control board. The antenna has been erected on the roof of Sparks Building.

The station plans to transmit amplitude modulation reception in the West Dormitories, Nittany-Pollock, Simmons, Atherton and McElwain halls. In addition, the frequency modulation signal will be received anywhere in the nearby area.

Alpha Delta Sigma

Six journalism majors have been pledged by Alpha Delta Sigma, national advertising fraternity.

Pledges are Frederick Schmidt, Edmund Stashak, Randell Washburn, Carl Shaner, Robert Edings, and Robert Potter.

How the stars got started...

MARGE and GOWER CHAMPION met as shy schoolkids at dancing school. Their paths criss-crossed for years as each worked hard to make a career. Finally, Gower, back from Service, "teamed up" with Marge. After months of strenuous rehearsal, they were a sensation, creating original "dance stories" for TV, movies and stage. They are now Mister and Missus.

Marge and Gower Champion
FAMOUS DANCING STARS
