

# Proposal to Change Choice of Delegate

By PEGGY McCLAIN

(This is the last of two articles explaining the revised constitution presented to Panhellenic Council Tuesday night.)  
Elimination of sorority presidents as Panhellenic Council delegates was the second major constitution revision presented to the council for approval Tuesday night.

The other principal revision was modification of the rotational presidency clause to allow a one-year grace period to a sorority in line for the presidency in the event that that sorority could not provide a presidential candidate meeting requirements set by a Panhel screening board and the constitution.

The amended article on delegates would require that two delegates be selected from each sorority, one to be the rushing chairman and the other a delegate, other than the sorority president, appointed or elected from the sorority.

### President Now Included

The present constitution provides for two delegates from each sorority, the rushing chairman and the president.

The amendment will be effective if approved by two-thirds of the 19 voting members of the council.

The elimination of the sorority presidents as delegates was proposed by the revision committee because they felt that the presidents often were too busy with chapter responsibilities to be required to attend council meetings. Last year sorority presidents did not act as council delegates.

Speaking for the committee, Iris Rodgins, Phi Sigma Sigma rush chairman and past president, said that at present sorority women other than officers get only reports from council meetings and have no chance to participate in the meetings.

### Aim to Interest More Women

"The committee would like to get more women actively interested in the council as well as informed about it," Miss Rodgins said.

Ellen Wandel, council president, said that delegates other than sorority presidents might tend to vary council attendance from week to week. By having sorority presidents serve as delegates, she said, constant attendance is assured because the president, as leader of her sorority, would be especially particular about her group's representation and participation.

The two final amendments proposed to the council were the establishment of the post of parliamentarian to be appointed by the president and to be present at each council meeting to assure observance of parliamentary procedure during council meetings, and the addition of Alpha Kappa Alpha and Pi Beta Phi to the presidential rotation list and to the adviser rotation list.

The latter addition is in accordance with the constitutional provision that each year one Panhellenic adviser be selected for a two-year period from the local alumnae of each sorority on campus in order of national founding.
