Spring Week Hours: Let's Wait and See

Although the Senate committee on student affairs has helped the Spring Carnival situation by granting 11:15 p.m. permissions for that event, there is still some question as to what effect those permissions may have on carnival success.

The Senate committee first refused to grant late permissions for the carnival, calling a Women's Student Government Association request for midnight permissions out of order. Students and student groups pressed for reconsideration of the permission problem, and the Senate committee obliged.

That 11:15 p.m. permissions were granted, instead of 12 o'clocks as previously asked, was not an isolated move. It was to be expected the Senate committee, if it did consider the problem, would seek a compromise. Few students really felt the committee would grant midnight permissions, although such action was desirable. But student representatives who presented the second request for permissions made the initial compromise, from which the final permissions were drawn.

It is regrettable the second student request was not for midnight permissions, as was the

first. The second student request was for one 11:15 p.m. and one midnight permission. The Senate committee compromised from there, and granted two 11:15 p.m. permissions. Had student representatives not altered the original request, Spring Carnival now might have at least two 11:30 p.m. permissions for coeds.

The Senate committee, then, cannot be wholly blamed for the present situation. Student representatives backed down from their entirely justified request. However, the Senate committee's original refusal to consider the matter is the action from which the entire problem came.

Some student leaders have said refusal to grant the midnight permissions will seriously harm the carnival. They contend the largest amount of proceeds comes in the later hours. This is true. How much harm the refusal to extend the carnival that extra 45 minutes will have cannot be too accurately predicted now.

It seems advisable for the students to wait calmly until Spring Carnival is over, and see what effects the curtailment in hours—for that is what it is—will have on the carnival, and Spring Week. Then, with the effects of curtailment known, we will at least know what action should be taken for next year.

Recreation: Three Good Steps

A welcome consciousness of the need for increased recreational facilities at the University has been shown recently by approval of plans for an outdoor ice skating rink, the gift of 100 acres in Logan Forest to be developed as a recreational area, and inauguration of coed swimming in Glennland Pool.

A triple vote of confidence and thanks should go to the College of Physical Education, the Athletic Association, and the Penn State Outing Club, groups responsible for these facilities.

The Outing Club, although only recently reorganized has been instrumental in adding another project to the trend toward recreational expansion. Last semester members of the club cleared Beaver Dam in order to improve ice skating conditions for students.

Both coed swimming at Glennland and ice skating facilities within walking distance of University living quarters will be of great benefit to interested students without cars.

The Outing Club has done an admirable job of providing transportation to more inaccessible

skiing and skating areas, and in keeping students informed of weather conditions for the sports.

The picture is one of expanding facilities and opportunities for the student. Whether or not use will be made of the chances is up to each student.

Student disinterest has long been hashed over and decried. Now new fields of interest are opened. Perhaps the same old thing in the way of entertainment at the University has discouraged the outdoors-seekers, and has been responsible for dwindling interest of some in the present forms of recreation.

The State College area lends itself to many forms of outdoor recreation, and it may be assumed some students who come to the University are interested in making use of the wide-open spaces as a source of education and enjoyment. The test of this assumption will be the development of interest in efforts the University and individual groups are making.

Gazette...

Today PENN STATE GRANGE WORKSHOP, 1 p.m., Schwab basement.

Tomorrow NEWMAN CLUB MISSION, Feb. 21 through Feb. 25, 7 p.m., Our Lady of Victory Church.

INFIRMARY

Blaine Best, Annie Campbell, Joseph Charles, Peter Brindley, Arthur Bloomwell, George Kreidler, Marilyn Long, Surendra Nathurm, Joseph Nigro, Robert O'Brien, Josephine Romeo, David Webber, Nancy Eaker, Barbara Gooding.

STUDENT EMPLOYMENT

The following camps will interview prospective counselors. Students may sign up at the Student Employment office: Barree—Feb. 24; Trail's End—Feb. 27; Hiram House—March 2; Conrad Weiser—March 3; Herald Tribune Fresh Air Camps—March 12; Abington YMCA—March 16.

STUDENT PLACEMENT

KURT SALMON ASSOCIATES INC. will interview graduating seniors in IE, and M.S. candidates in IE who have completed at least one semester, on March 5. KOPPERS CO. will interview graduating seniors in Chem., and ChE; and M.S. candidates in ChE who have completed at least one semester, on March 5. CONTAINER CORP. OF AMERICA will interview graduating seniors in ME & IE, on March 5. UNIVERSITY OF PITTSBURGH SCHOOL OF RETAILING will interview graduating seniors in Bus. Adm., Acctg., Eco., Finance, Insurance & Real Estate, Marketing, Sec. Retail & Science, Trade & Transportation, Education, Psychology, Home Ec. (women), A & L, Advertising, L.M.R., languages, and Math, on March 5. I.T.E. CIRCUIT BREAKER will interview graduating seniors in EE on March 5. PENNSYLVANIA ELECTRIC CO. will interview graduating seniors in EE on March 5. RAYTHEON MANUFACTURING CO. will interview graduating seniors in Chem., Phys., Ceramics, Aero. E., ChE, EE, ME, Metal; M.S. candidates in the above who have completed at least one semester; and Ph.D. candidates in the above fields expecting to receive their degrees in 1954 on March 3. GLENN L. MARTIN CO. will interview graduating seniors in Aero. CE, EE, ME. THE NATIONAL TUBE DIV. OF U.S. STEEL will interview graduating seniors in Bus. Adm., Acctg., Bus. Mngt., and Finance on March 3. GENERAL MOTORS CORP. will interview graduating seniors in Bus. Adm., Acctg., Finance, Phys., Math., Chem., Ceramics, Metal, Aero. E., Agricultural E., CE, EE, ChE, IE, & ME on March 2, 3, & 4. PRATT & WHITNEY AIRCRAFT will interview graduating seniors in Phys., Aero E and ME; and M.S. candidates in the above fields who have completed at least one semester on March 2. WESTINGHOUSE AIR BRAKE CO. (Air Brake Divisions) will interview graduating seniors in ME and a few outstanding EE on Feb. 22. GENERAL RAILWAY SIGNAL CO. will interview graduating seniors in EE, IE, ME on Feb. 23. NORTH AMERICAN AVIATION, INC. (Downey, Calif.) will interview graduating seniors in Phys., EE, ME, CE, Aero. Engr., and General Engr.; M.S. candidates in the above fields who have completed at least one semester; and Ph.D. candidates in the above fields expecting to receive their degrees in 1954 on Feb. 24, 25. AMERICAN TOROS CORP. will interview graduating seniors in ME, CE, EE on Feb. 24. CHAS. PFIZER & CO., INC. will interview graduating

On RIL Firesides

Rabbi David Petegorsky's stimulating talk last night at the Hillel Foundation inaugurated the Religion in Life program, and it augurs well for the discussions today.

Informal discussions will be held from 3 to 5 p.m. with Petegorsky in Atherton lounge, Theodore Greene in Hamilton lounge, and George Shuster at Phi Kappa. All three speakers will participate in a panel discussion at 8 p.m. Sunday in McElwain lounge.

But, even with the extensive program and challenging subjects to be discussed, it is a good sign that the program is being extended throughout the year with the series of fireside discussions in the fraternities.

Over 30 professors at the University and clergymen of State College will participate in the program which is now under way. Fraternities have been asked to return the postcard-questionnaires in order to qualify for participation.

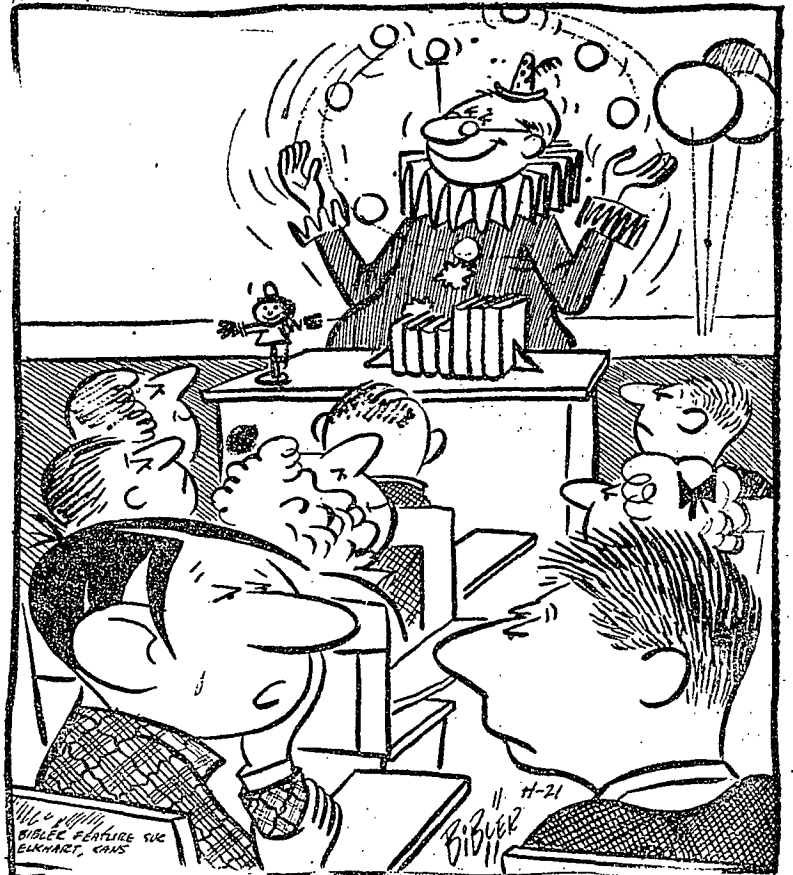

All in all, the program is a real step in the direction of transforming a Religion in Life weekend to a program of religion in life.

Bishop Outlines Chaplains' Duties

By BILL PETE

Capt. Roy E. Bishop, district chaplain for the Fourth Naval district, Thursday outlined three areas of responsibility of chaplains in a speech to Naval ROTC students.

These responsibilities, Chaplain Bishop said, include religion, counseling, and character guidance. Chaplains are responsible for all divine services and care of the sacraments, he said.

"Counseling," Bishop explained, "is important to personnel, and to all men in forming friendships with the naval group."

The third responsibility, involving character guidance, contains such programs as group instruction and recreation, Chaplain Bishop said. The whole program of character guidance is to provide for moral and spiritual growth in accordance with a person's religious beliefs, and to provide for the unimpaired possession of personnel's potential best, he said.

Chaplains today are classed as non-combatants as are doctors and nurses, Bishop explained, and they are on duty at any naval station, on ship, or with any grouping of naval personnel.

All duties of chaplains are literally those of a clergyman in uniform, and no order is given them by commanding officers which would interfere with these duties, he said.

Bishop pointed out that chaplains, who are all ordained clergymen are sent to special naval chaplain training school before being accepted into the service.

"Such a school was maintained formerly by William and Mary College, but was closed after World War II. However a chaplain training school was opened in Newport, R.I., at the outbreak of the Korean war," he said.

Chaplains have a three-fold commission in their duties, which include a commission by God, a commission by the Church, and a commission by his country, Bishop revealed.

The naval district, he explained, functions for the distribution of chaplains to naval groups. There are usually two chaplains, usually Catholic and Protestant, to each ship, except cruisers which have one, he said.

These two chaplains work as a team, and no attempts by either chaplain to convert a man of another faith are permitted, Bishop said.

More than 300 chaplains saw action during the Korean conflict, Bishop said, some 160 of these being with marine divisions with 150 on board ship.

Some 158 awards and decorations were presented these chaplains, which included four silver stars, three Legion of Merit awards, and 14 purple hearts, he said.

Weather Office Jobs Available For Summer

Students who may be interested in summer employment with the U.S. Weather Bureau in the Arctic will be interviewed by Ernest A. Wood, a bureau representative, on March 4, according to an announcement of the College of Mineral Industries.

Since 1949 the University has participated in recruiting students for resupply and general construction work with the bureau.

Three students from the University held jobs with the bureau last summer. They are Charles Conaway, fourth semester petroleum and natural gas major; Robert Jordan, seventh semester arts and letters major; and Bruce Lieske, fourth semester meteorology major.

Additional information about the jobs may be obtained in 322 Mineral Industries.

Psych Test Results

Students who took psychological tests during spring orientation may have test results interpreted by making an appointment at the Psychological Clinic annex, basement of Woman's Building.

This Weekend On WDFM

Table with columns for time slots (7:25, 7:30, 8:00, 8:30, 9:00, 9:30, 10:30) and program titles (Sign on, Music of the People, Jazz Moods, Paris Star Time, Designed for Dancing, Semi-classical, Sign off, Masterworks from France, Third Program 'Ghosts' and BBC Sixth Edinburgh Festival, Sign off, Serenade in Blue, Sportlight, Record Prevue, Top Drawer, Sequa Session, Semi-pops, Campus News, Symphony Hall, Sign off).
