

Dulles Assures Firm Stand On Red China

WASHINGTON, Feb. 22 (AP)—Secretary of State John Foster Dulles assured 15 key members of Congress today the scheduled Asian peace conference will bring "no U.S. recognition of the Chinese regime."

A State Department spokesman issued a formal statement to that effect several hours after a 90 minute conference between Dulles and the lawmakers at the State Department.

A statement released after the session said Dulles "reported fully" on the Berlin Big Four foreign ministers conference.

Meeting Outlined

The statement added: "There was a general exchange of views. Mr. Dulles emphasized: "1. That as far as Europe was concerned the Berlin conference had required Soviet Russia to show its hand, and it was still a hand which held fast to what it now had and sought to grasp some more."

"2. That so far as Asia was concerned, there would be no U.S. recognition of the Chinese Communist regime. The United States had obtained Soviet Russia's formal agreement to this condition, so efforts to unify Korea and promote peace in Indochina could proceed without changing the U.S. basic position on China."

Headway Seen

There were signs that Dulles had made some headway against talk that he had moved toward diplomatic recognition of Red China by arranging an Asian peace conference with the Peiping regime for April 26 at Geneva, Switzerland.

Sen. Homer Ferguson (R-Mich.) last week called the Geneva conference a "very calculated risk." After today's session at the State Department, Ferguson, chairman of the GOP Policy Committee in the Senate, was asked if he was satisfied no recognition of Red China was implied.

"I feel certain of that," he said. "I think the record in the press has indicated that already."

Diplomat Sees Red Reversal

SEOUL, Tuesday, Feb. 23 (AP)—The U.S. diplomat who sat in on collapse of the preliminary peace talks in Korea said yesterday the Communists now have accepted nearly everything for the Geneva conference that they turned down at Panmunjom.

"The participants, the purposes and the place of the conference on Korea are precisely those we have spent day and night pressing the Communists to accept," said Kenneth Young before departing today for Washington.

At Peiping, Red China voiced approval of the Geneva conference and gave Russia all the credit for arranging it at the Big Four meeting in Berlin.

Bargain-Seekers Mob City Stores

NEW YORK, Feb. 22 (AP)—A wild mob of 10,000 shoppers rioted on 14th street today, storming Hearn's big department store in a savage quest for holiday bargains. Fists flew, windows were smashed, women were trampled underfoot.

At least a dozen persons fainted or were injured as they risked their lives for such marked down items as \$6.95 television sets and 29 cent umbrellas.

The idea of Washington's Birthday sales originated 30 years ago in Washington, where government employees have the day off from work and are attracted to bargain counters. It was the first time New York's big stores had tried the idea.

Pakistan Requests U.S. Military Aid

KARACHI, Pakistan, Feb. 22 (AP)—Prime Minister Mohammed Ali announced today that Pakistan has formally requested U.S. military aid under terms of American mutual security law.

This is the long-discussed program which could entail establishment of U.S. military bases in this country and which has been bitterly opposed by Indian Prime Minister Jawaharlal Nehru. He has argued it would tip the balance of power between India and Pakistan.

Simultaneously in New Delhi, Nehru renewed his attack on the proposed Pakistan-U.S. pact, declaring "We do not want to enter into this circle of hatred, violence, and fear that is the cold war—and we do not want others to do so, either."

Mohammed Ali, former Pakistan ambassador to Washington, emphasized his country had asked for the military aid "for the purpose of achieving increased de-

fensive strength, a higher and stronger degree of economic stability designed to foster international peace and security within the framework of the United Nations Charter. Before making this formal request Pakistan informed itself of the requirements of the U.S. mutual security legislation and finds itself in agreement with them."

Nehru ridiculed suggestions some times heard both here and abroad that "because the United States is doing this (weighing possible military aid to Pakistan), we will rush to the Soviet Union and get their military aid."

Hoover Repudiates Depression Threat

WASHINGTON, Feb. 22 (AP)—Former President Herbert Hoover said tonight he had one depression named for him but he doesn't see signs of another "anywhere on the landscape at the present time."

The "present trouble," Hoover said, comes from a mixture of surplus production and "dehydrated optimism."

"... You can have high confidence that this is only a passing dip, a slump, a readjustment, or a recession, not a great depression," he declared.

Remedy Proposed

Hoover proposed a remedy along lines suggested by President Dwight D. Eisenhower—reducing taxes, if necessary, to increase the buying power of all the people so they can absorb the surplus production and jack up the standard of living another notch.

Hoover sized up the economic situation in an address prepared for delivery at a banquet at which he is scheduled to receive a good government award from the American Good Government Society.

Dips 'Inevitable'

The former President said that dips, recessions—whatever they are called—"come around inevitably about every five or seven years in the ebb and flow of a free economic system."

"I should be regarded as an expert on these subjects," he commented dryly.

"At least," he went on, "I was credited with having constructed one all by myself, the entire world-wide depression which lasted in the United States for ten years from 1931 to 1941. I even received the honor of having that depression named after me by various political candidates."

Hoover said he can say from experience that "the combustible materials are not hereabouts to construct another conflagration like that of the decade of the 30's."

Army Action Is Denounced By McCarthy

WASHINGTON, Feb. 22 (AP)—Sen. Joseph McCarthy (R-Wis.) today made public the transcript of a stormy closed-door hearing in which he told Brig. Gen. Ralph W. Zwicker that the Army's promotion and honorable discharge of an alleged Communist major was "a tremendous disgrace to the Army."

The transcript showed that McCarthy also accused Zwicker of "hemming and hawing" in reply to questions which he said "any 5-year-old child could answer."

At other points in the interrogation the senator told the general he was not fit to wear his uniform and that "you should be removed from any command."

Zwicker, a much-decorated hero of World War II who took part in the D-Day invasion of Normandy, is now the commanding officer at Camp Kilmer, N.J. Like McCarthy, he is a native of Wisconsin.

Along with the release of the transcript, McCarthy ordered a two-day postponement of the appearance of Secretary of the Army Robert T. Stevens, who had been invited to testify tomorrow at a nationally televised hearing before McCarthy's Senate Investigations subcommittee.
