

Students Polled On SU Name

By JOE BEAU SEIGNEUR

Of the 684 Penn State students polled by the Daily Collegian to determine the most popular name for the new Student Union building, 65 per cent preferred Student Memorial Building over other names suggested.

Questions asked students polled were, "Have you a suggestion for a name for the new Student Union Building?" and "If not, which of the following three suggestions do you favor?":

Warnock Union Building (in honor of Arthur R. Warnock, dean of men for 30 years).

Hetzl Union Building (honoring Ralph Dorn Hetzel, president of the University for 20 years).

Student Memorial Building (a tribute to Penn State war dead).

128 Offer Other Ideas

Nineteen per cent offered suggestions of their own choice, the most popular being Penn State Union Building with 40 votes. Original suggestions were offered by 128 students.

Collegiate Hall Suggested

Student Union Building was favored by 22 students, and 12 favored Permanent Union Building. Ten students chose Lion's Den as a name for the building. Eight were in favor of Nittany Union Building.

Thirty-six students gave other choices for names, and eight of the 36 said they didn't like any of the names suggested.

Among the suggestions were Eisenhower Building, Collegiate Hall, College House, the Hub, Dew Drop Inn, Main Building, and the Hole.

Chem-Phys Council Sets Open House

Approval for the annual Chemistry-Physics Open House to be held May 1, was given by the College's student council last night.

The object of the open house is to present to high school students and prospective students of the school a picture of the facilities and types of studies which will be theirs at Penn State, George Tice, committee co-chairman, said. Three half-hour lectures and a number of experiments in chemistry and physics will be offered, and students will be guided on informal tours of the facilities.

A high school Science Fair will be held in conjunction with the open house. It will present demonstrations of the science projects of high school students from schools within a fourteen mile radius of State College.

Ed Grad Coffee Hours

The College of Education will hold the first in a weekly series of coffee hours for graduate students in education from 3 to 5 p.m. today in 6 Burrowes.

Eng Council Plans Mixer

A call for volunteers from each engineering school to work on skits for the engineering mixer March 17 was made Tuesday at the Engineering Council meeting by mixer committee chairman George Ebbert.

The council discussed a possible queen contest for the mixer, in which entries would be sent in, with finalists being judged at the mixer. The plan is only in the tentative stage, however.

A bulletin board showing when each engineering organization is scheduled to meet was presented to the council by John Brickley, eighth semester industrial engineering major. The board will probably be placed in Main Engineering for the convenience of engineering students who are members of the organizations. Council president Paul Brobst pointed out that the board will help to eliminate students scheduling activities the same night.

Hamilton Hall Vandals Cause \$155 Damage

Damages amounting to \$155 caused by vandals in A and B levels, Hamilton Hall, on Dec. 8 have been revealed by James W. Dean, assistant to the dean of men in charge of independent affairs.

Damages were also made to a ceiling in a student's room in Hamilton Hall, Dean said. Repairs to lavatory walls in that area will be done during the summer and have been estimated to cost \$1000, he said.

Damage was caused when the vandals broke shower heads behind the walls and water flooded the area behind the walls in the dormitory. One student's room was flooded. The lavatory was closed several days for repairs.

Otto E. Mueller, director of housing, said Monday that costs for the repairs would come from the department's budget. Dean and Mueller explained that damages in which students involved are not prosecuted are paid by the University.

About 60 per cent of damages to dormitory units last semester were paid by students, Mueller said.

Damage to the ceiling has been set at \$100, Dean reported. The Association of Independent Men's Judicial Board recommended the student pay for the ceiling, burns on a desk, and carving on a chair in his room. Costs for the burns and carving were set at \$7.
