

Animal Disease Lab To Be Constructed

Construction of a second \$225,000 animal disease research laboratory to be built on the University Farms will get underway early this summer, it was announced yesterday. The new building is expected to be completed by the spring of 1955.

70 Named To Staffs Of WDFM

Seventy students have been named to the staffs of Station WDFM for the spring semester, David R. Mackey, general manager, announced yesterday.

The executive staff responsible for the operation of the station includes 20 people.

They are Doris Berkowitz, student station manager; Emily Snyder, program director; John Citron, assistant program director; Charles Folkers, business manager; Kenneth Stern, production director; Joseph Varholj, production department head; Phillips Scott, chief engineer; M. Craig Sanders, technical director; Donald Sweitzer, chief control operator; David Baker, campus and community service director; Theodore Baer, chief announcer; Allison Munn, continuity director; Joseph Hayes, promotions and public relations director; Marvin Margulies, music director; Sandra Greenspun, librarian; Mary Lois Henry, office manager; Anne Hesch, traffic director; Stephen Capin, director of special services; Has Simm, director of sports; and William Jost, news director.

Other members of the staff, by departments are engineering, Sherman Francisco, James Raleigh, David Richardson, Robert Shama, and Thane Papony; music, Jane Bergdoll, Jane Cameron, Frances Hottinger, Bonnie McElroy, and Georgianna Martin; campus and community services, Jane Albrecht, Bruce Geisinger, LeRoy Nikitscher, Dwight Spencer, and Ethel Wilson; office, Linda Holmes, Claire Krieger, Janet Ramandanes, Arline Rudeski, Dorothy Williams, Edith Brooks, Bertha Creasing, Rosemarie Jackel, Sandra Cunningham, Sarajane Frechafer, and Nancy Lee; traffic, Beverly Marcus and Marjorie Babb; and sports, Jack Lieberman, and Stephen Fishbein; promotion and public relations, Louise Glud.

The division of special services includes 27 students. Students in this department are rotated among the various production and service jobs. Many announcers, writers, and special program personnel participating in the station programs come from this division.

The special service department includes Mary Cebel, Barbara Lee Edwards, Elaine

recently-completed Animal Disease Research Laboratory which was opened in January.

The new lab will be built near the other building, to the rear of Orchard 3 on the University Farms.

20 Isolation Units
The building will contain 20 isolation units for the study of diseased animals. This is twice as many as are in the first laboratory.

Research on diseases affecting cattle, swine, and sheep will be conducted in the new building. When it is completed, research on poultry diseases will be confined to the other laboratory, which is smaller.

The new lab will also house a pharmacy and examination room, an office for veterinarian clinician, laboratories for autopsies, and offices.

Incinerator in Basement
The basement of the one-story building will contain an incinerator for disposing of carcasses of diseased animals.

Plans for the construction were announced yesterday by Walter H. Wiegand, director of the physical plant, and Alfred L. Bortree, head of the department of veterinary science.

Funds from GSA
Funds for the building were earlier appropriated by the General Assembly.

The isolation pens, patterned along modern units constructed recently in other states, will be adaptable for research without danger of spreading the disease to other animals or endangering the health of workers.

Giltman, Judith Gropper, Herbert Hamburger, George Holtin, Dominic Landro, Robert Mast, Nancy May, Joseph Price, Rhoda Resneck, Ben Shields, Harriet Steinman, William Pokis, John K. Thomas, Rose Mary White, Catherine Vandenburg, Johanne Llewelyn, and Maria Stupp.

Town Council To Publish Newsletter

Town Council voted Wednesday night to begin the organization and publication of its own newsletter of the Association of Independent Men. Financial backing for the Independent was dropped by the AIM Board of Governors last week.

Council's publication will be designed only for town residents. No individual council of AIM is publishing a newsletter for all independent men.

Leroy Kromis, eighth semester arts and letters major, was appointed temporary co-ordinator of the proposed bi-monthly publication. The Council said the first publication was expected to be released by the middle of March.

Council announced the temporary name of the publication as the Townsmen. Another name may be chosen later this semester.

Donald Weidner, third semester agricultural education major, was named the Council's sixth member to the AIM Board of Governors. Weidner's appointment was the result of an increase of 400 students living in town. Last semester 2600 men lived downtown.

NISA Deadline Set for Today

Today is the last day independent men may apply for interviews with the Association of Independent Men to become a discussion group leader at the National Independent Student Association convention at Cornell University April 14 to 17.

Richard Rigling, chairman of the NISA committee, has reported ten students have applied to be screened by the AIM executive committee. The screening will be held tomorrow, he said.

Six leaders and six alternates will be chosen, he said. The topic of the convention is "Responsibility of the Individual and of the Organization."

Application may be made to members of the AIM executive committee or area presidents.

Sophs Begin Queen Contest

Entries in the sophomore class queen contest may be submitted at the Student Union desk, Old Main, from noon today until noon March 12, Janet McKee, co-chairman of the sophomore class queen committee, has announced.

The contest is being run in conjunction with the semi-formal sophomore class "spring prom" to be held Mar. 20 in Recreation Hall.

A panel of judges will select the five finalists. The finalists will appear at the dance where the queen will be chosen and crowned.

The contest is open to sophomore women sponsored by any campus organization. The minimum size for portraits of contestants is 2 1/2 by 4 inches.

Weather Society Ends Flag Project

The weather flags, sponsored by the Penn State student branch of the American Meteorological Society will not be flown this semester because the Society has been declared temporarily inactive, president Charles Harrington announced.

Insufficient publicity, conflicting meetings, and lack of interested people were responsible for the society's suspension, he said.

Harrington, a seventh semester meteorology major, said the society may be reorganized in September.

ROTC Units to Be Solicited for Blood

The Army, Navy, and Air Force Reserve Officers Training Corps will be solicited for blood donations April 26 to 28, Marie Wagner, blood drive chairman, announced yesterday.

CLASSIFIEDS

WANTED

MALE STUDENT to share apartment with graduate student. Call Bob 2675.
TWO MALE students to share Metzger Apt. Preferably L.A. Contact Bill Taylor Apt. 36 meal hours or evenings.

HOW THE STARS GOT STARTED...

MAUREEN O'HARA says:
"My first stage appearance was at age 5—between acts in a school play—reading a poem. I've literally lived acting ever since! First, in clubs, churches, amateur theatricals. I was on the radio at 12; in the Abbey Theatre at 14—had my first screen test at 17. Acting is hard work—but I love it!"

"WHEN I CHANGED TO CAMELS, I FOUND I WAS ENJOYING SMOKING MORE THAN EVER! CAMELS HAVE A WONDERFUL FLAVOR...AND JUST THE RIGHT MILDNESS!"

Maureen O'Hara
Lovely Hollywood Star

START SMOKING CAMELS YOURSELF!
