

11,084 Students Are Registered In Spring Semester Enrollment

A total of 11,084 students are enrolled on campus for the spring semester, according to final enrollment figures released yesterday by C. O. Williams, dean of admissions and registrar.

This figure represents a rise of 298 over last spring's total even though it is a drop of 445 from the fall semester figure of 11,529 students enrolled on campus. The 3.9 percentage drop is low in comparison with last spring's 5.2 figure, Williams said.

Elizabethtown To Collaborate In Eng Training

Elizabethtown College and the University have completed plans to collaborate in a program to train students in engineering, it was announced yesterday by A. C. Baugher, president of Elizabethtown College, and President Milton S. Eisenhower.

The joint plan will enable a student to enroll for a three-year liberal and scientific program at Elizabethtown, and then to transfer to the University for the final two years of work.

The student will qualify for a B.A. degree from Elizabethtown and a B.S. degree from the University.

The program provides a liberal arts and technical education in five years instead of the usual six or more. It provides time for undecided students to determine whether they wish to enter the engineering field.

Application for the program will be made at Elizabethtown. At enrollment time students will indicate their intention to continue the program. The student will be recommended to transfer to the College of Engineering and Architecture at the University in his sixth semester. He will be qualified to enter aeronautical, civil, electrical, industrial mechanical, or sanitary engineering curriculums.

Transponder Tests Continue

The transponders installed in the West Dormitory area last month by Station WDFM are still being tested, according to Phillip Scott, chief engineer.

Scott said reception has been generally good, but minor adjustments are still necessary.

John Price, assistant to the general manager, said yesterday student response in the West Dorm area has been good. Several calls were received Sunday night, he added.

When final testing is complete, the transponder will be removed, specifications will be drawn up and submitted to a commercial manufacturer for production.

Weisman Discusses Modern Architecture

By BETTY KOSTER

The American people seem to know more about ancient mounds of Mesopotamia and pyramids of Egypt than they do about 19th century commercial architecture, Winston R. Weisman, assistant professor of fine arts, told members of the Faculty Luncheon Club yesterday.

Weisman illustrated his talk on the magnificent "Commercial Palaces of New York" with slides of lithographs of many of the forgotten landmarks of the mid-19th century.

From the lack of knowledge on the subject, he said he assumed that Americans must think their ancestors did nothing "except stay at home and go to church." This, of course, was very wrong, he said.

Prior to this period of great elegance in public taste, most business and commercial buildings were drab two and three story affairs, he said. The age of elegance and the striking buildings of Greek revival style was brief, however, Weisman said, due to the great expense and space consumed by useless pillars and other ornaments.

The new trend in American commercial buildings in New York began with the erection of a giant marble dry goods store known as

Included in the total of 11,084 are 8203 men and 2881 women, establishing a ratio of 2.85 men to women. This is a slight increase over last semester's ratio of 2.82.

Total enrollment at the University including students attending Penn State centers at Altoona, DuBois, Erie, Hazelton, Ogortz, and Pottsville, and freshmen at the Mont Alto Forestry School has reached 12,241. The Center enrollment of 1157 includes 943 men and 214 women.

The freshman class with 2783 students represents the largest enrollment, followed by the sophomores with an enrollment of 2569; junior class, 2157; and senior class, 1932. The on-campus total also includes 1415 graduate students and 228 special students.

Class Figures Listed
Breaking the totals down according to sex the figures are: freshman class, 2046 men and 737 women; sophomore class, 1908 men and 661 women; junior class, 1547 men and 610 women; senior class, 1440 men and 472 women; and graduate school, 1178 men and 237 women.

The College of Engineering is the largest of the nine colleges with a total enrollment of 2029. This figure includes 1963 men and 41 women. It is followed by the College of the Liberal Arts with 1746 students, 1103 men and 643 women.

The Colleges of Education and Agriculture are close behind in total enrollment with figures of 1187 and 1180 respectively. There are 386 men and 801 women enrolled in the College of Education and 1072 men and 108 women in the College of Agriculture.

860 in Bus College
Eight hundred sixty students including 769 men and 91 women comprise the enrollment of the new Business college; 747 students including 136 men and 611 women in the College of Home Economics; 719 students including 665 men and 54 women in the College of Chemistry and Physics; and 417 students representing 412 men and 5 women in the College of Mineral Industries.

The College of Physical Education and Athletics ranks last in size with 224 students including 122 men and 102 women.

Dropping from last spring's total of 378, the Division of Intermediate Registration has an enrollment of 288 men and 44 women. Its purpose is to counsel students who are uncertain about their educational goals and to aid those whose low scholastic grades prevent them from continuing in a particular curriculum.

WDFM to Begin Program Series For 'Fair Sex'

It's a man's world, they say, but the fairer sex will have its say when Station WDFM inaugurates the first in a new series of programs at 8:30 p.m. tomorrow. Dubbed "The Women's Angle," the program will feature a panel discussion on campus problems by four coeds.

The topic for this week's show is "What should Penn State men do about the way they dress?" The panel will be composed of two permanent members and two guests. Permanent members of the panel include Barbara Lee Edwards, fourth semester home economics major, and Eleanor Moran, second semester arts and letters major.

Guests this week are Beverly Marcus, sixth semester arts and letters major, and Agnes Doody, graduate student in speech.

Theodore Bair is producer of the show and John Price, assistant to the general manager, will act as moderator.

Spangler Dies At Nittany Inn

John M. Spangler, 64, who was honored as a distinguished alumnus of the University in 1952 and named chairman of the first Alumni Fund, died yesterday at 12:30 a.m. at the Nittany Lion Inn.

The cause of death, according to the deputy coroner of Centre County, was a coronary occlusion.

As an undergraduate, Spangler was co-founder and editor of Froth magazine, historian of his class, and a member of Eta Kappa Nu, electrical engineering honor society.

Spangler arrived yesterday, accompanied by his wife, to participate in three University meetings. He was a member of the executive board of the Alumni Association.

He had been former president and chairman of the Board of Directors of the National Carbon Division, Union Carbide and Carbon Co.

Four Students Omitted From Eng Dean's List

Four students were omitted from the dean's list for the College of Engineering and Architecture in the Thursday issue of the Daily Collegian.

On the list are juniors David Overmier, 3; and Allan McGee, 2.5. Sophomores included are Glenn Cumblidge, 3; and Paul Dehoff, 2.58.

RUDY BLACK TRIO daily at the Town House. Supper music at 5 p.m. and Evening at 9 p.m.

Men Debaters Win 11 of 18 Tourneys

Three men's debate teams won 11 out of 18 debates last weekend at tournaments at West Virginia University and Boston University, Benjamin Sinclair, debate manager, announced yesterday.

Sidney Goldblatt and Richard Kirschner, debating the affirmative of the question, "Resolved: that the United States should adopt

a policy of free trade" at West Virginia, won four out of six debates. They defeated Bridgewater College, Fairmont State College, West Virginia, and Georgetown University, Ky. They lost to Richmond University and the University of Pittsburgh.

Donald Pripstein and Ronald Iserberg on the negative won five out of six debates, including West Virginia, Waynesburg College, Georgetown, D.C., and Georgetown, Ky. Dickinson College was the team's only loss.

25 Teams Entered
Twenty-five teams from northern and southern colleges were entered in the tournament. Identical trophies were awarded the winning southern team, Richmond University, and the winning northern team, Princeton. Kirschner entered the after-dinner speaking contest with a satire on debate judges, "Honorable Judge."

David Meckler and Sinclair won two out of six debates at Boston University. They alternated positions on the free trade question in each of the six rounds. The team defeated the University of Maine and Fordham University, losing to Smith College, Wesleyan University, Vermont University, and Merrimack College.

Dartmouth Wins
Thirty-two teams were entered in the Boston competition, including Notre Dame, Harvard, West Point, and Annapolis. Dartmouth College was awarded the winner's trophy. Sinclair participated in the extemporaneous speaking contest.

Joseph F. O'Brien, professor of public speaking, accompanied the team to Boston, and Harold J. O'Brien, assistant professor of speech, went to West Virginia.

Thomson to Discuss Eng Problems Tonight

Donald Thomson Jr., assistant professor of mathematics, will address faculty members interested in forming a chapter of the Society for Industrial and Applied Mathematics at 7:30 tonight in 228 Sparks.

Thomson will discuss "Some Applications of Analog Computers to Engineering Problems With Special Reference to the REAC."

Farm Bureau Offers Grant For Ag Sophs

The Pennsylvania Farm Bureau has announced that it will make available each year to second semester sophomores a \$150 scholarship, which would become effective the first semester of the junior year.

The proposal is to be offered this spring with the hope that the scholarship award would continue through a two-year period until the recipient has been graduated from the University.

The scholarship will include as a prerequisite a minimum of eight weeks work during the summer vacation at the end of the sophomore year. The student will work with the Farm Bureau.

Students can receive the scholarship again in their junior year if they again work for eight weeks with the bureau.

A one-year scholarship is offered to junior students on the same basis.

For specific information on how to apply for a scholarship, students may contact Mrs. Marjorie Repko, 111 Ag.

Queen Contest Entries Sought

No entries in the sophomore class queen contest have been received as yet, Janet McKee, co-chairman of the sophomore class queen committee, said late yesterday afternoon.

The deadline for photographs of contestants to be handed in to the Student Union desk in Old Main, is March 12. The minimum size for pictures is 2½ by 4 inches.

The contest, sponsored in conjunction with the sophomore class semi-formal dance March 20, is open to sophomore women sponsored by any campus organization.

Five finalists will be chosen by a panel of judges and will appear at the dance.
