SU Workers Still Disregard Parking Code

Campus Patrol Capt. Philip A. Mark said yesterday the patrol is experiencing considerable difficulty with construction workers on the Student Union who insist on parking in Lot 23 between Grange dormitory and Temporary building.

Thursday, patrolmen tagged nearly 50 cars who were unauthorized to park in the area and over a dozen were found there yesterday, Mark said. He credited the cut to asking the superintendent of construction to have his men park in Lot 50 which is allotted to them.

If the violations continue, Mark said, the patrol has the alternative of charging the offenders with trespassing, which carries a fine of \$10 and costs. He termed this as "very drastic" however, and said he doubted it would be applied.

Mark also said the crack-down on students driving on Pollock road during class hours had been very successful. He said there were only three violators apprehended yesterday and none the day before.

Wash That Window

THE MAN washing the windows of the new wing of Pattee Library is safe from falls. A boatswain, the same type of arrangement used by sailors to clean the sides of ships, holds him securely. Conventional window-washing equipment cannot be used on the library's windows because of their construction.

DIR Enrollment Shows Drop Of 101 Students

Enrollment figures for the Division of Intermediate Registration for the spring semester, released by director Harold K. Wilson, show a drop of 101 students from the fall semester total.

Current enrollment shows a total of 338 students. Enrollment for the fall semester was 439. Of the 338 now in DIR, 170 are enrolled for their first semester, and 160 are enrolled for the second semester. A student may remain in DIR for a maximum of two semesters, with approval of the dean of the division.

The number of students who transferred out of DIR into a college totaled 134. Of these, 51 transferred into the College of Business Administration. Transfers into the College of the Liberal Arts totaled 36.

The College of Agriculture received 13 transfers and the College of Education 12. Next in line were the College of Home Economics with eight, the College of Mineral Industries and the College of Engineering and Architecture, each with five, the College of Chemistry and Physics with three, and the College of Physical Education with one.

Coeds to Choose Rooms Monday

Third through seventh semester women who have not received definite room assignments and desire a room for next year must draw numbers Monday, according to Mrs. Cordelia L. Hibbs, assistant to the Dean of Women in charge of housing.

Mrs. Hibbs said yesterday women may draw numbers from 8 a.m. until noon and from 1:30 to 5 p.m. Monday in the Dean of Women's office, 105 Old Main.

Women will not be allowed to select rooms if they have not drawn numbers. This deadline does not apply to eight-week students and second semester freshmen who will draw numbers in April.

IT'S ALL A MATTER OF TASTE

No guessing games with cigarettes
When Luckies are your brand—
A cleaner, fresher, smoother smoke,
A taste that's really grand!

Phil W. Elder

When you come right down to it, you smoke for one simple reason . . . enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better . . . always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.
