

Borough May Ban All-Night Parking

Letters have been received by University fraternities advising them that next fall all-night parking may be prohibited and suggesting ways in which the individual houses might remedy their problem.

The information was sent out by the State College traffic commission which has recently completed a study of the parking situation on borough streets and alleys. It stated that the findings and recommendations would be presented to the burgess with the request that they go into effect Sept. 1.

In addition to prohibiting all-night parking within borough limits, the recommendations also call for 2-hour parking limits on many streets.

Bottle-necks Pointed Out

Most of the individual suggestions sent to some fraternities along with the letter, called attention to ways in which present parking areas off the street could be enlarged. They also pointed out specific bottlenecks which the houses could help eliminate.

The letter said many of the borough streets in both business and residential areas are so narrow that on-the-street parking creates a constant danger to routine and emergency traffic. Also, it pointed out, if the problem could be cleared up now, it would answer the need for visitors' parking space during Centennial Year.

Called Early Warning
Burgess David R. Mackey explained that the early notification of the proposed regulation would give fraternities time to find remedies instead of coming back next fall and finding the rule in force. He said the borough would help those who had no ground on which to put parking facilities.

The investigation of the parking problem is part of a program for better traffic control, Mackey said. The borough police are also participating, he said, in that he has asked them to be more strict and consistent in their enforcement of traffic laws.

Taylor to Explain 'Elijah' Tonight

Mrs. Willa W. Taylor, professor of music education, will present an interpretation of Mendelsohn's "Elijah" at 7 tonight in 304 Old Main.

The program will be the second in a series of "Religion and the Arts," sponsored by the Penn State Christian Association.

Leadership Group To Hear Arnold

David Arnold, All-University secretary-treasurer, will discuss "How to Make Reports to All-University Cabinet" at 7 tonight in 228 Sparks.

This will be the third lecture in the Leadership Training Program, sponsored by cabinet. The general topic for tonight's program is "Reports, Records, Correspondence, and Publicity."

Candidates—

(Continued from page one)
On the issue about the Interfraternity Council social code plank which the elections committee rejected last week from the Lion Party platform, Arnelle said it would continue to receive serious consideration by Lion Party candidates.

"As it stands now, the administration has the upper hand," Arnelle said. "We are trying to put more authority in IFC." He said the proposed plank would not

U.S. Agriculture Head To Address Dairy Group

Ezra T. Benson, U.S. Secretary of Agriculture, will speak at the 49th annual meeting of the American Dairy Science Association from June 21 to 24 at the University, Professor Francis J. Doan, chairman of the committee on arrangements, said.

Approximately 1600 delegates are expected to attend the three-day meeting which will be devoted to technical research papers, symposia and organized discussions on all phases of dairying. Discussions will include reports of every phase of production and utilization of milk and dairy products.

Ezra T. Benson
Dairy Science Speaker

While most of these reports are highly scientific the entire program reflects the progress within the American dairy industry, said John O. Almquist, publicity chairman of the committee.

Membership in the dairy association is composed largely of college specialists in the dairy and dairy cattle industry. It also includes scientists and technicians in dairy plants, dairy cattle breeders and others in the commercial field.

Other members of the arrangement committee are Donald V. Josephson, head of the Department of Dairy Husbandry; Chester D. Dahle, professor of dairy manufacturing; Robert H. Olmstead, professor of dairy husbandry; Charles R. Gearhart, dairy husbandry professor, and Almquist.

change the drinking code. Its main purpose is, he said, "to avoid fraternities spending so much money for permanent house-mothers."

Thespians to Get Reserved Tickets

Complimentary and reserved tickets may be obtained by Thespians and cast and crew members of "Bloomer Girl" at 1:30 p.m. today at the Student Union desk in Old Main.

Tickets must be picked up by 5 p.m. tomorrow, according to Moylan Mills, director of "Bloomer Girl."

Regular ticket sales will begin Monday at the Student Union desk. Tickets for Thursday night cost \$1 and those for Friday night, Saturday afternoon, and Saturday nights, \$1.25.

CPA to Meet Tonight

Members of the Central Promotion Agency will meet at 7 tonight in 119 Carnegie for a training class.

Hat Society Council

Hat Society Council will meet at 7:15 tonight in 204 Old Main.

10 GENERAL ELECTRIC PROGRAMS FOR COLLEGE GRADUATES

Career opportunities with a bright future await the college graduate who joins General Electric. To help him toward early success, G.E. offers these ten programs—each including both challenging work assignments and broadening classroom studies.

If you are interested in building a career with General Electric, consult your placement officer for the date of the next visit of the G-E representative on your campus. Meanwhile, for further information on the career programs described here, write: College Editor, Dept. 2-123, General Electric Co., Schenectady, N. Y.

ENGINEERING PROGRAM

This program gives engineers a sound foundation for professional careers—in research, development, design, manufacturing, application, sales, installation and service, or advertising.

APPARATUS SALES ENGINEERING

Offered to men who have completed the Engineering Program, this program develops young men who can combine engineering knowledge with sales contact to sell G-E industrial products.

MANUFACTURING TRAINING

Open to technical and some non-technical graduates, this three-year program provides leadership training in manufacturing supervision, manufacturing engineering, purchasing, production control, or plant engineering.

BUSINESS TRAINING COURSE

BTC's purpose is to develop business administration, economics, liberal arts, and other graduates in accounting and related studies for leadership in G.E.'s financial activities and other activities which require business training.

PHYSICS PROGRAM

For Bachelor and Master graduates, this program gives industrial training and orientation in many fields of physics at G.E.—and offers great diversity in placement openings.

MARKETING TRAINING

Open to MBA graduates, and to young men who have shown special ability in marketing, this program develops men for future managerial positions through training in all seven primary functions of marketing.

CHEMICAL AND METALLURGICAL PROGRAM

Open to chemists, metallurgists, chemical, ceramic, and metallurgical engineers at BS and MS level. Assignments extend from process development to plant liaison—from research and development to sale of process instruments.

EMPLOYEE & PLANT COMMUNITY RELATIONS TRAINING

Open to technical and non-technical graduates, this leadership training program provides assignments in engineering, manufacturing, marketing, finance, and employee and plant community relations.

ATOMIC "TEST"

Open to science and engineering graduates, this program is conducted in the Hanford Atomic Products Operation at Richland, Washington to train men for positions in the atomic energy field.

ADVERTISING TRAINING COURSE

This program combines on-the-job training with integrated classwork courses and offers the opportunity to learn all aspects of industrial advertising, sales promotion, and public relations.
