

Steere to Head Chapel Service

Douglas Steere, professor of philosophy at Haverford College, will discuss "Holy Expectancy" at the Chapel service at 10:55 a.m. tomorrow in Schwab Auditorium.

Fraternity and sorority members have been urged to attend church services in observation of Greek Sunday by John Garber, chairman of the Greek Sunday committee.

Elections Code Gets Approval Of AIM Board

The Association of Independent Men's Board of Governor's Wednesday approved the elections code for the AIM spring elections. The code was submitted by Edward Stoops, AIM elections committee chairman.

Elections will be held April 28. Any independent man is eligible for office providing he has at least a 1 All-University average. However, the nominee for AIM president must be a fifth or sixth semester student at the time of his nomination.

At the time of his nomination a nominee must have at least two semesters remaining in school.

Nominations will be made from the floor of the Board of Governors. Any independent man who is not a member of the board of governors may nominate himself by submitting a petition of 300 signatures to the board. Nominations close April 26, except for nominations from the floor.

Election will be by a majority of voting members of the Board of Governors. Officers to be elected are president, vice president, secretary, and treasurer. Balloting will be by secret preferential ballot. A defeated candidate for an office may be renominated for lower office. The chairman of the elections committee will preside at the elections.

Poly Sci Professor Named Consultant

Harold F. Alderfer, director of the Institute of Local Government and professor of political science, was named consultant with the commission on Inter-governmental Relations by the national office of the American Political Science Association in Washington.

The commission is conducting a study in six different states to show the impact of the Federal grant-in-aid program on the state and local governments. Alderfer has been assigned to the group which is studying the problem in South Carolina.

Statistical Association To Meet Tuesday

The American Statistical Association will meet at 4:10 p.m. Tuesday in 107 Willard to discuss the reorganization and broadening of membership of the local chapter.

Membership in the national association is not required for membership in the local chapter. Anyone interested in statistics may attend the meeting.

Journalism Professor Is Author of Book

James W. Markham, associate professor of journalism, is the author of a book "Boward of the Post-Dispatch." The book is published as the fifth book in a "Journalism's Monograph Series" arranged by the Association for Education in Journalism's Council on Communications Research and the Louisiana State University Press.

Spring Week Entries

Combined organizations that wish to participate in the Spring Week program May 10-14 are asked to register their groups with the Spring Week committee by 5 p.m. Wednesday, according to George Richards, chairman. Individual group chairmen may address their forms to Richards at the Student Union desk in Old Main.

Clubs Seek Phone Line For Alumni

The possibility of hooking up alumni clubs by leased telephone wire so they may "attend" Penn State's centennial birthday party is now being studied, Louis H. Bell, director of public information, has announced.

If the plan, not yet presented formally, is adopted, alumni clubs would meet on Feb. 22, 1955, the night of Penn State's 100th birthday, at the same time the celebration is taking place on campus.

The "network" of leased telephone wire would enable the clubs to hear the address of President Milton S. Eisenhower, around which they could build their programs.

The "network" would be arranged through a central agency at the University and the expenses of setting it up would be paid by the clubs.

The birthday celebration will be the first event of the Centennial year. It will probably be held in the ball room of the new Student Union building.

The second event to be given special attention will be the June commencement.

Centennial projects will attempt to acquaint the public with the University. The projects include a motion picture, speaker's bureau, series of radio programs, high school pageant, and an alumni institute.

Rec Hall Wing Is Now in Use

Physical education classes have begun to use portions of the addition to Recreation Hall, Ernest B. McCoy, dean of the College of Physical Education and Athletics, has announced.

McCoy reported locker rooms on the first floor are being used, but none of the other facilities are yet being occupied by the college. No changes in the old facilities were involved in moving into the new quarters, he said.

Warne Writes Book On Payable Injuries

Alice Warne, research assistant in the Bureau of Business Research, has written a revised edition of "Work Injuries Compensable in Pennsylvania" published by the Bureau of Business Research.

Ossian R. MacKenzie, dean of the college of Business Administration, explains in the introduction the response to the first edition, which appeared in 1951, was so great it seemed advisable to prepare a new edition. Recent changes in benefits, coverage, and administrative procedure are covered in the new edition.

Thomas Schott, Interfraternity Council president, and Ellen Wandel, Panhellenic Council president, will participate in the service. Several fraternities and sororities will attend in a body, Garber and Jeannette Nitrauer, co-chairmen, have announced.

Floral Baskets Donated
Fraternity and sorority members will also read lessons and usher for services in the Episcopal and Presbyterian churches. Floral baskets have been donated to town churches and Chapel by fraternities and sororities.

The Chapel Choir will sing for introit "Psalm 121," (Schutz) and for anthem "Set Me as a Seal Upon Thine Heart" (Walton).

George E. Ceiga, University organist, will play for the prelude "Chorale Prelude on St. Anne" (Noble), offertory "Consecration" (Coerne) and postlude "Canzona Post il Communio" (Frescobaldi).

B.S. Degree in Ag
Steere received a B.S. degree in agriculture from Michigan State College and graduate degrees from Harvard University, Oxford University, and Lawrence College.

He has been lecturer at Episcopal Theological Seminary, Ingersoll lecturer at Harvard, and Rauschen Busch lecturer at Colgate-Rochester.

Steere has served Quaker Missions in Scandinavia, Germany, Finland, Norway, and Poland, and has recently returned from a mission to South Africa.

A member of Phi Beta Kappa, the Society of Friends, and the Commission on Atomic Warfare in Light and Christian Faith, he is also the author of several books on philosophy.

Selective Service Test Set April 22

Approximately 300 students are expected to take the Selective Service college qualification test April 22 at the University.

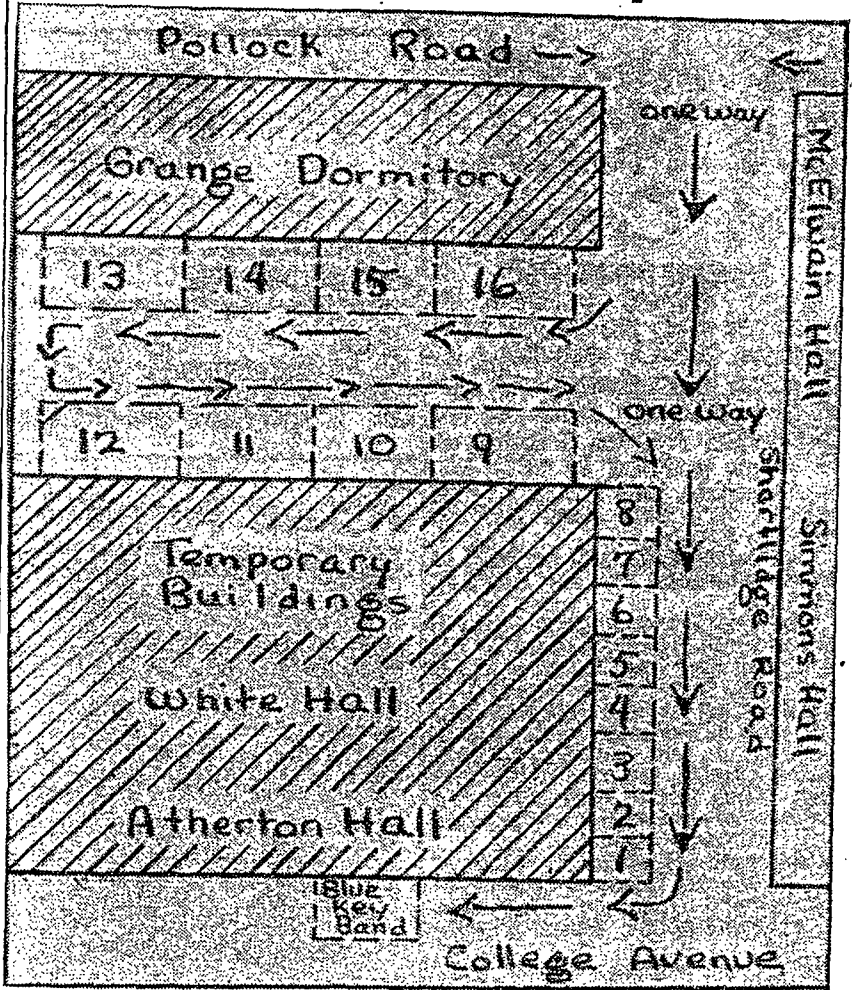

Students scheduled for the exam should be in 121 Sparks before 8:30 a.m. according to Hugh Davison, professor of educational research, who will administer the test for the Educational Testing Service.

Students are expected to bring to the exam a ticket of admission, a form bearing the stamp of their Selective Service local board, and a lead pencil.

Penn State Grange

The Penn State Grange will hold a workshop to bind hymnals at 1 p.m. today in the basement of Schwab Auditorium.

Greek Parade Assembly Area

Greeks Will Work On Projects Today

Fraternities and sororities will conduct work projects in 16 areas in the borough and vicinity this afternoon as the opening event of the 1954 Greek Week.

The groups will go to their designated work areas after a parade along College avenue from Shortlidge road to Atherton street. The

parade will form in the parking lot above the Temporary Classroom Building at 12:30 p.m. It will begin at 1 p.m. A band, sponsored by Blue Key, junior men's hat society, will lead the parade.

No northbound traffic will be permitted on Shortlidge road between 12:30 p.m. and the time the parade moves, Capt. Philip A. Mark of the Campus Patrol, has announced.

Chairmen Given Maps
Maps showing where each project group will assemble for the parade have been given to project chairmen who will explain the assembly procedure to each fraternity and sorority in their group, Marie Heller, project committee co-chairman, has announced.

The above map shows where each work project group will assemble by the project number.

Assigned projects, group participants and projects co-chairmen are 1. State College High School football field: Phi Sigma Sigma, Delta Upsilon, Phi Sigma Kappa, and Phi Delta Theta; Barbara Schmidt and Marshall Dawsey; 2. Sunset playground: Chi Omega, Kappa Alpha Theta, Acacia, Theta Xi, and Theta Kappa Phi; Barbara Easter and William Brubaker; 3. Holmes-Foster playground: Delta Zeta, Alpha Xi Delta, Sigma Alpha Epsilon, Sigma Pi, and Alpha Chi Rho; Kathleen Sullivan and James Parmiter; 4. South Hills borough; Pi Beta Phi, Delta Sigma Phi, and Triangle, Cecelia Johns and Charles Berryhill.

East Fairmount Playground
5. East Fairmount playground: Alpha Chi Omega, Alpha Epsilon Pi, and Phi Sigma Delta; Louetta Crewe and Malcomb Katze; 6. Corl street, Phi Mu, Zeta Beta Tau, Chi Phi, and Kappa Alpha Psi; Georgia Huber and Mike Kramer; 7. Ferguson Township (Pine Grove Mills): Theta Phi Alpha, Delta Chi, Theta Chi, and Phi Kappa Tau; Patricia Nageotte and Ronald Spangenberg; 8. Centre County Home for Aged, Delta Delta Delta, Lambda Chi Alpha, Phi Kappa Sigma and Delta Tau Delta, Lois Fried and Lewis Sharp.

9. Little League baseball field: Alpha Epsilon Phi, Tri Vi, Alpha Tau Omega, Alpha Chi Sigma, Elizabeth Engle and Emil Borra; 10. Legion Park: Beta Sigma Omicron, Phi Epsilon Pi, Tau Kappa Epsilon, Pi Kappa Phi; 11. Borough refuse area (borough dump): Delta Gamma, Alpha Phi Alpha, (Continued on page eight)

Capitol Dome Painter Reports On Progress of Mural Project

By NANCY FORTNA

Painting murals is a comparatively safe way to earn a living—that is, if you don't mind working from great heights.

Stuart Frost obviously doesn't. This 28-year-old artist is now at work on a series of murals in the new auditorium of the Mineral Sciences Building after a previous assignment in Washington's Capitol dome which took him 74 feet off the ground.

Frost began painting on his current project last October, and he hopes to complete it shortly. However, plans for the murals have been underway for more than two years. The artist worked with the building's architect to insure complete color harmony and unity of design in the auditorium.

The idea for the murals, a series of maps, came from Edward Steidle, former dean of the College

of Mineral Industries, Frost said. The murals will show the dependency of Pennsylvania upon the world for its mineral resources and industries.

One side wall represents the mineral resources of the world and indicates how they are transported to the United States.

The other side shows the United States and the flow of minerals into Pennsylvania. At the front of the room are two maps of Pennsylvania, one depicting its mineral wealth, and the other its mineral industries.

"The idea," Frost said smilingly, "is that no one can sit in this room without learning something about minerals."

Getting the maps onto the walls in an accurate scale proved quite a job, and once they were on, Frost faced the problem of finding a way to enliven them.

To accomplish this, he invented a series of "texturing wheels." These consist of one, three, or five small wheels on a stem. Frost uses them in the place of brushes in a close cross-hatching pattern to

produce the effect of a textured surface.

Frost uses three bright colors to indicate fuels, metallic minerals, and non-metallic minerals on his maps. Fuels are shown in black lettering outlined with yellow. Metallic minerals are red outlined with white, and non-metallic minerals are yellow outlined with red.

When asked how he remembers which minerals are metallic or non-metallic, Frost replied, "I either have to know them or run around the halls and check with someone else."

Besides painting the murals in the Mineral Sciences Building, Frost also teaches six hours a week in the Fine Arts department.

A 1949 graduate of the University, Frost is currently working for his masters' degree at New York University.

These are the second murals on which he has worked for Penn State. He was one of Henry Varnum Poor's assistants when that well-known painter did a group of frescoes in Old Main in 1949.
